

Getting Started with:

# LinkedIn Matched Audiences

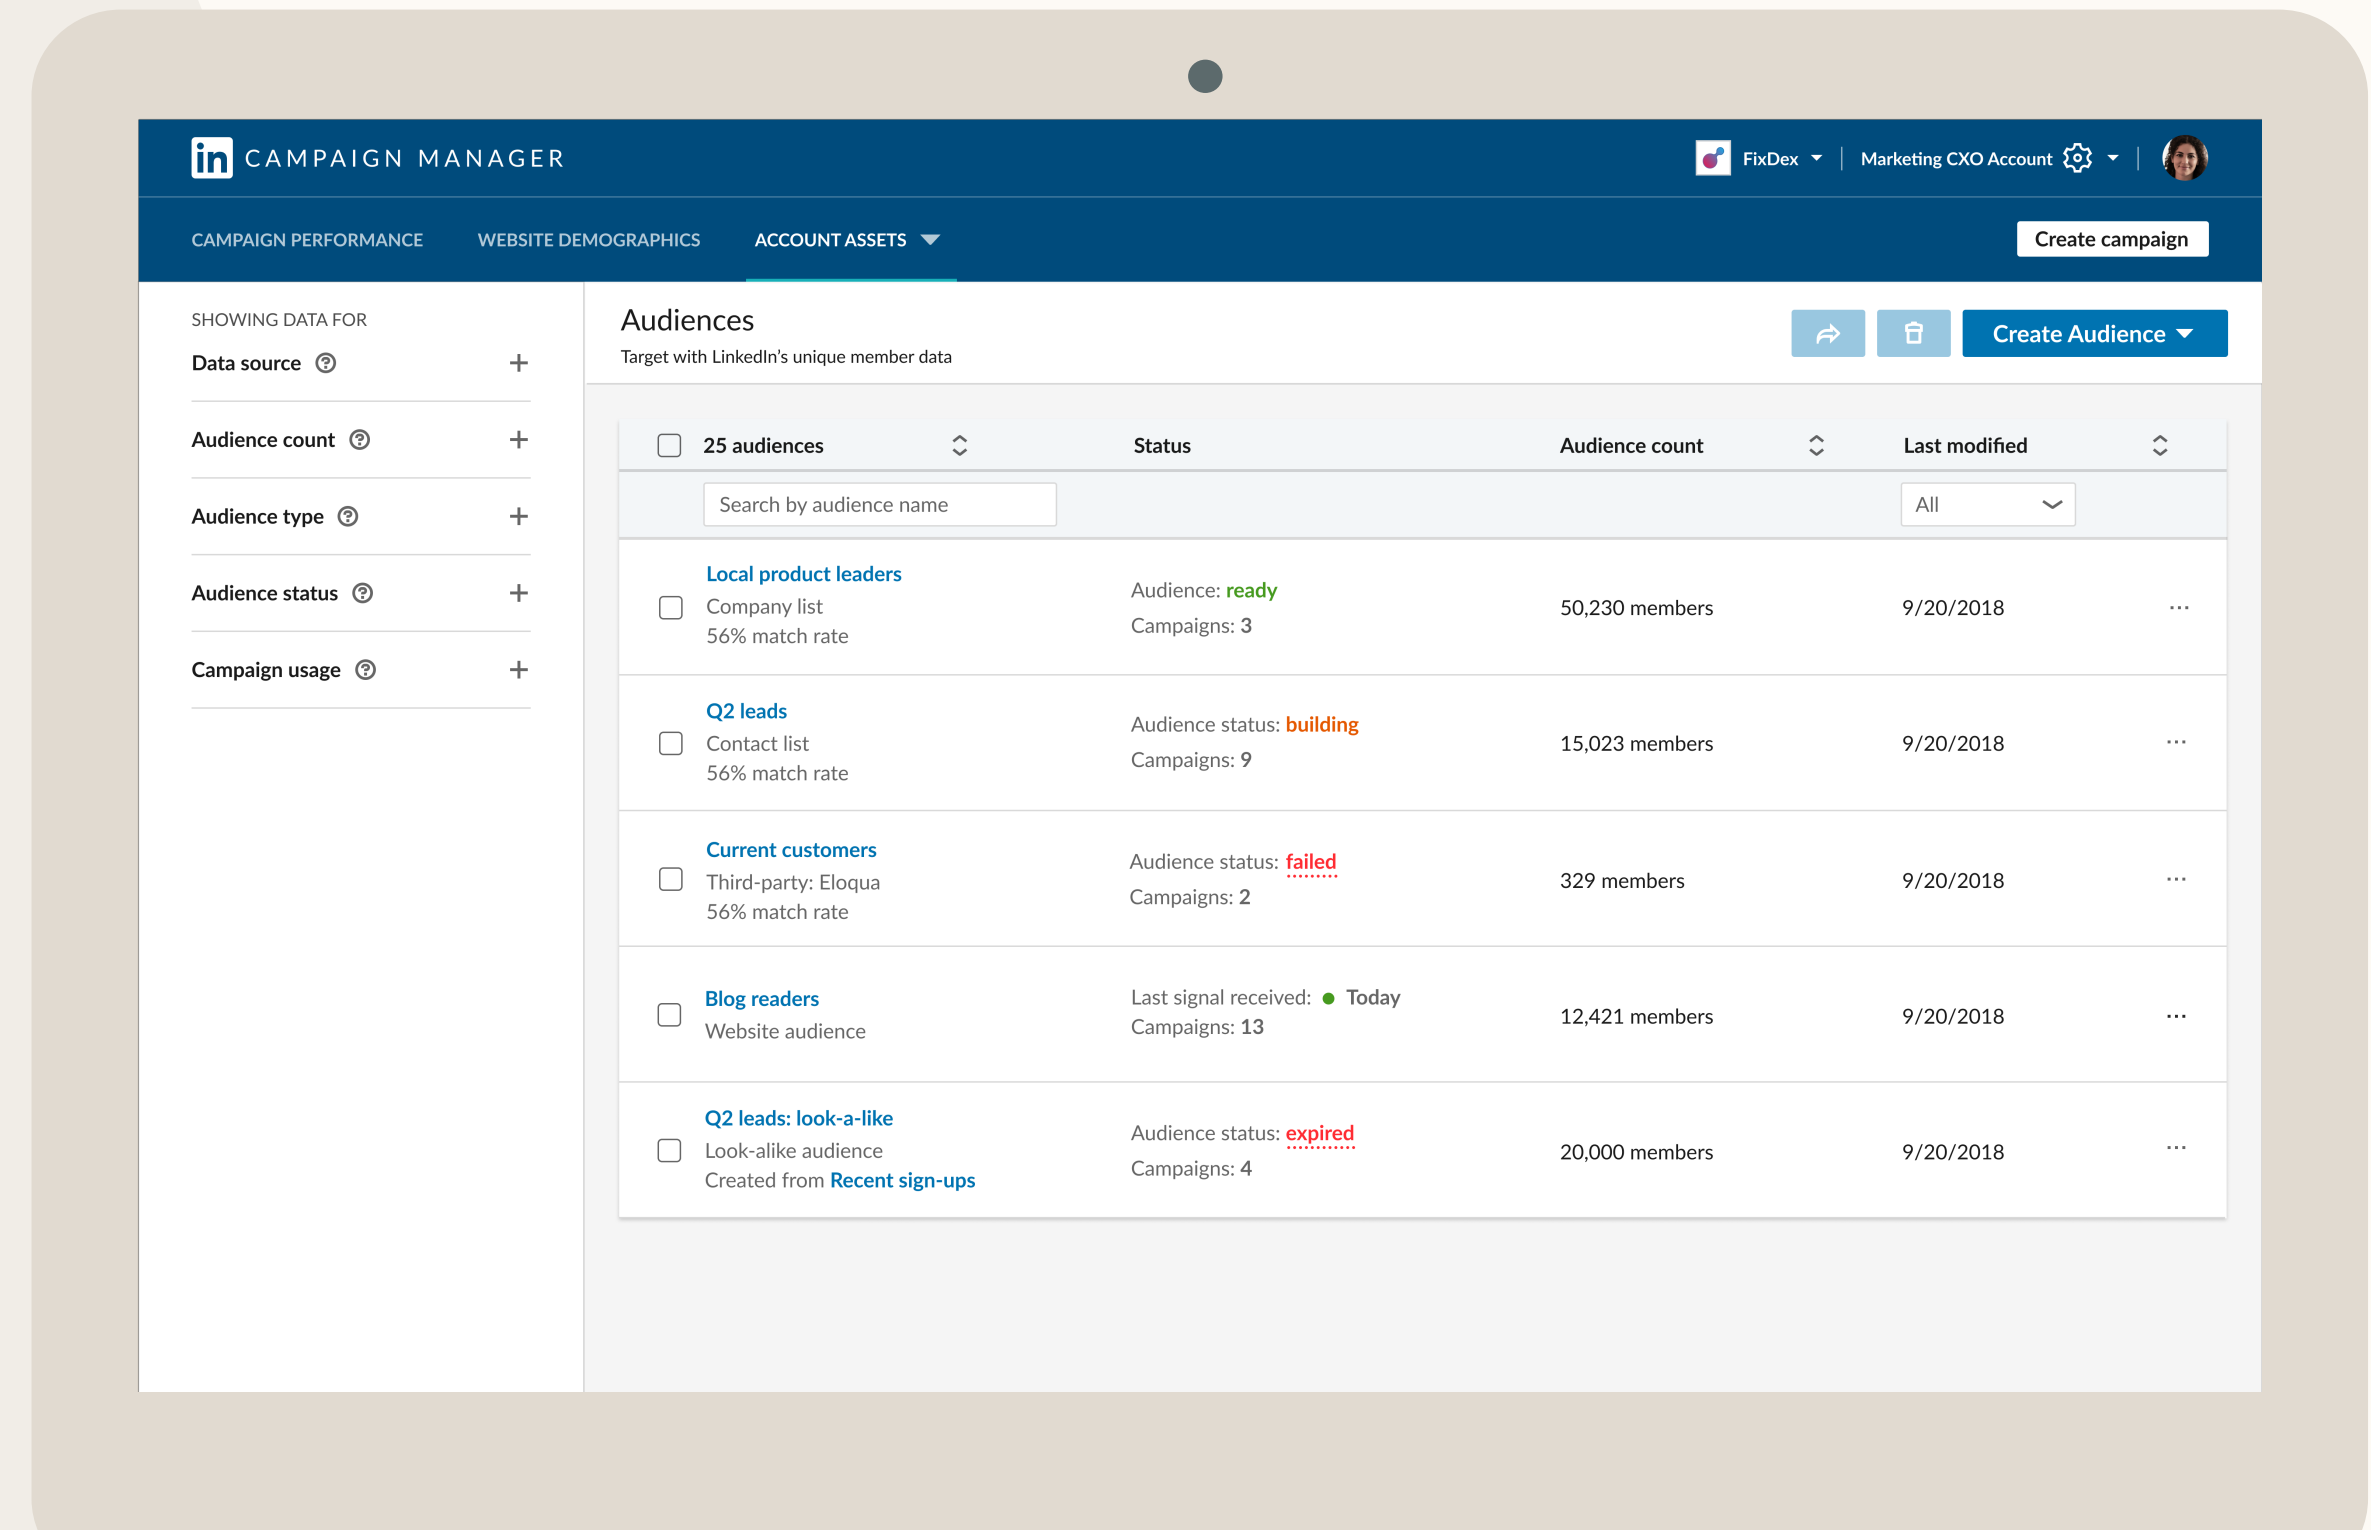

# Let's get started

This is a step-by-step guide to getting started with LinkedIn Matched Audiences.

LinkedIn Matched Audiences is a set of targeting capabilities that empowers you to reach your target audience, including people you already know, with website, engagement, contact, and company targeting.

This guide will walk you through setting up Matched Audiences.

# Introducing Matched Audiences

In this section, you will learn what you can do with Matched Audiences and we will prepare you to start setting up your own.

The screenshot shows the LinkedIn Campaign Manager interface. The top navigation bar includes 'CAMPAIGN PERFORMANCE', 'WEBSITE DEMOGRAPHICS', and 'ACCOUNT ASSETS'. The main content area is titled 'Audiences' and shows a list of audience segments. A dropdown menu is open over the 'Audience count' column, showing options for 'Retarget by' (Website, Video, Lead gen form, Company page, List upload) and 'Create from' (Lookalike, Attributes).

<input type="checkbox"/>	25 audiences	Status	Audience count	Last m
<input type="checkbox"/>	<b>Local product leaders</b> Company list 56% match rate	Audience: <b>ready</b> Campaigns: 3	50,230 members	9/20/18

# Why Matched Audiences?

Reach people you already know with website, engagement, contact, and company targeting.

# What can you do with Matched Audiences?

## Retargeting

**Precisely reach an audience** based on a page visited on your site or an action taken with your ad.

[Show me how](#)

## Contact Targeting

**Import or integrate your contact email lists.**  
Connect to your data platform(s) or upload a list of information on your contacts.

[Show me how](#)

## Company Targeting

**Reach decision makers at your target accounts.**  
Combine the power of demographic targeting on LinkedIn with your target company list.

[Show me how](#)

# Your audiences in a single dashboard

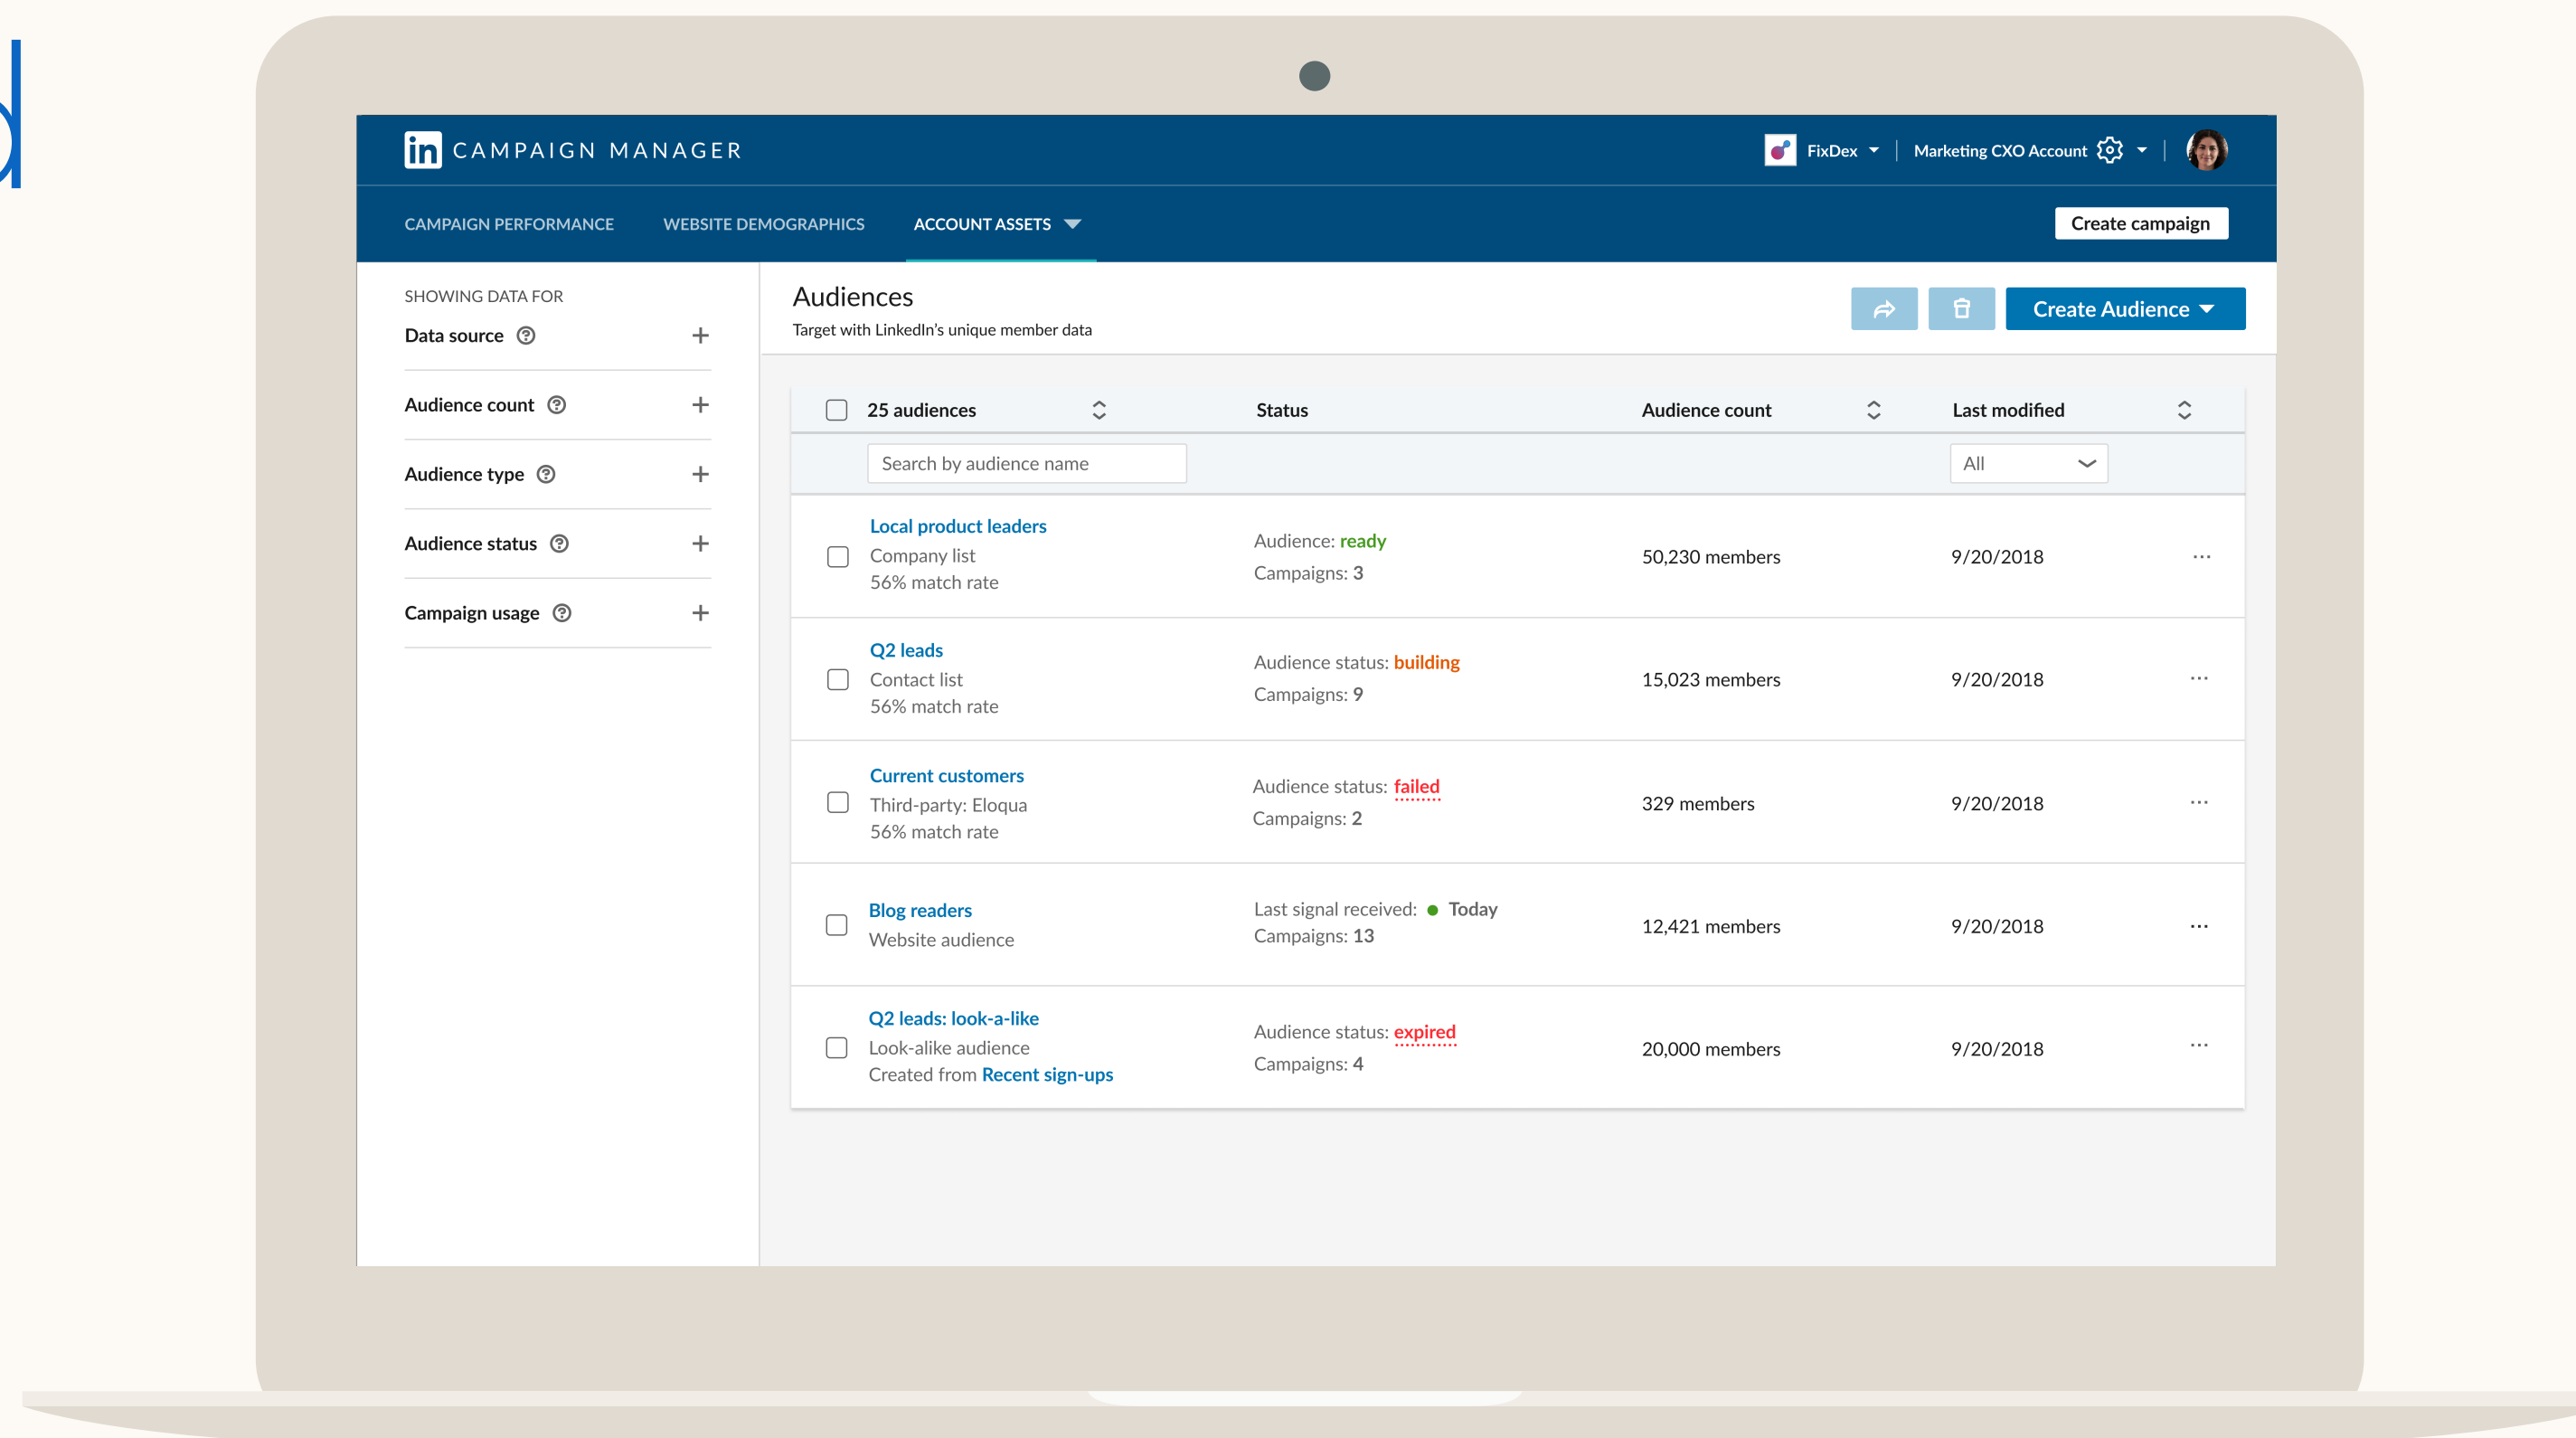

**Create** a retargeting audience, upload company lists or contact lists in one spot

**Share** a copy of your matched audiences across any of your ads accounts

**View** of the status of audiences synched from your data management platform

You're  
ready to go

You now know the basics of Matched Audiences. Next, we will guide you through Retargeting.

# How to set up Retargeting

In this section, we will walk you through setting up Retargeting, so you can precisely reach an audience based on a page visited on your site - **Retarget by Website** - or an action taken with your ad - **Retarget by Video or Lead Gen Form**.

# Retarget professionals when it matters

## Retarget by Website

Market to those who showed interest by visiting key pages on your company's website.

Show me how

## Retarget Video viewers

Keep your company in consideration with a qualified audience who watched part or all your video ad.

Show me how

## Retarget by Lead Gen Forms

Increase your chance of conversion from those who opened a lead form or submitted a lead.

Show me how

# Retarget by Website

In this section, you will learn how to create a website audience and add it to your campaign.

But first, have you added the **LinkedIn Insight Tag** to your website?

[My site doesn't have an Insight Tag](#)

[My site already has an Insight Tag](#)

# To start, add a LinkedIn Insight Tag to your website

Skip this step if your site already has an Insight Tag

1

Add a lightweight JavaScript code to your site  
[Instructions / FAQ](#)  
[Video: Generating a LinkedIn Insight Tag](#)

2

We recommend one tag per website domain  
Make sure all your domains are listed on the Insight Tag menu or the retargeting segment may not work correctly.

3

Give the tag some time to build  
While the tag will take time to build your audience, you can set up your website targeting segments right away.

# Set up your Insight Tag

Copy + paste the Insight Tag code into your site's global footer, or email the instructions to your web team.

## Workaround for global tag

If adding the tag to your global website footer is not possible, tag the page(s) you want to use for website retargeting.

## Image pixel support

While website retargeting may work with an image pixel, JavaScript tag is recommended.

### Choose how to install your tag

#### I will install the tag myself

Get the tag code to add to your website

Paste the Insight Tag code below in your website's global footer, right above the closing HTML <body> tag. Adding the tag to the footer will let you track conversions or retarget on any page across your whole site.

```
<script type="text/javascript">
  _linkedin_partner_id = "195994";
  window._linkedin_data_partner_ids = window._linkedin_data_partner_ids || [];
  window._linkedin_data_partner_ids.push(_linkedin_partner_id);
</script><script type="text/javascript">
  (function(){var s = document.getElementsByTagName("script")[0];
  var b = document.createElement("script");
  b.type = "text/javascript";b.async = true;
  b.src = "https://snap.linkedin.com/li.lms-analytics/insight.min.js";
  s.parentNode.insertBefore(b, s);})();
</script>
<noscript>

</noscript>
```

# Once you have the Insight Tag, create your website audience

- 1 [Once your account is set up](#), navigate through the campaign creation flow until you reach the targeting section.
- 2 [Click on the Matched Audiences tab](#)  
Select '+ Add matched audiences' and choose 'Create website audiences.'
- 3 [Define the web URLs](#) that will make up your website retargeting segments.
- 4 [Complete setup steps and activate your campaign.](#)  
Your audience can take up to 48 hours to build and your campaign will begin delivering once your audience reaches 300 members.

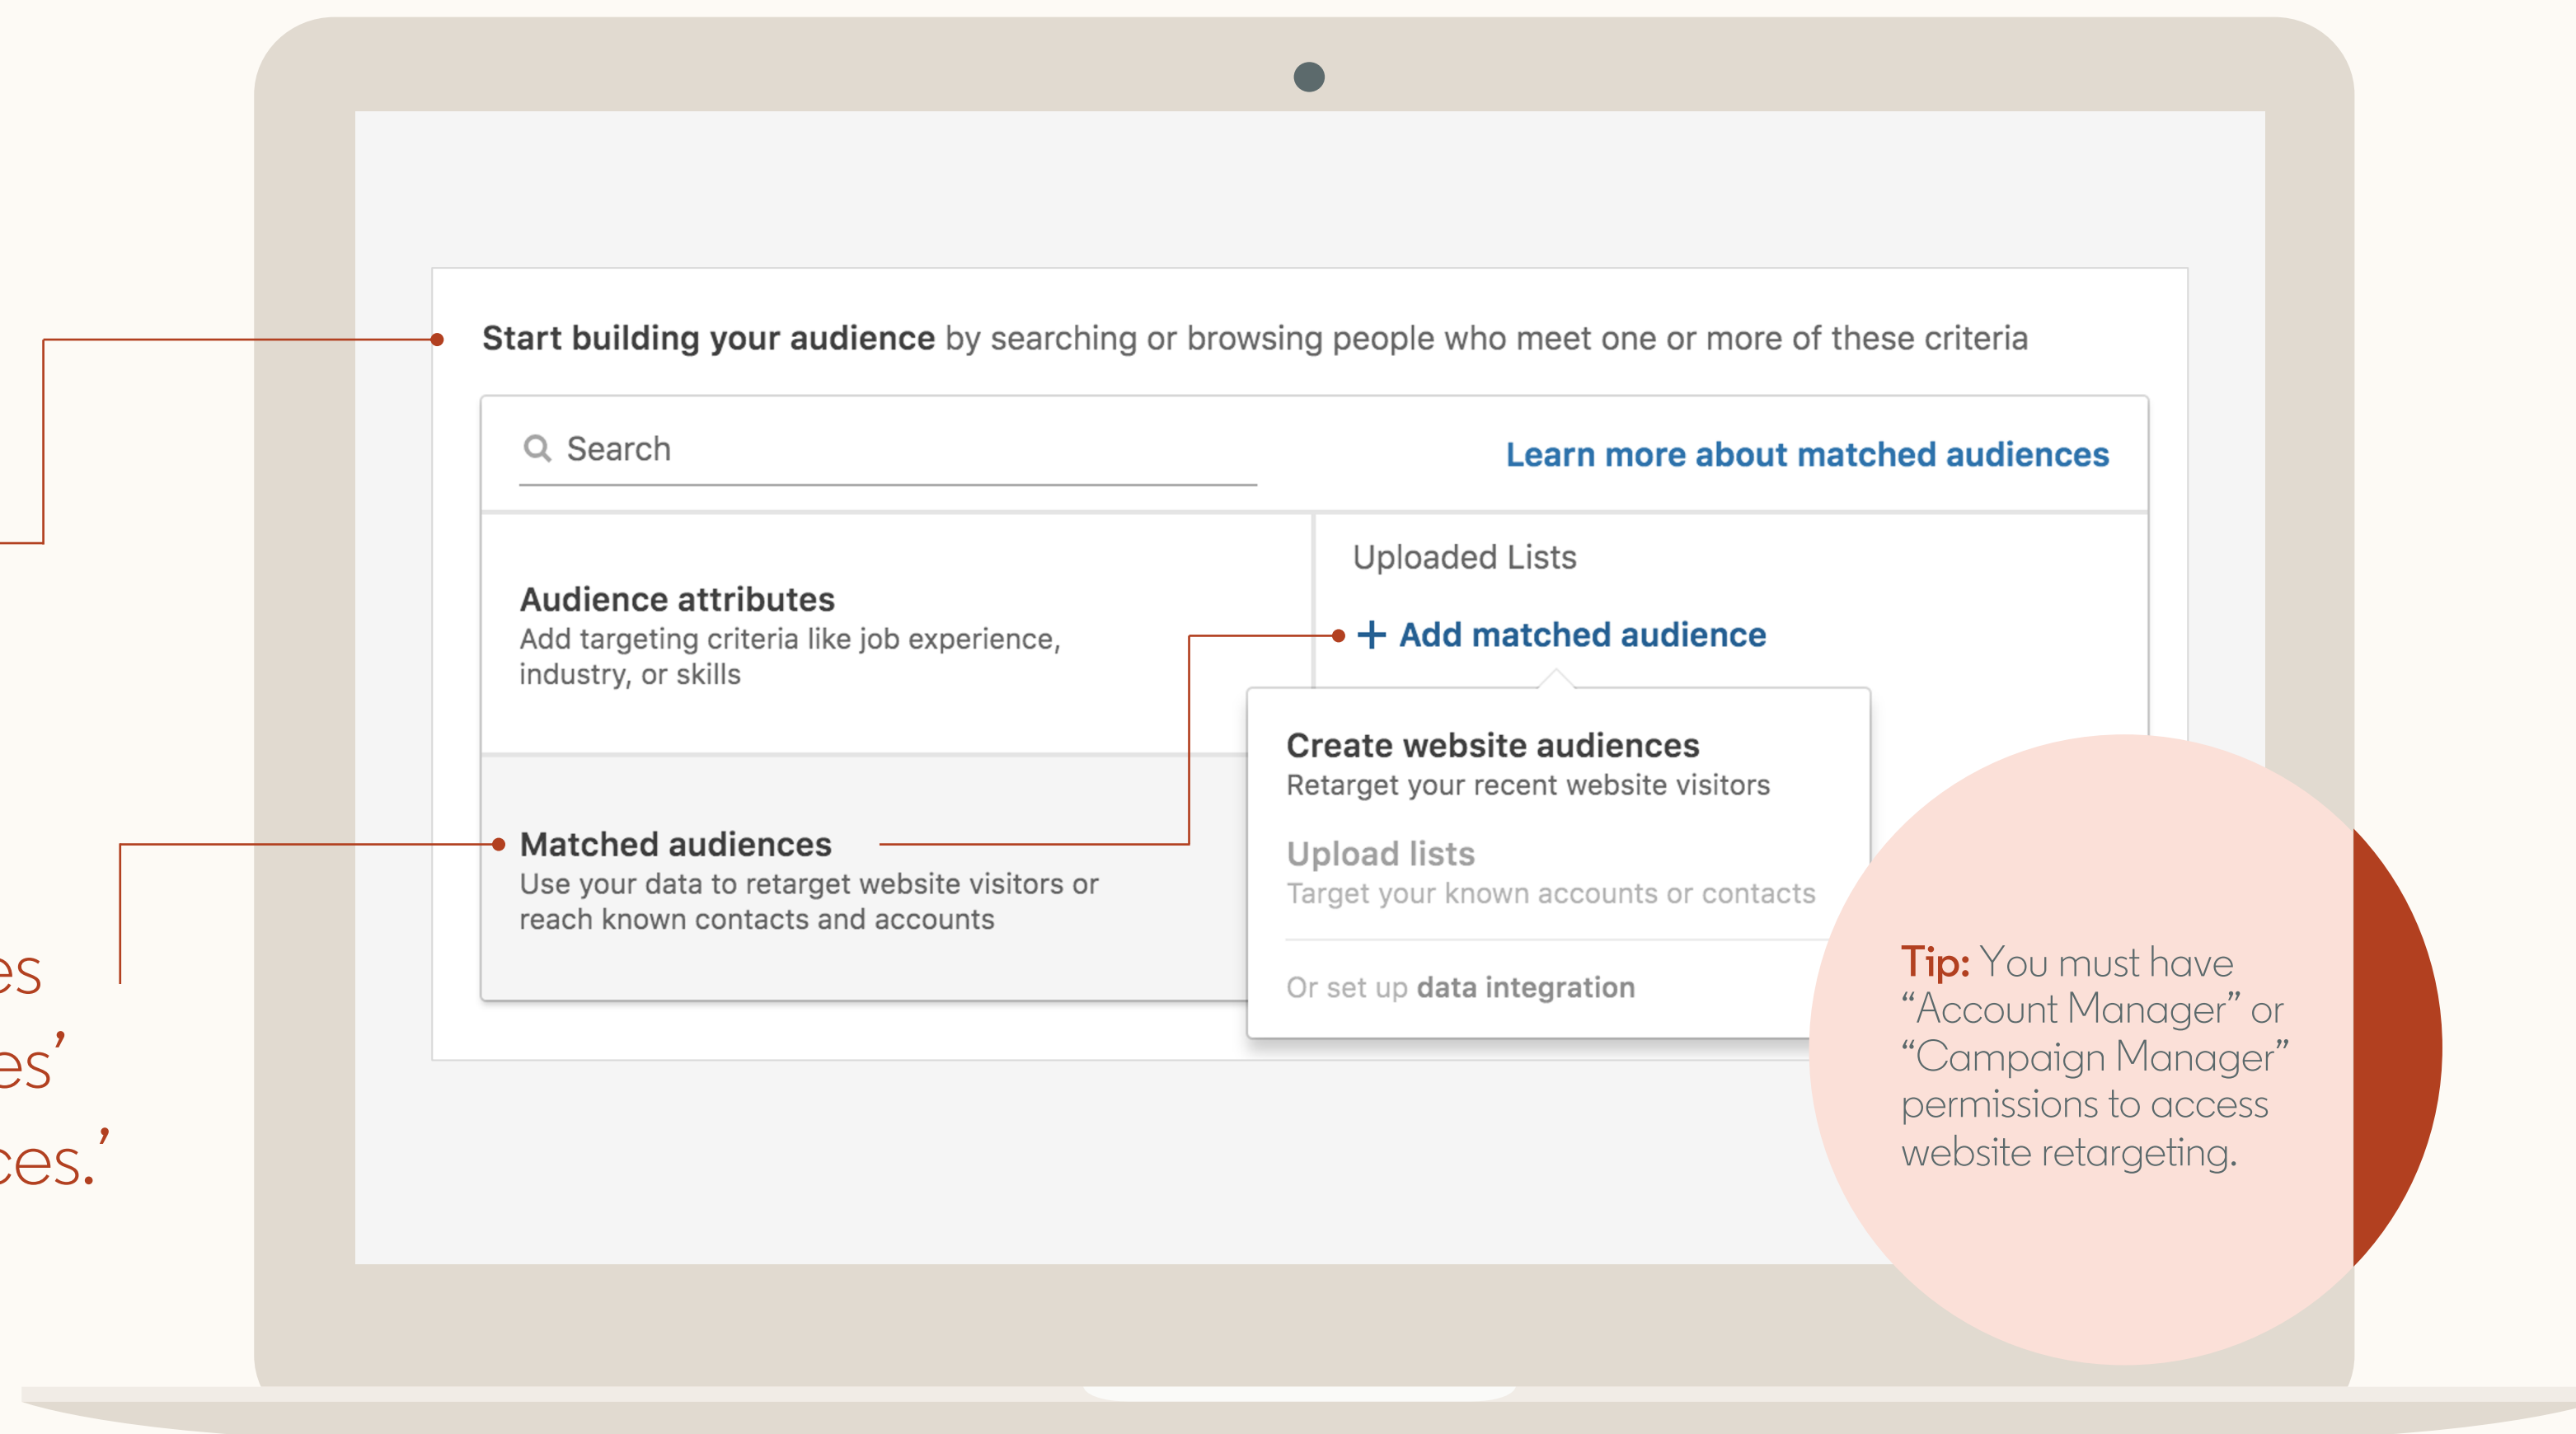

# Creating a website audience

1

Navigate to the targeting section of the campaign set up flow.

2

Then, click on the Matched audiences tab. Select '+ Add matched audiences' and choose 'Create website audiences.'

3

## Define the web URLs

### Add the website URL

Verify the URLs must belong to a domain associated with your Insight tag.

### 'Or' relationships

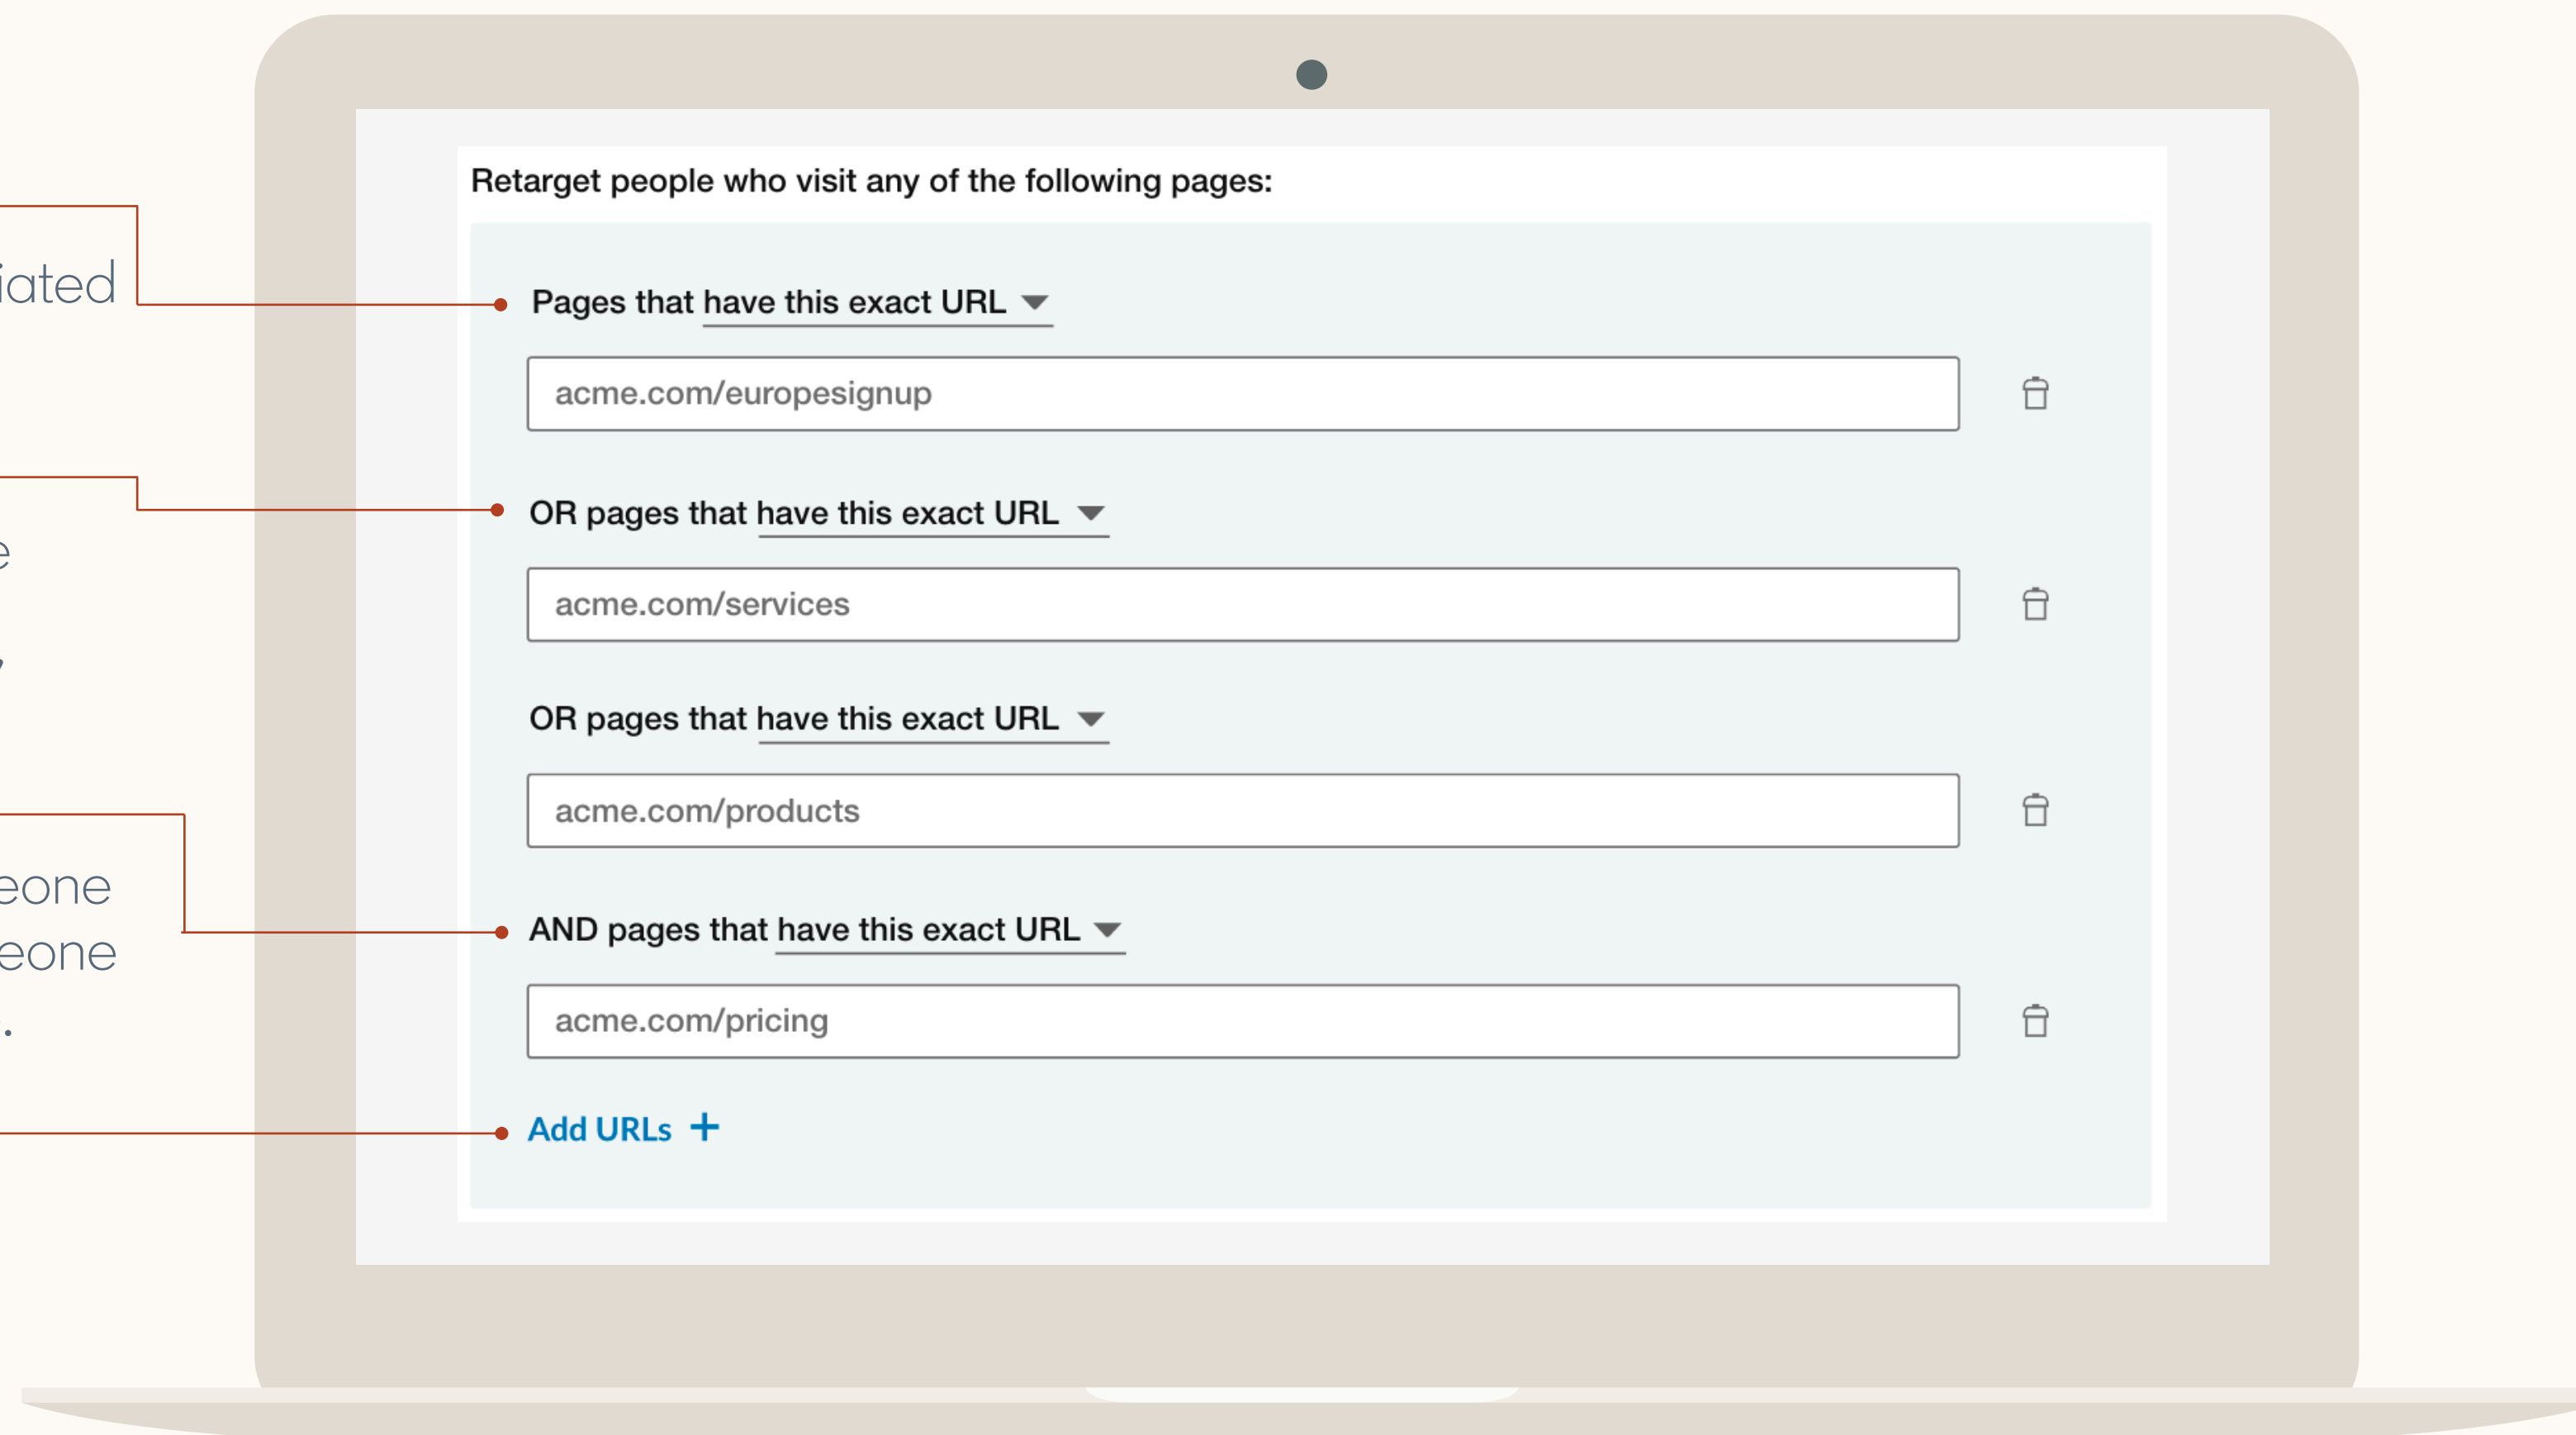

When including multiple URLs, "or" logic can be applied. Example: someone who visited "acme.com/products" or "acme.com/services."

### 'And' relationships

When "and" logic is applied, your target is someone who visited both pages. Example: retarget someone who visited a product page *and* a pricing page.

### Adding more URLs

You can always come back and add additional URLs to your audience.

# URL Options

Retarget people who visit any of the following pages:

Pages that have this exact URL ▼

acme.com/europesignup

OR pages that start with this URL ▼

acme.com

OR pages that have URLs that contain the specified text ▼

services

Add URLs +

## Exact

Select this option to target pages whose URL matches these characters in their entirety.

## Starts with

Select this option to include any page whose URL starts with these characters.

## Contains

Use this only on pages whose URL contains these characters.

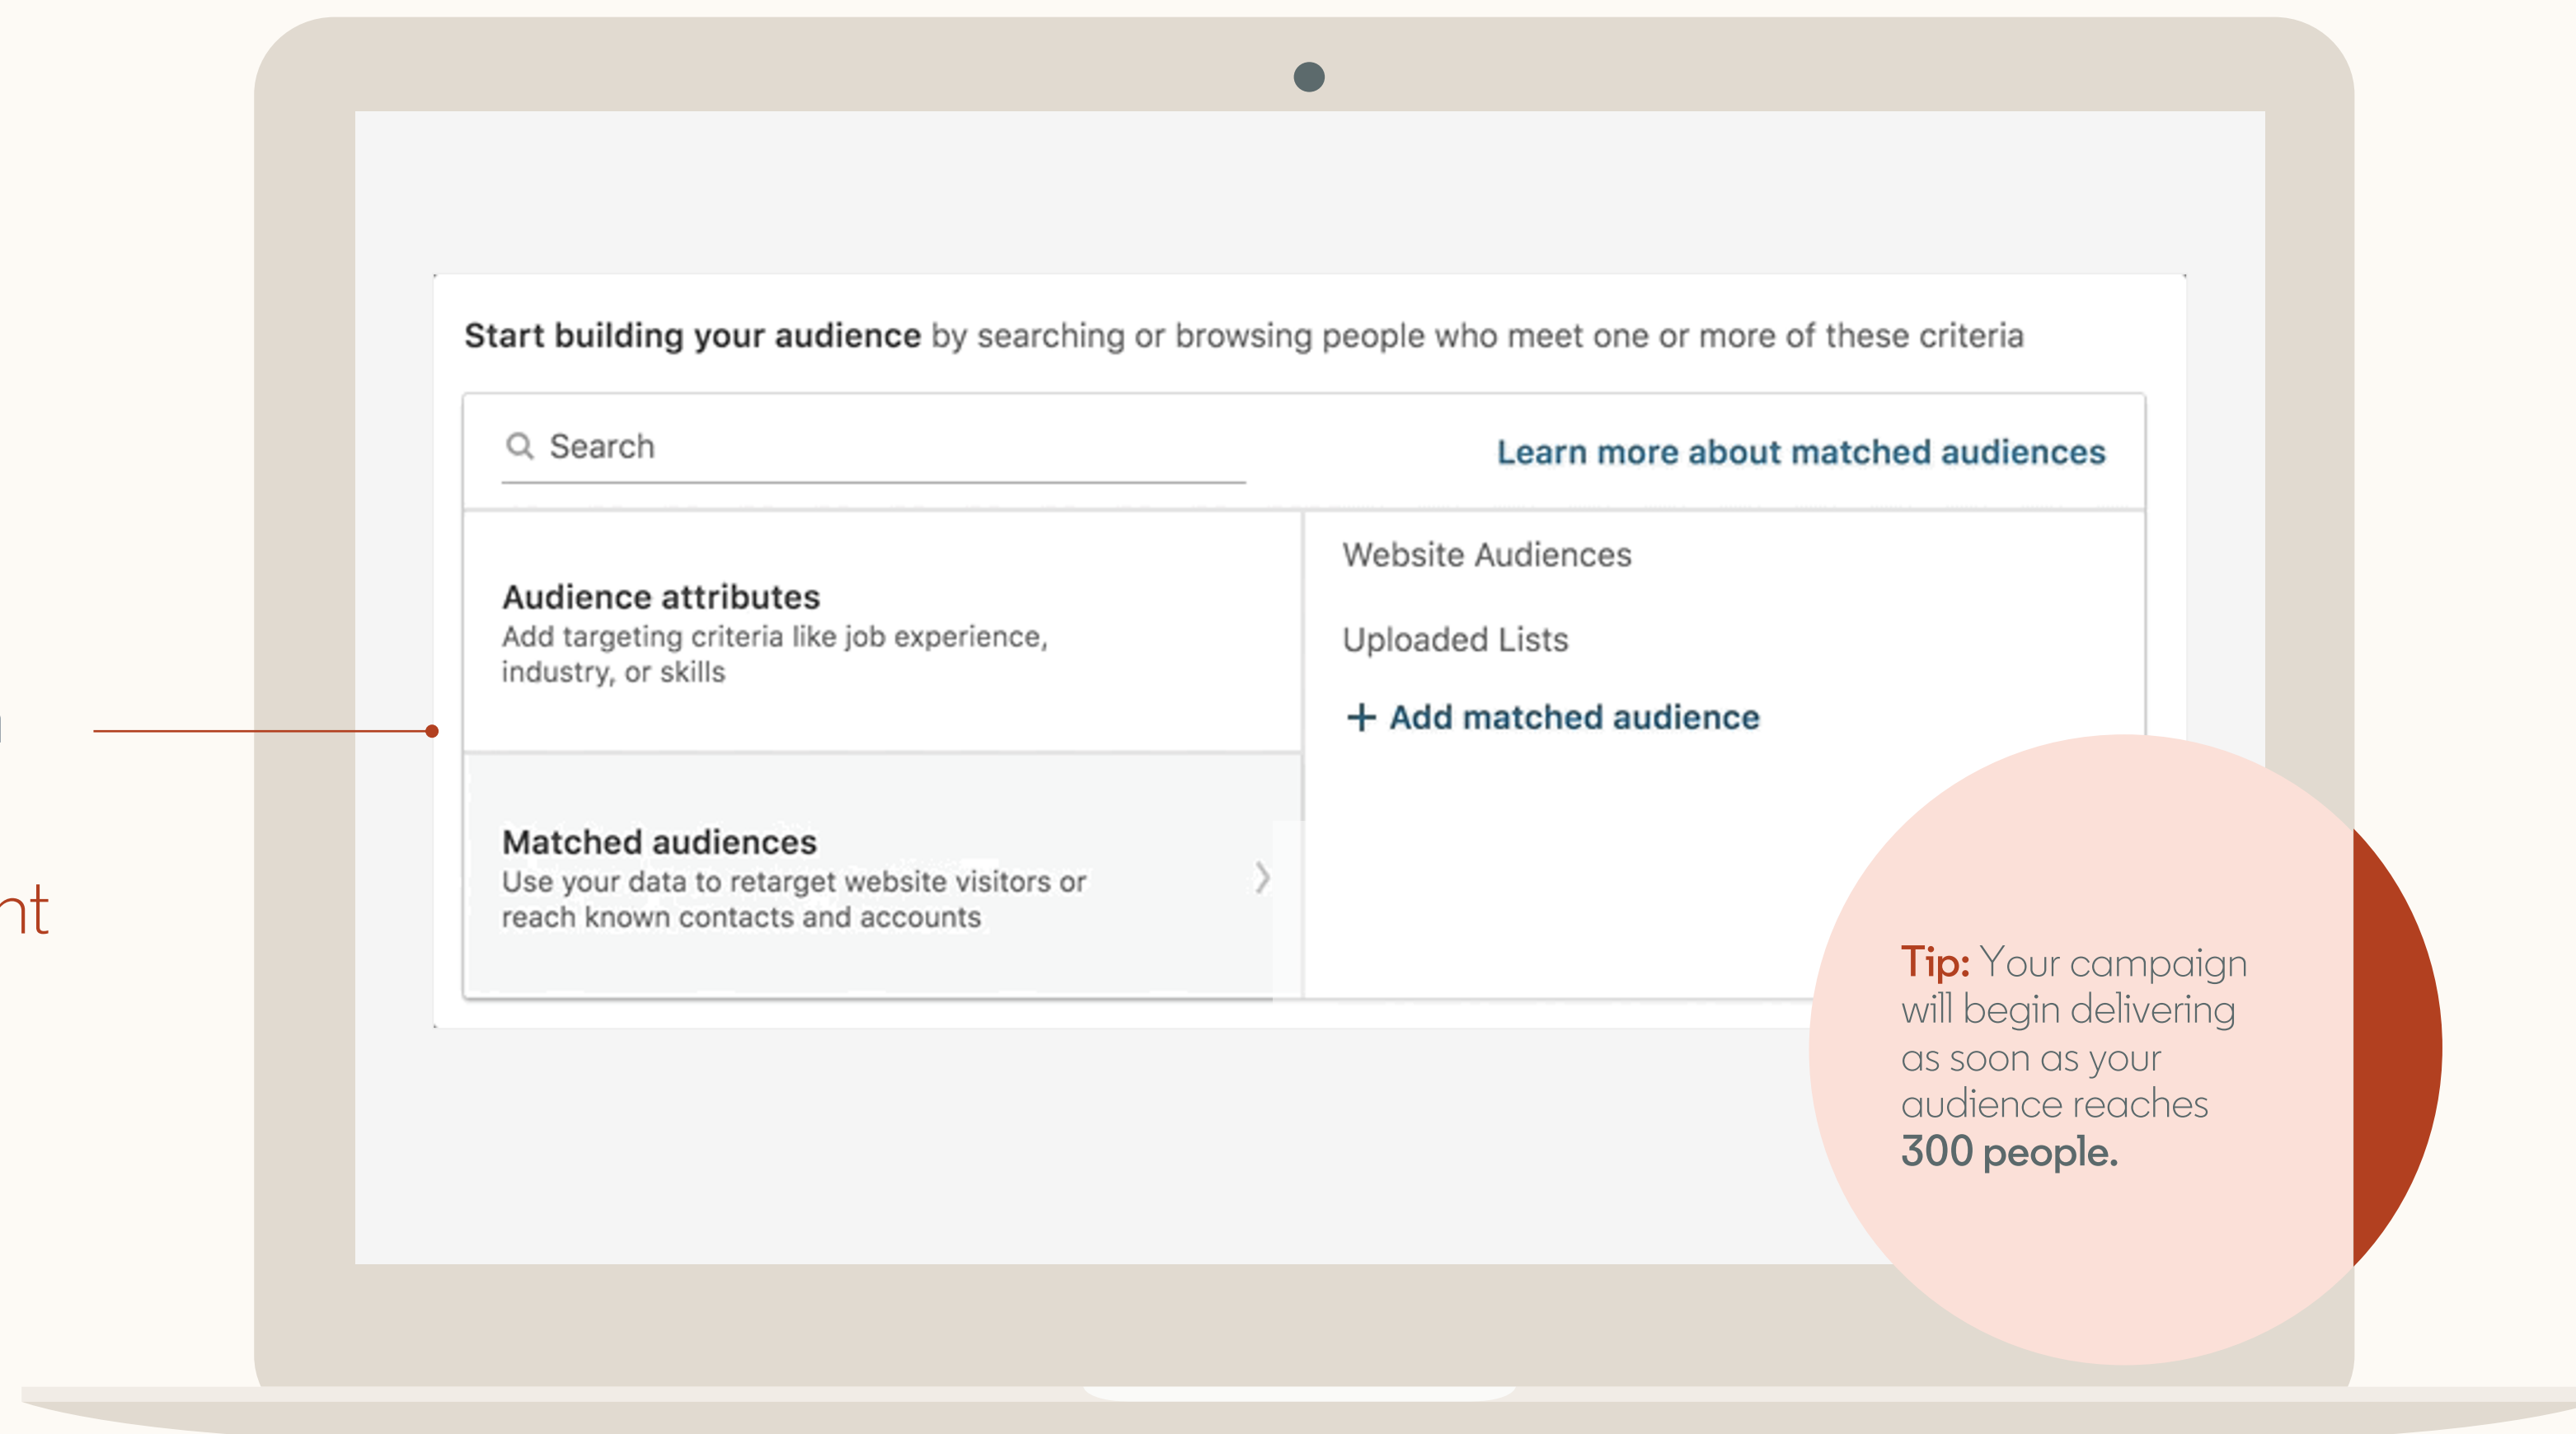

# Now, add your segment to your campaign

4

To add your segment to a campaign click on 'Website Audiences' and select your website audience segment

# Helpful tips to keep in mind

Audiences will not be matched unless the Insight Tag is correctly installed. Before building your audiences **verify the Insight Tag appears as green**.

Provide enough time for your website traffic to build, your audience may take up to **48 hours to build**. This may take longer depending on the volume of traffic to your website.

At least **300 members must in your audience** before the campaign can begin serving impressions.

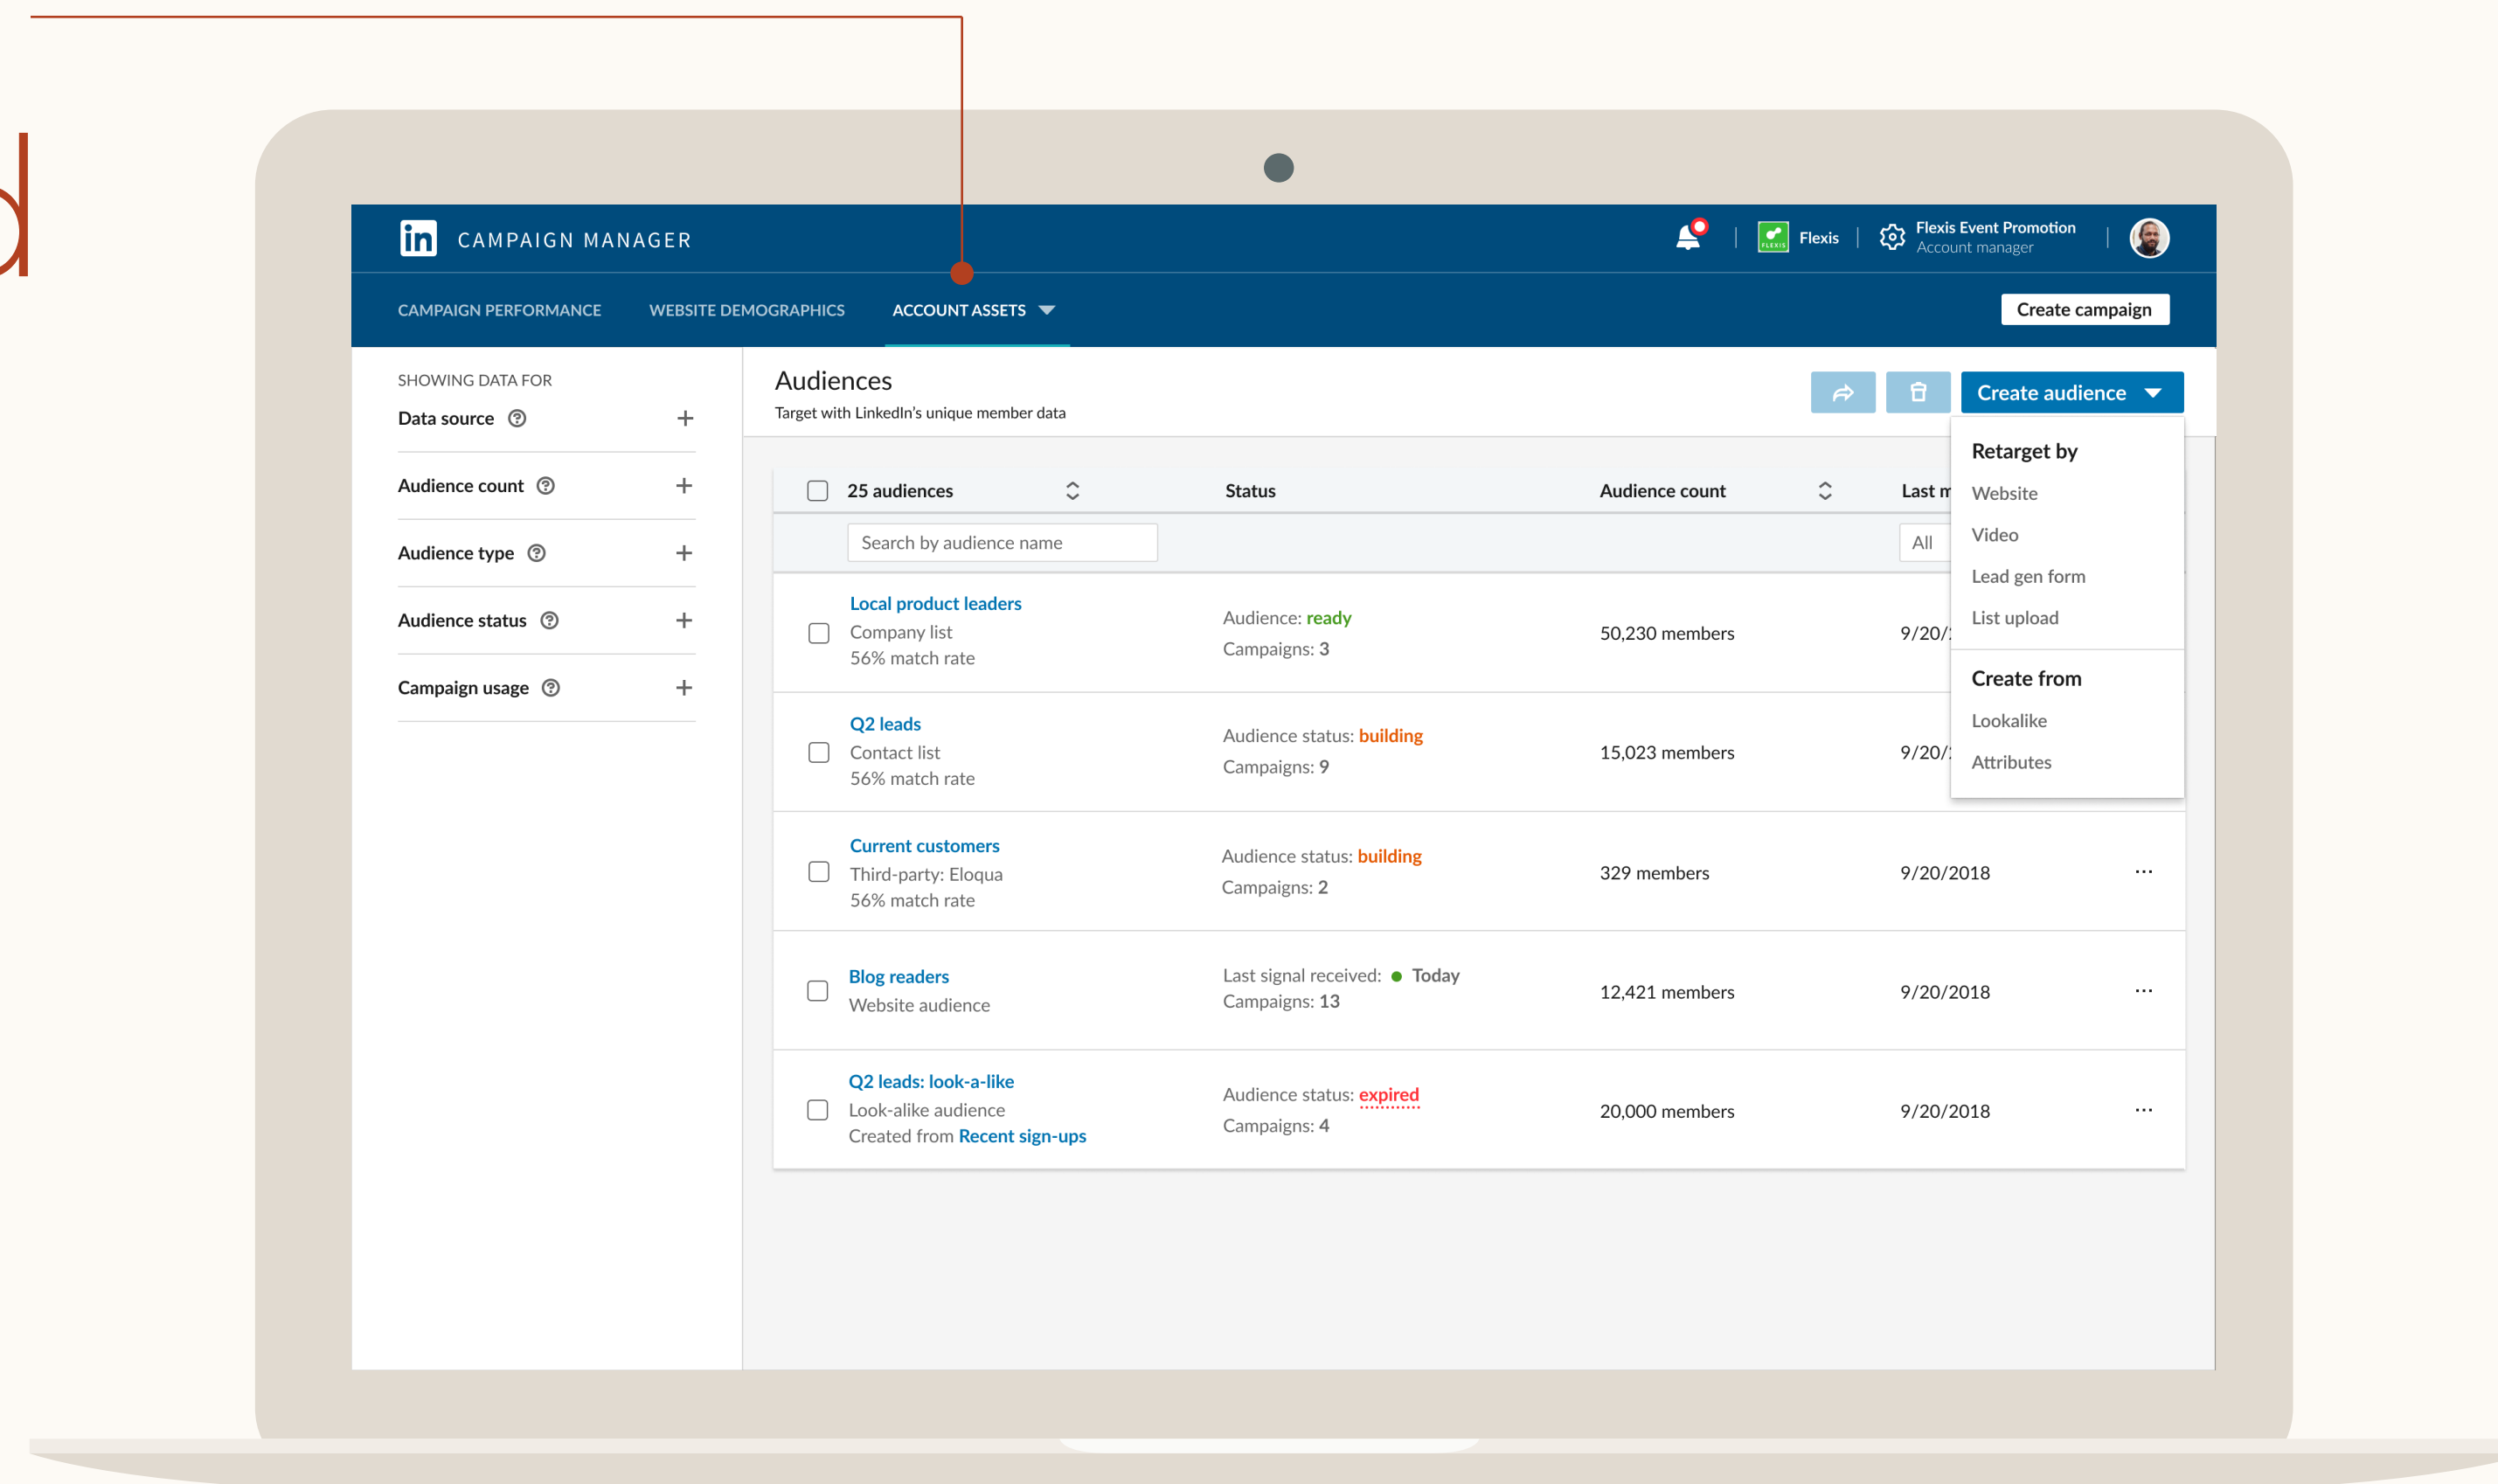

Once at least 300 members are matched, the campaign **will automatically** begin delivering if you activated your campaign by clicking 'Launch'.

# Your audiences in a single dashboard

Once you've finished setting up your campaign, you can access or edit your retargeting audiences from the 'Matched Audiences' page under 'Account Assets' in the top Navigation Menu.

# Granting access to an Insight Tag

For use if you already have an Insight Tag on your domain.

By permissioning your Insight Tag, you and your teammates can use the same tag for Conversion Tracking, Retargeting, and more

**Manage Insight Tag Permissions** ✕

Accounts that have access to this Insight Tag [Add another account](#)

Full-access accounts

507519527 ✕ 507474263 ✕ 502725841 ✕

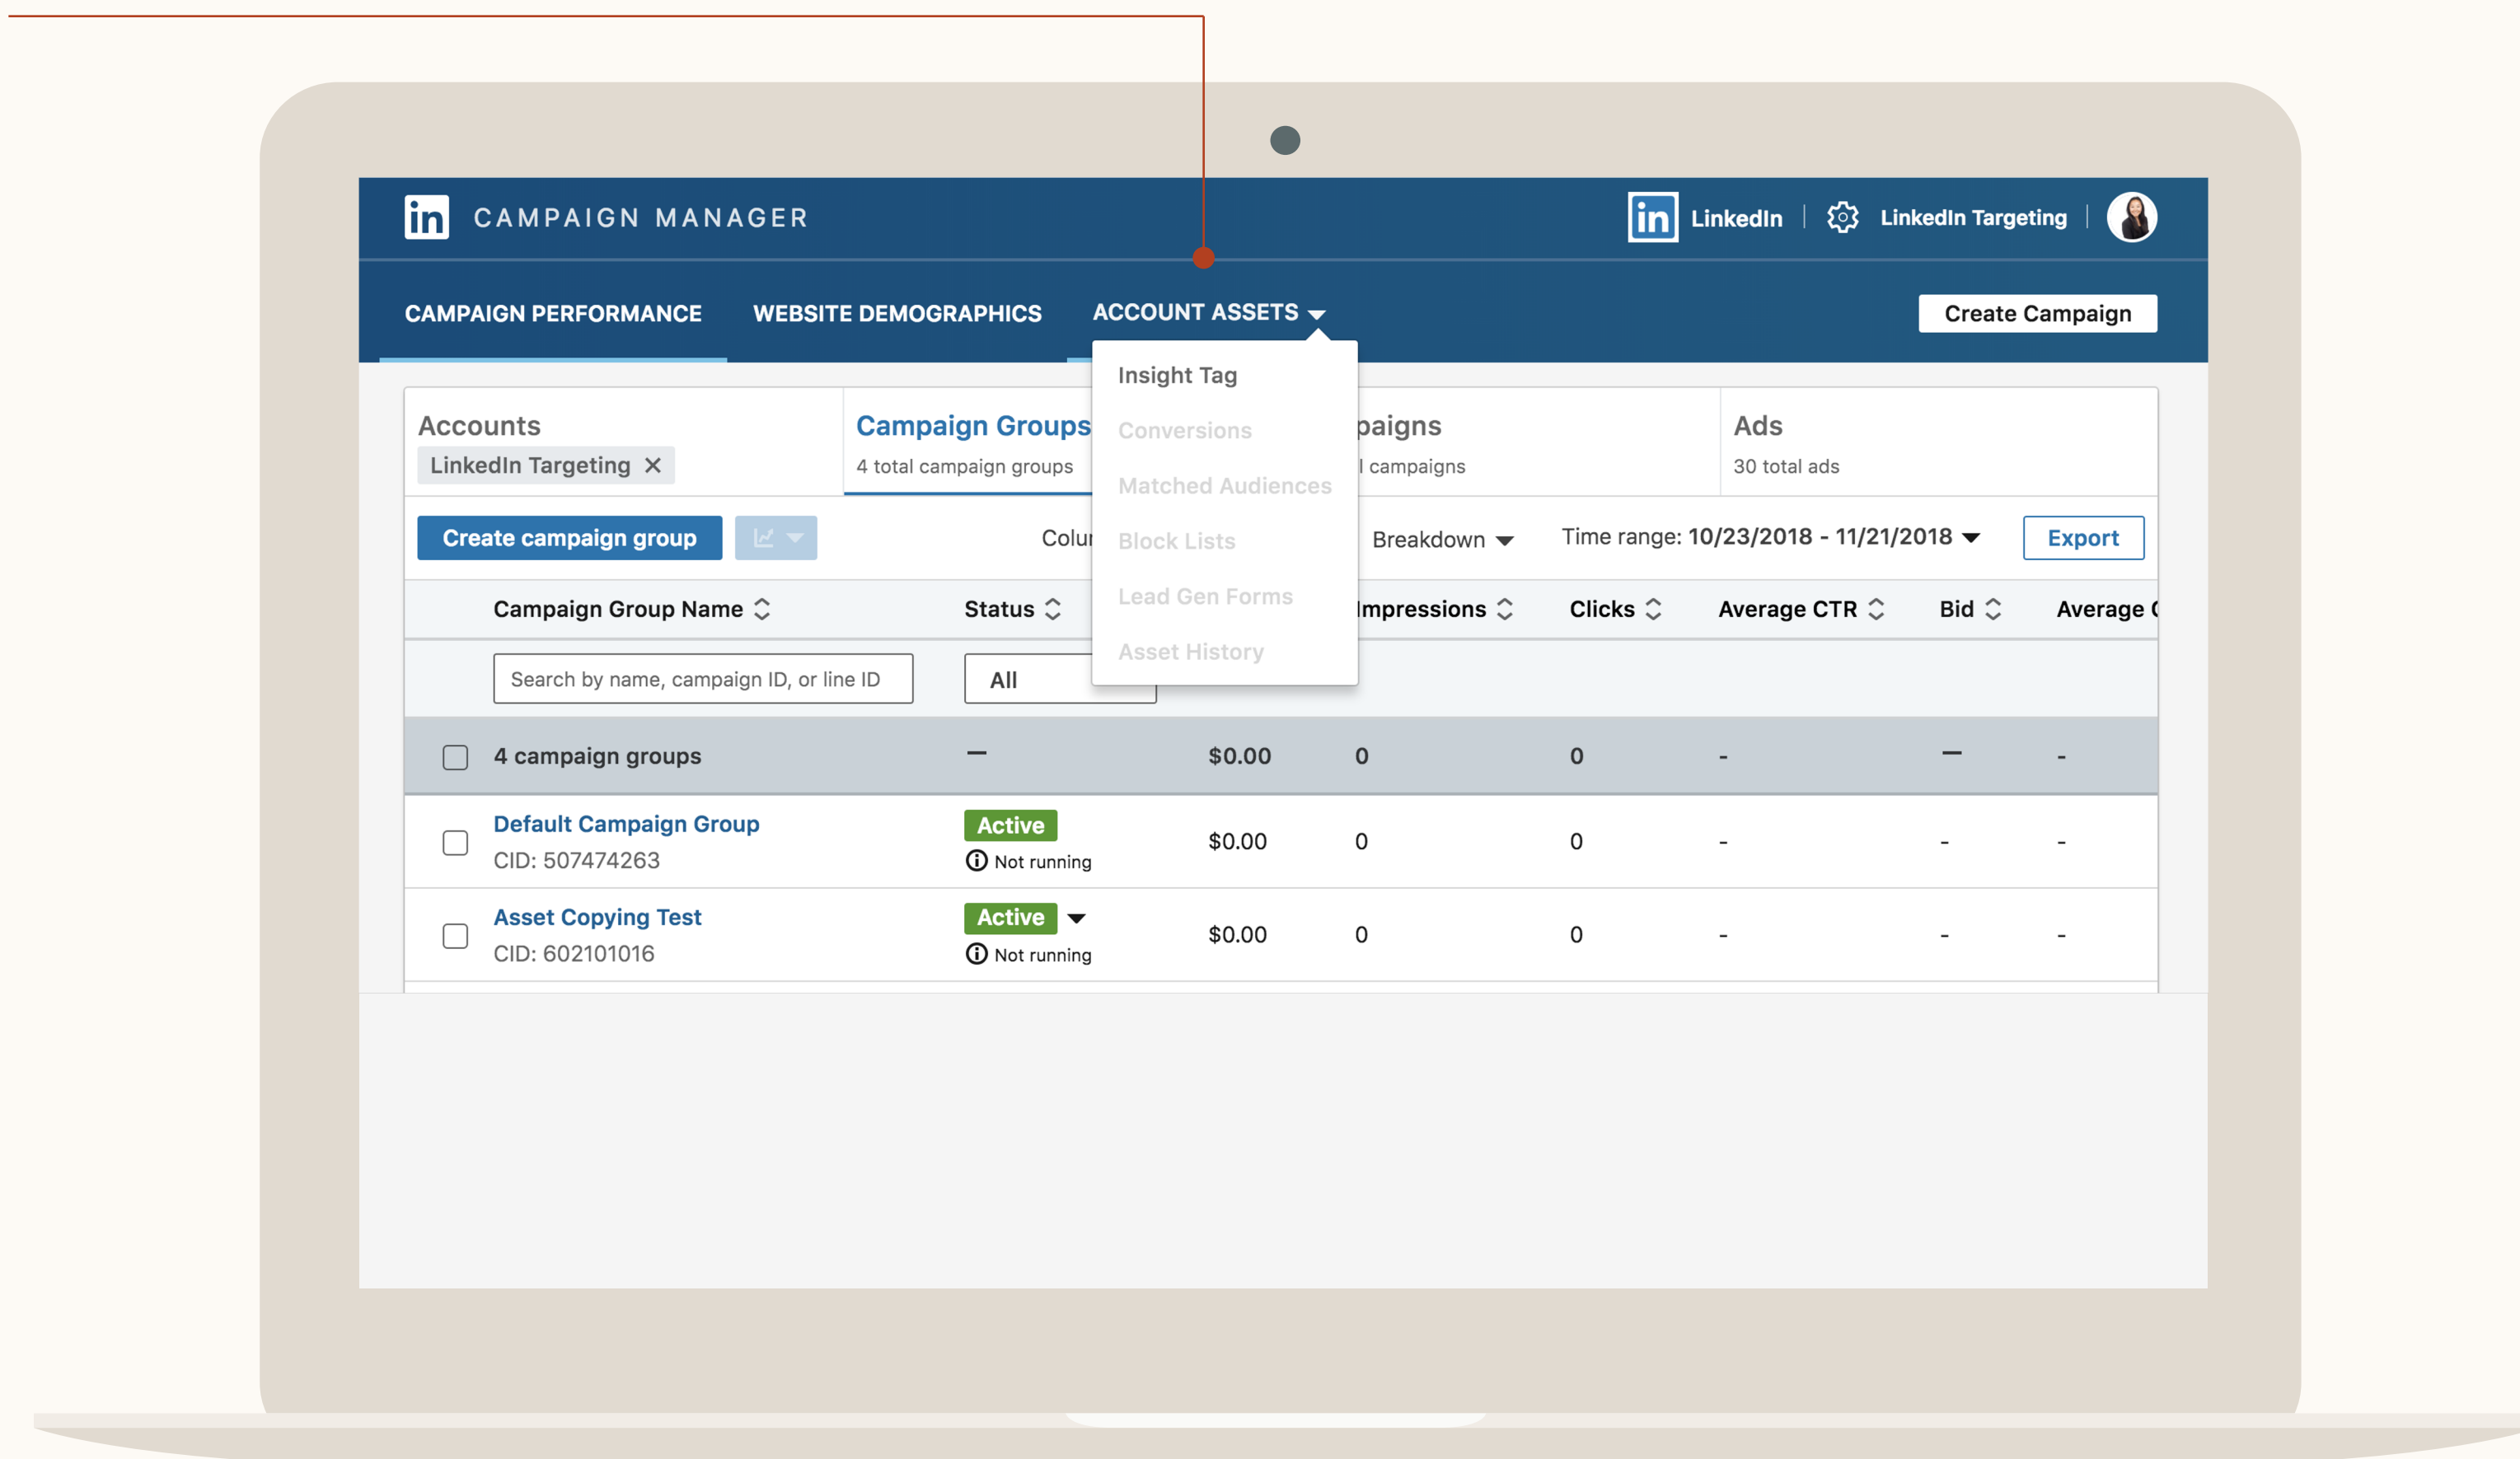

Use-only accounts

---

[Cancel](#) [Save](#)

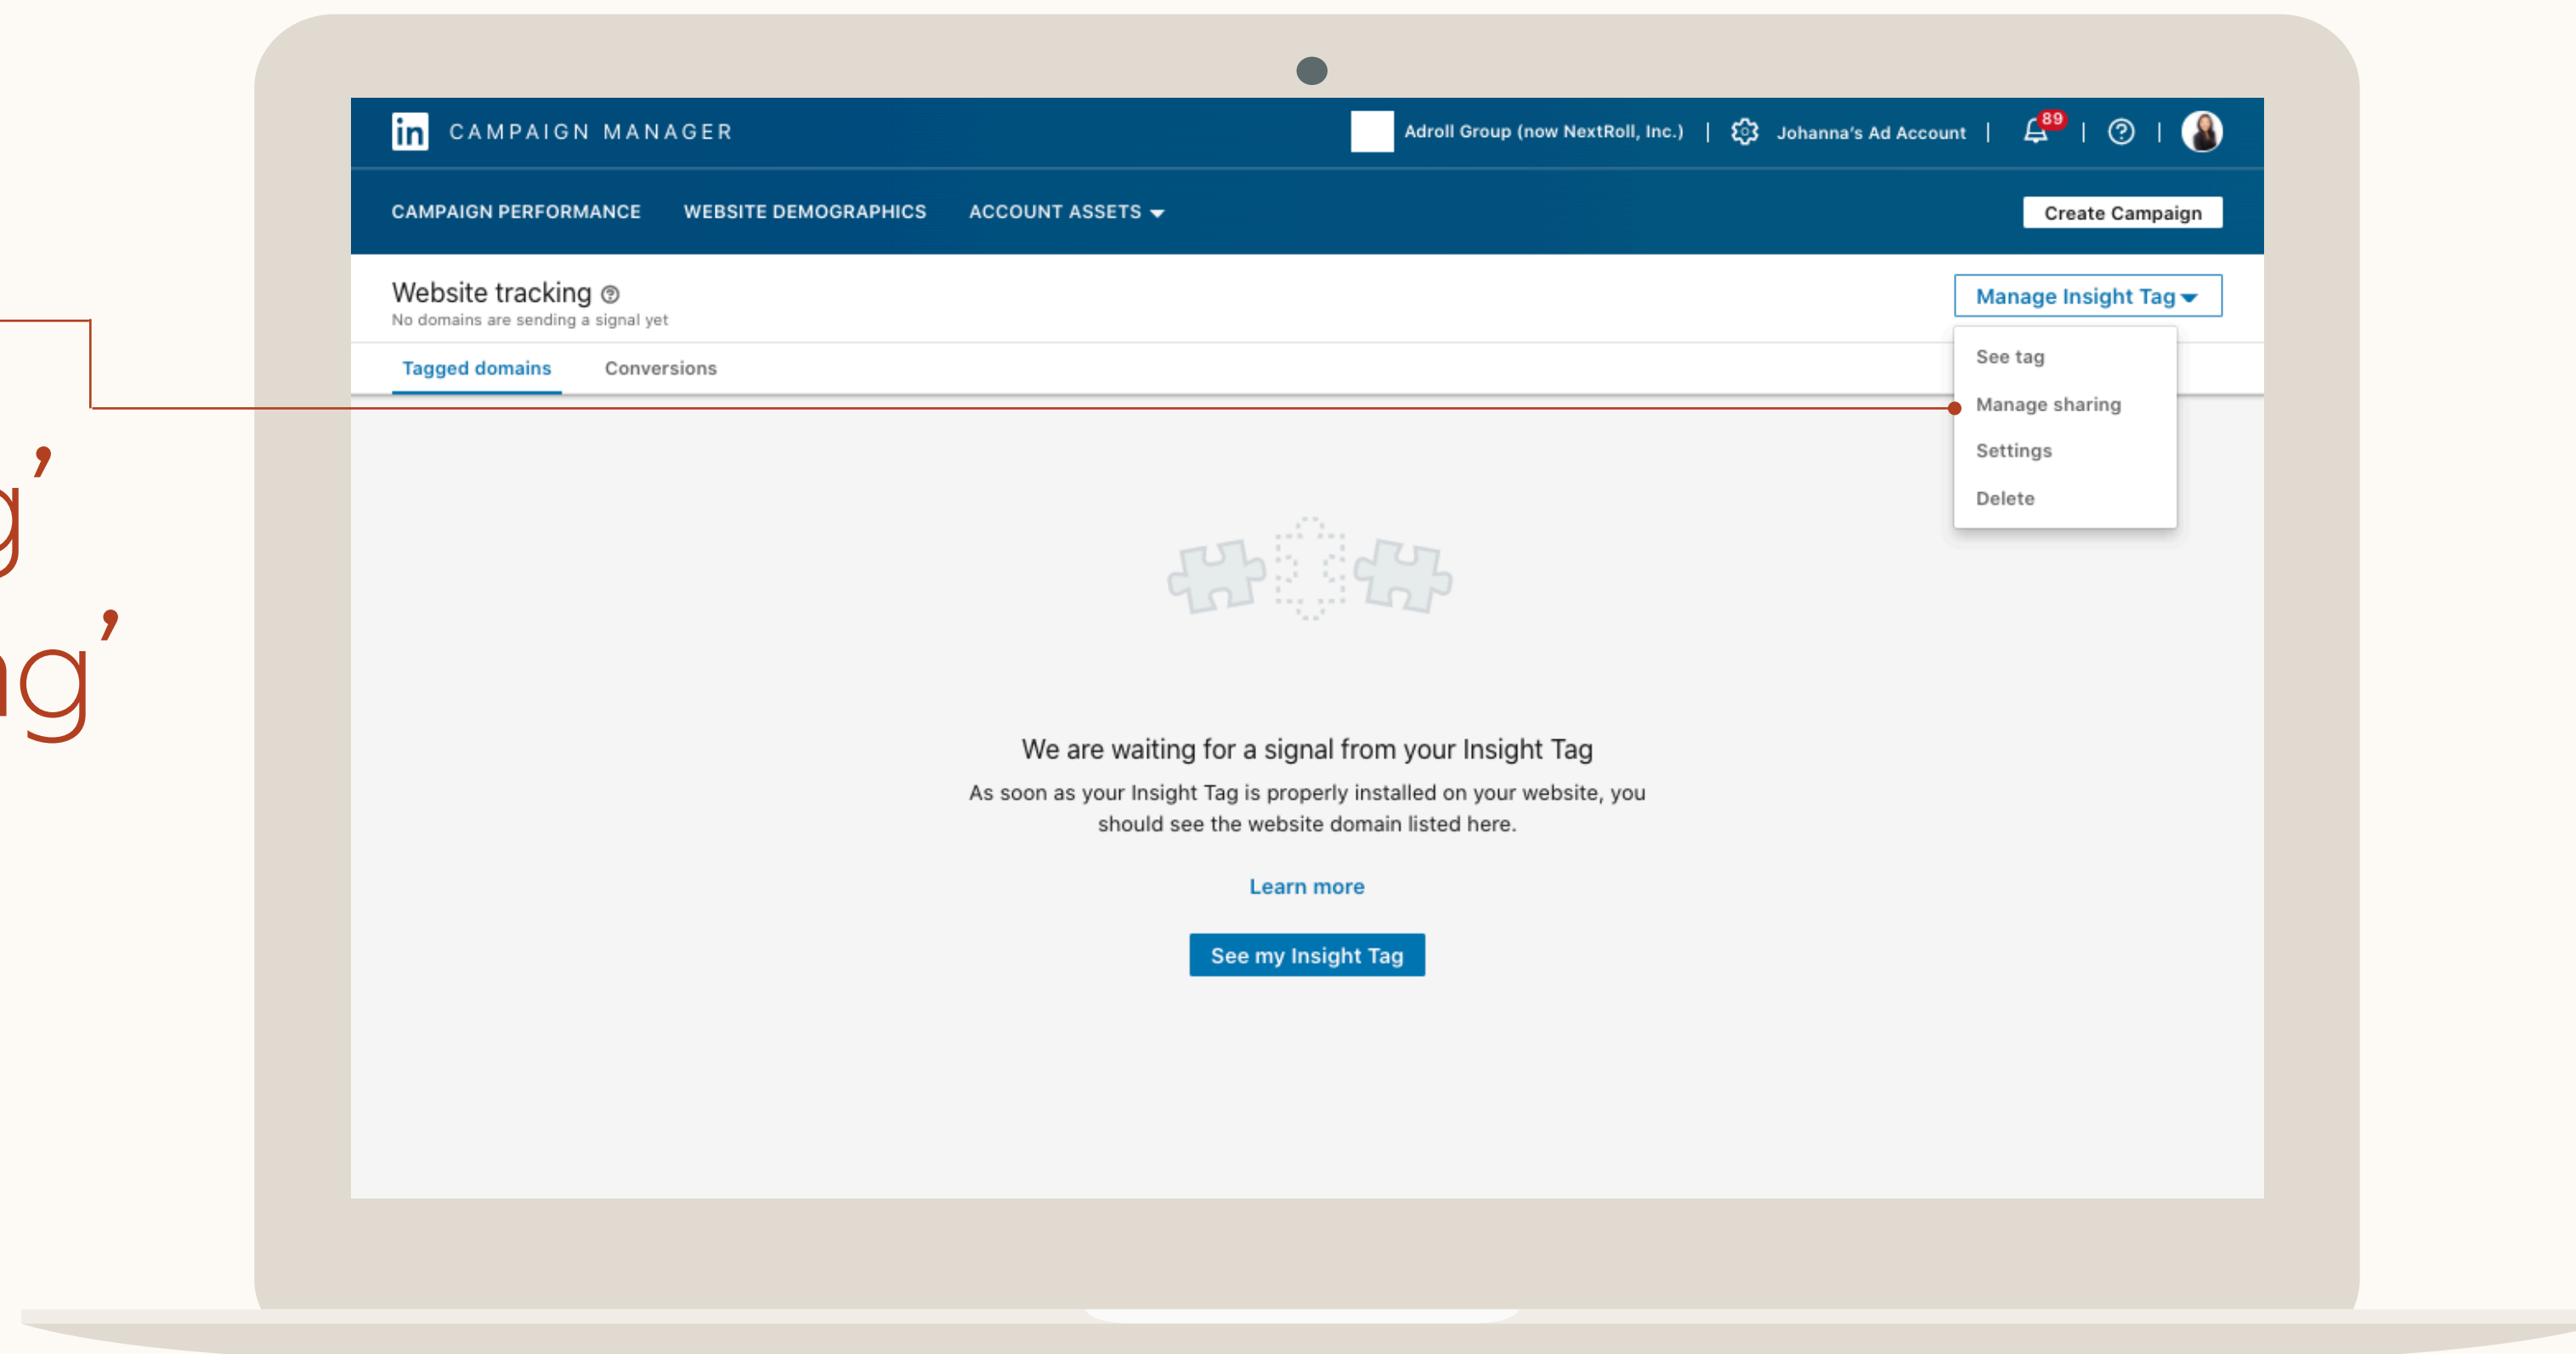

Begin by hovering the 'Account Assets' menu and select 'Insight Tag'

On the Insight Tag screen, click on 'Manage Insight Tag' and 'Manage Sharing'

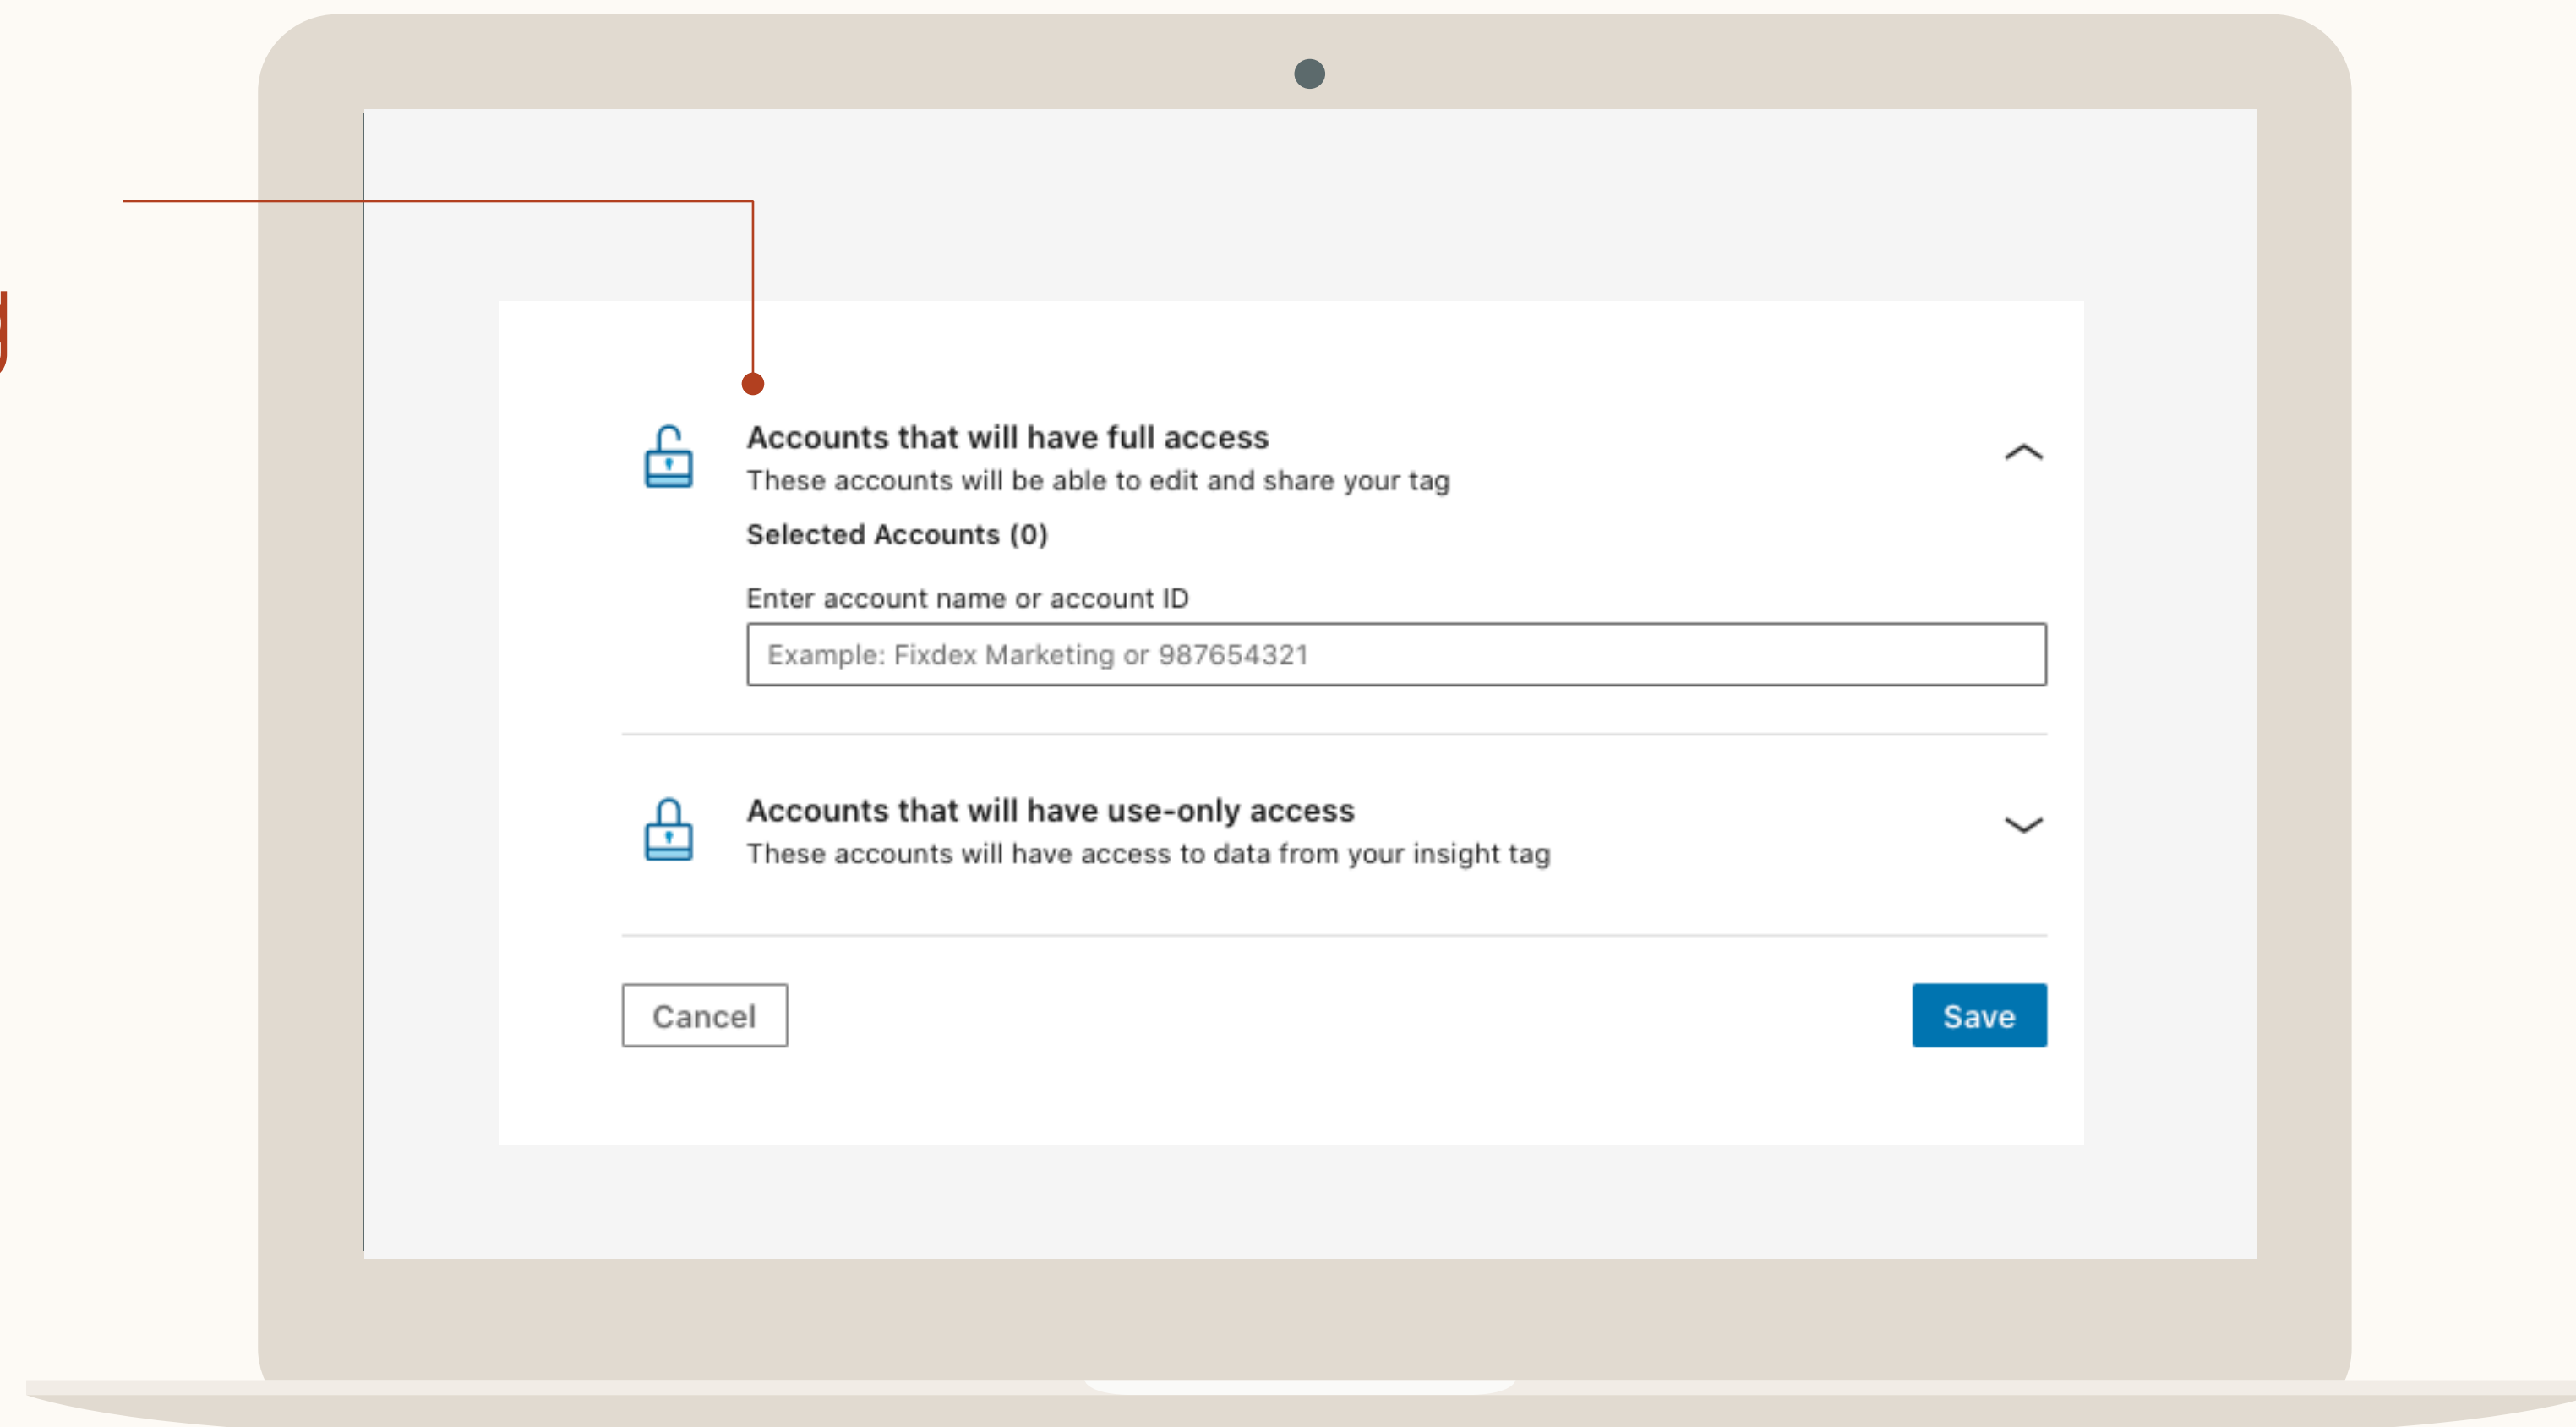

# Then, select which account you'd like to give access to your tag

## Full use access

Can edit and share your tag with other accounts.

## Use-only access

Can setup a website retargeting audience using the tag, but can't grant or remove access to the tag.

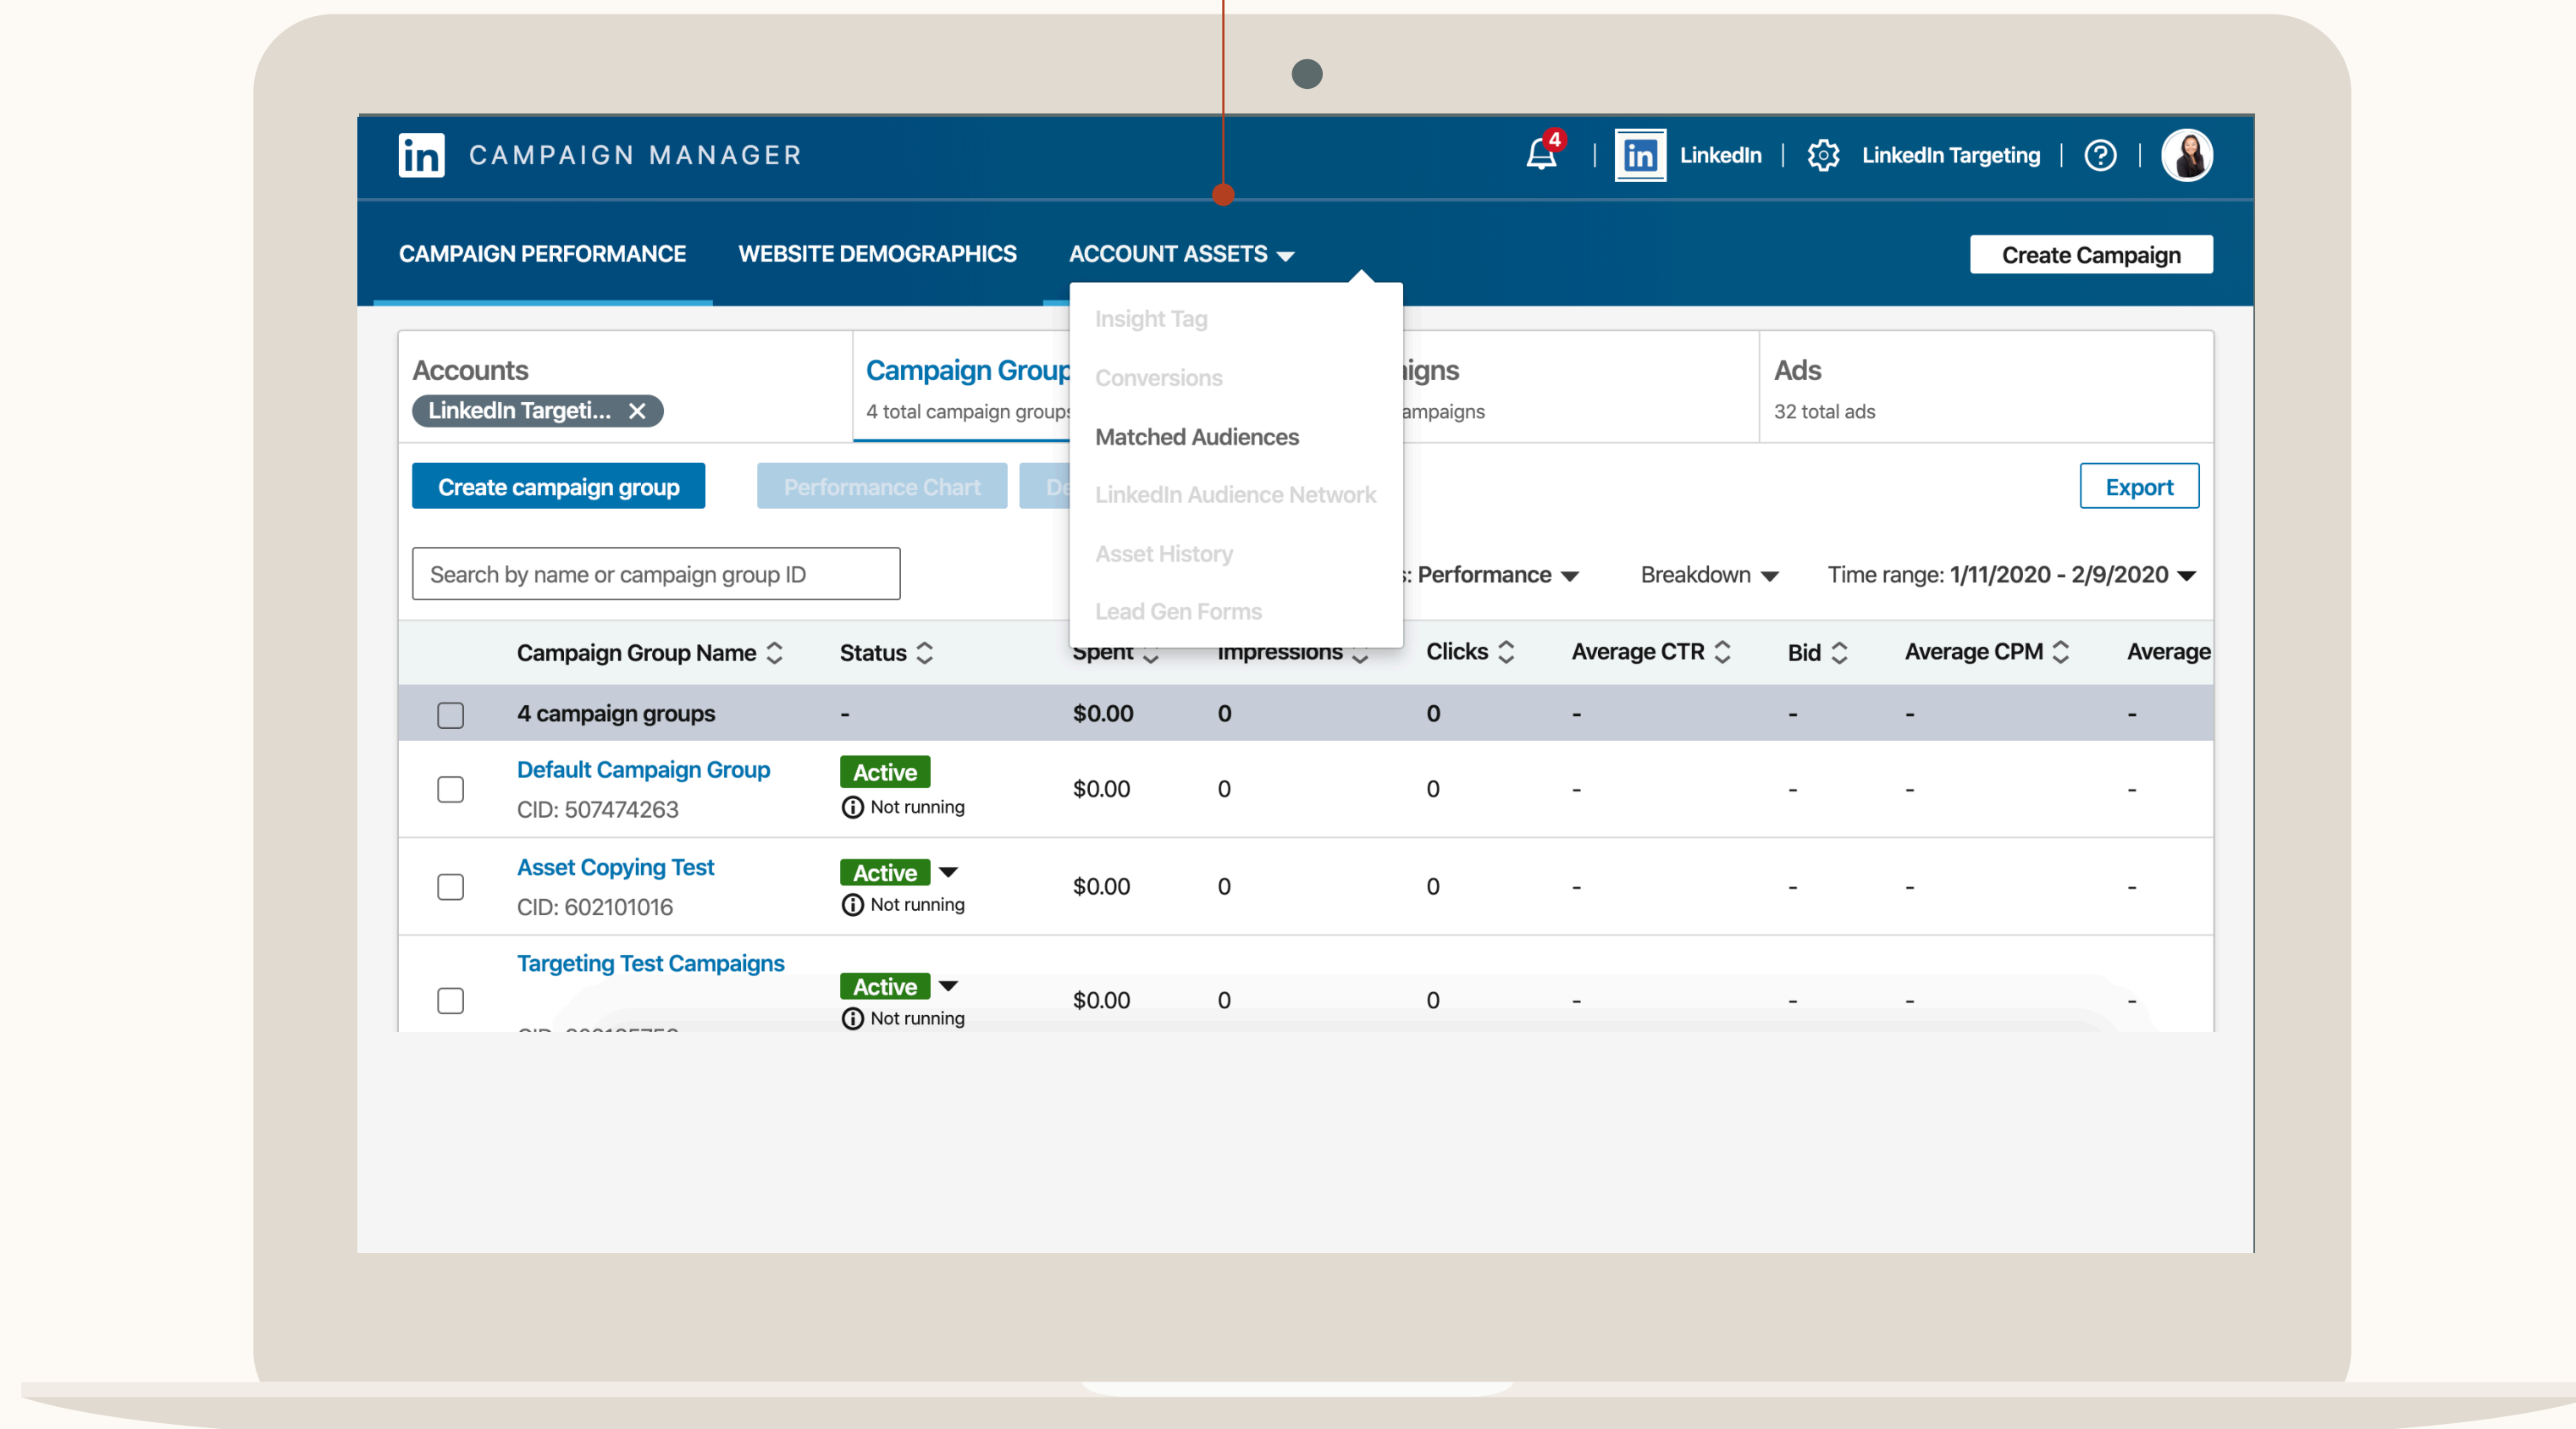

# Retarget by Video or Lead Gen Forms

In this section, you will learn how to create an audience based on an action taken with your ad, like watching a **Video Ad** or opening or submitting a **Lead Gen Form**.

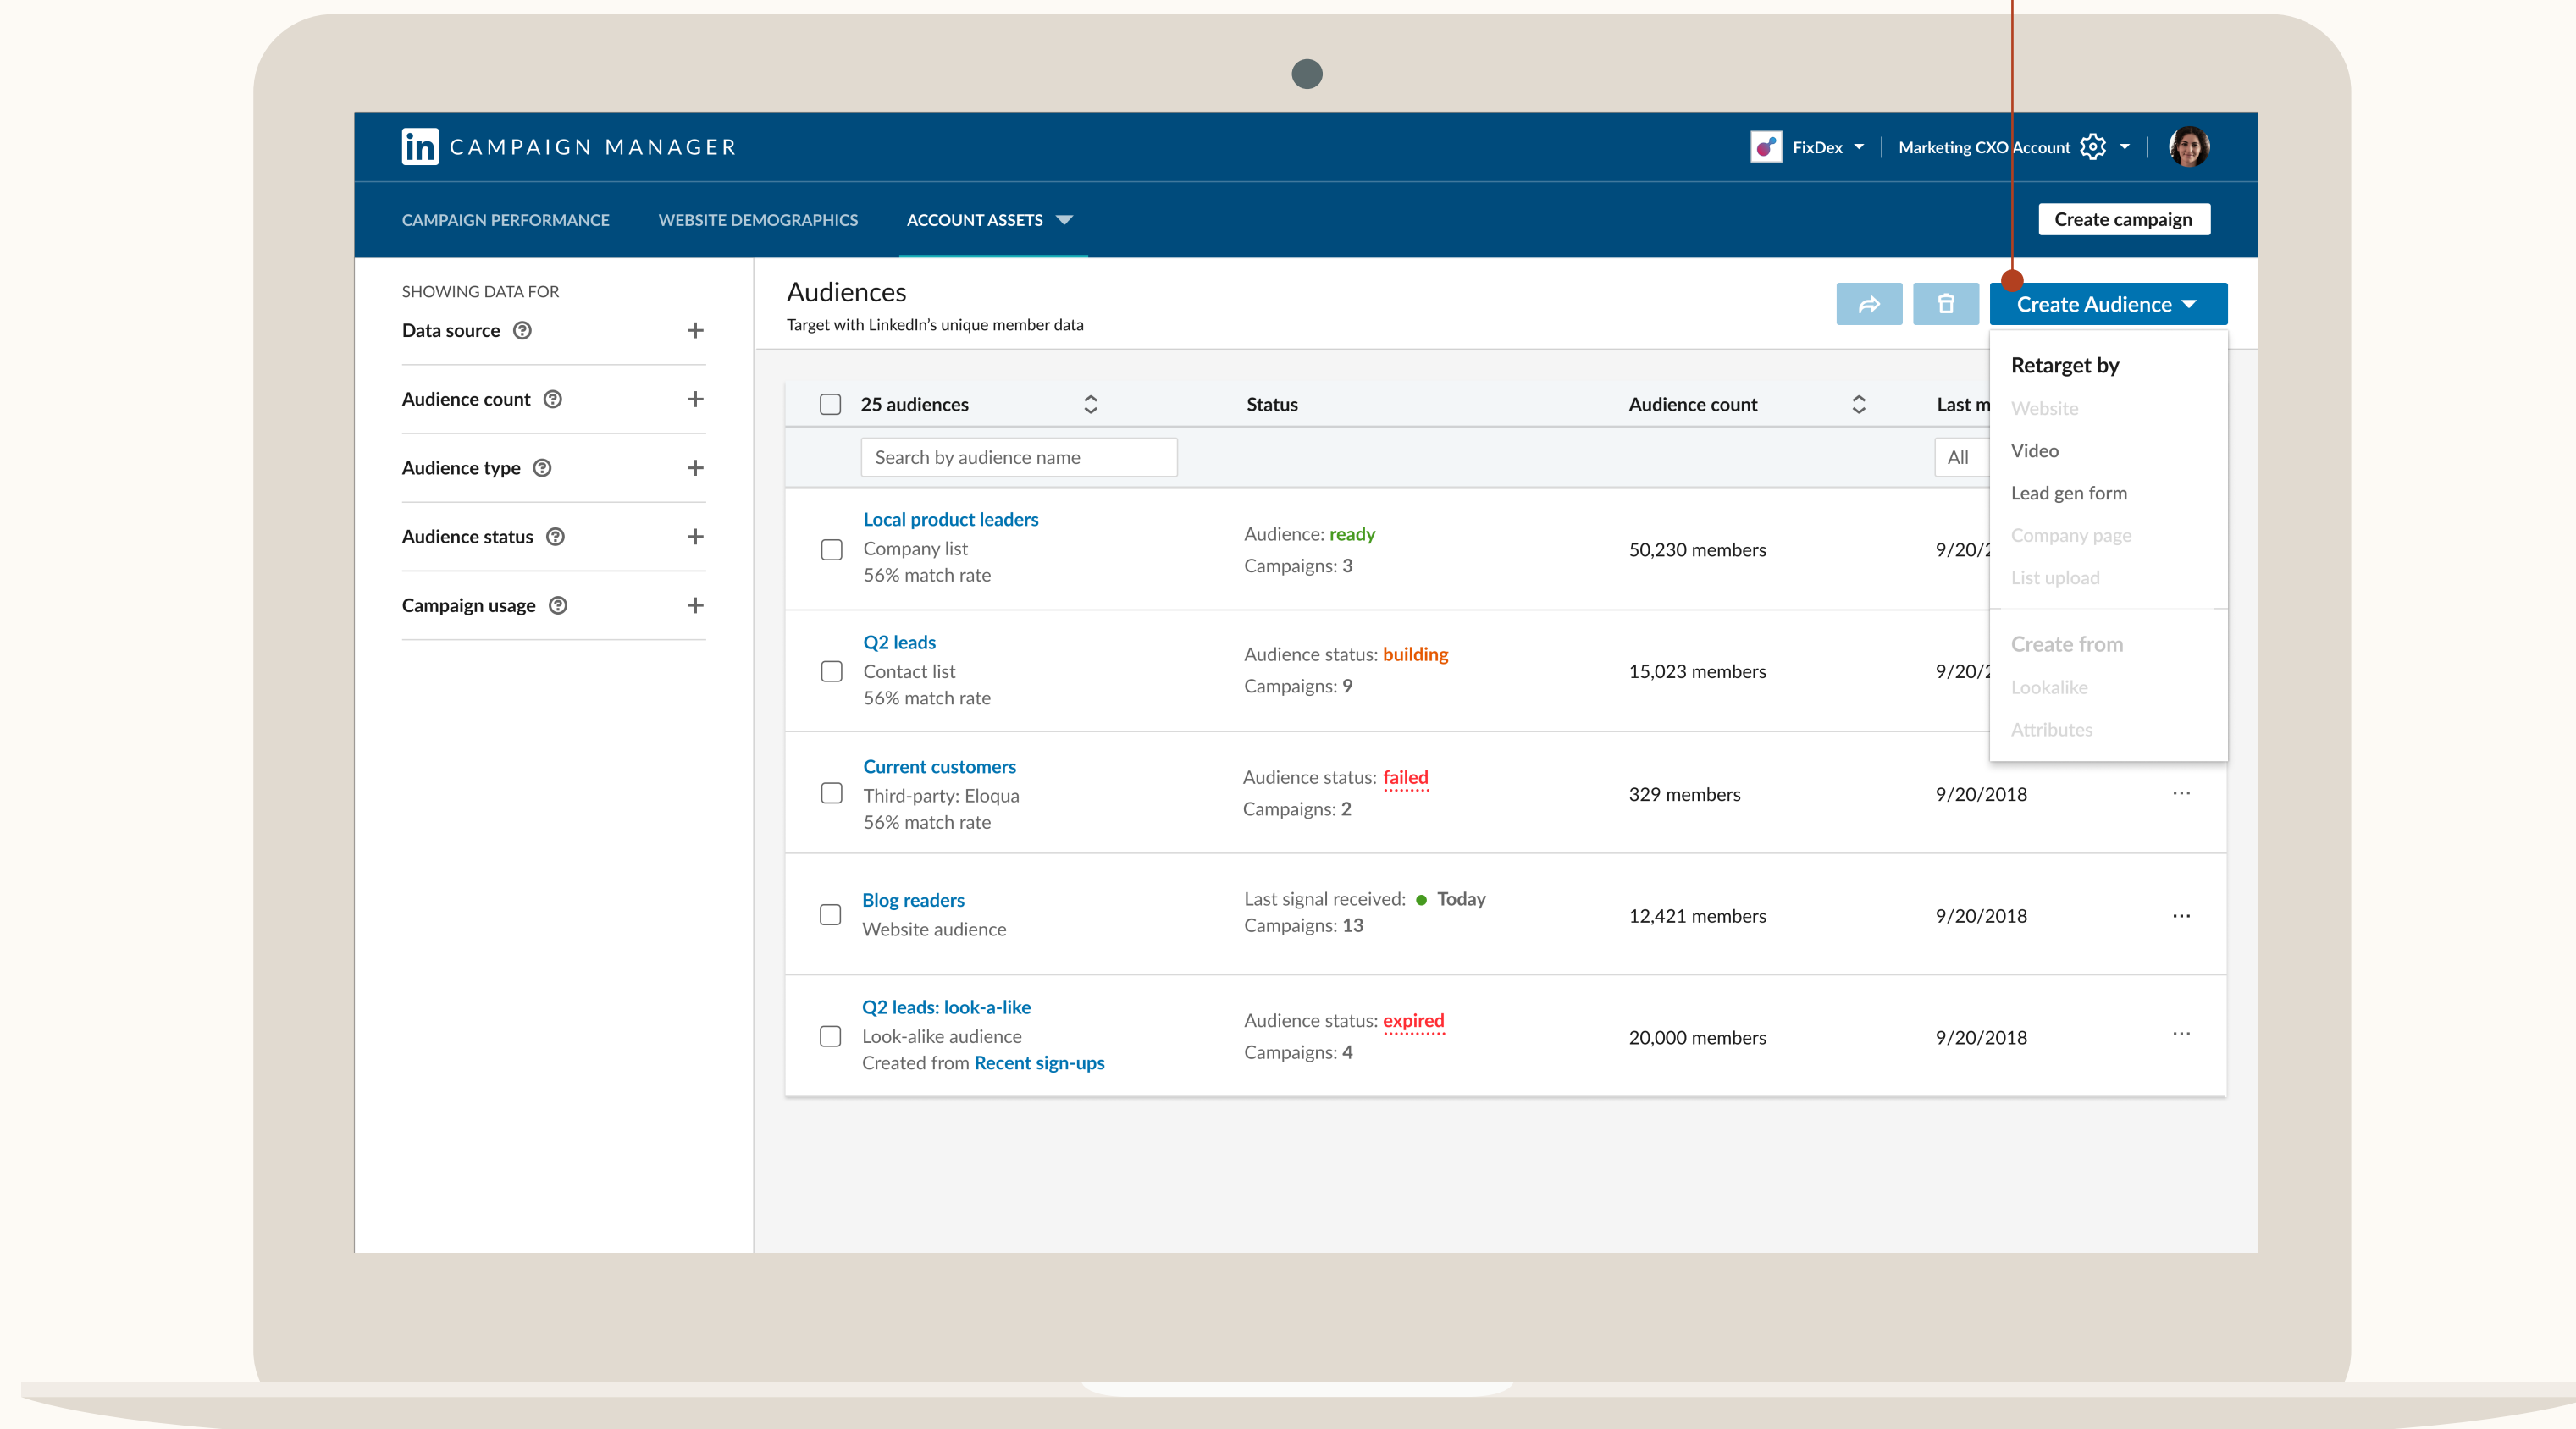

To start, visit the 'Account assets' tab and click on 'Matched Audiences'

Next, click on 'Create audience' and choose the audience type in the drop down

# Now, fill in the specifics

## Who?

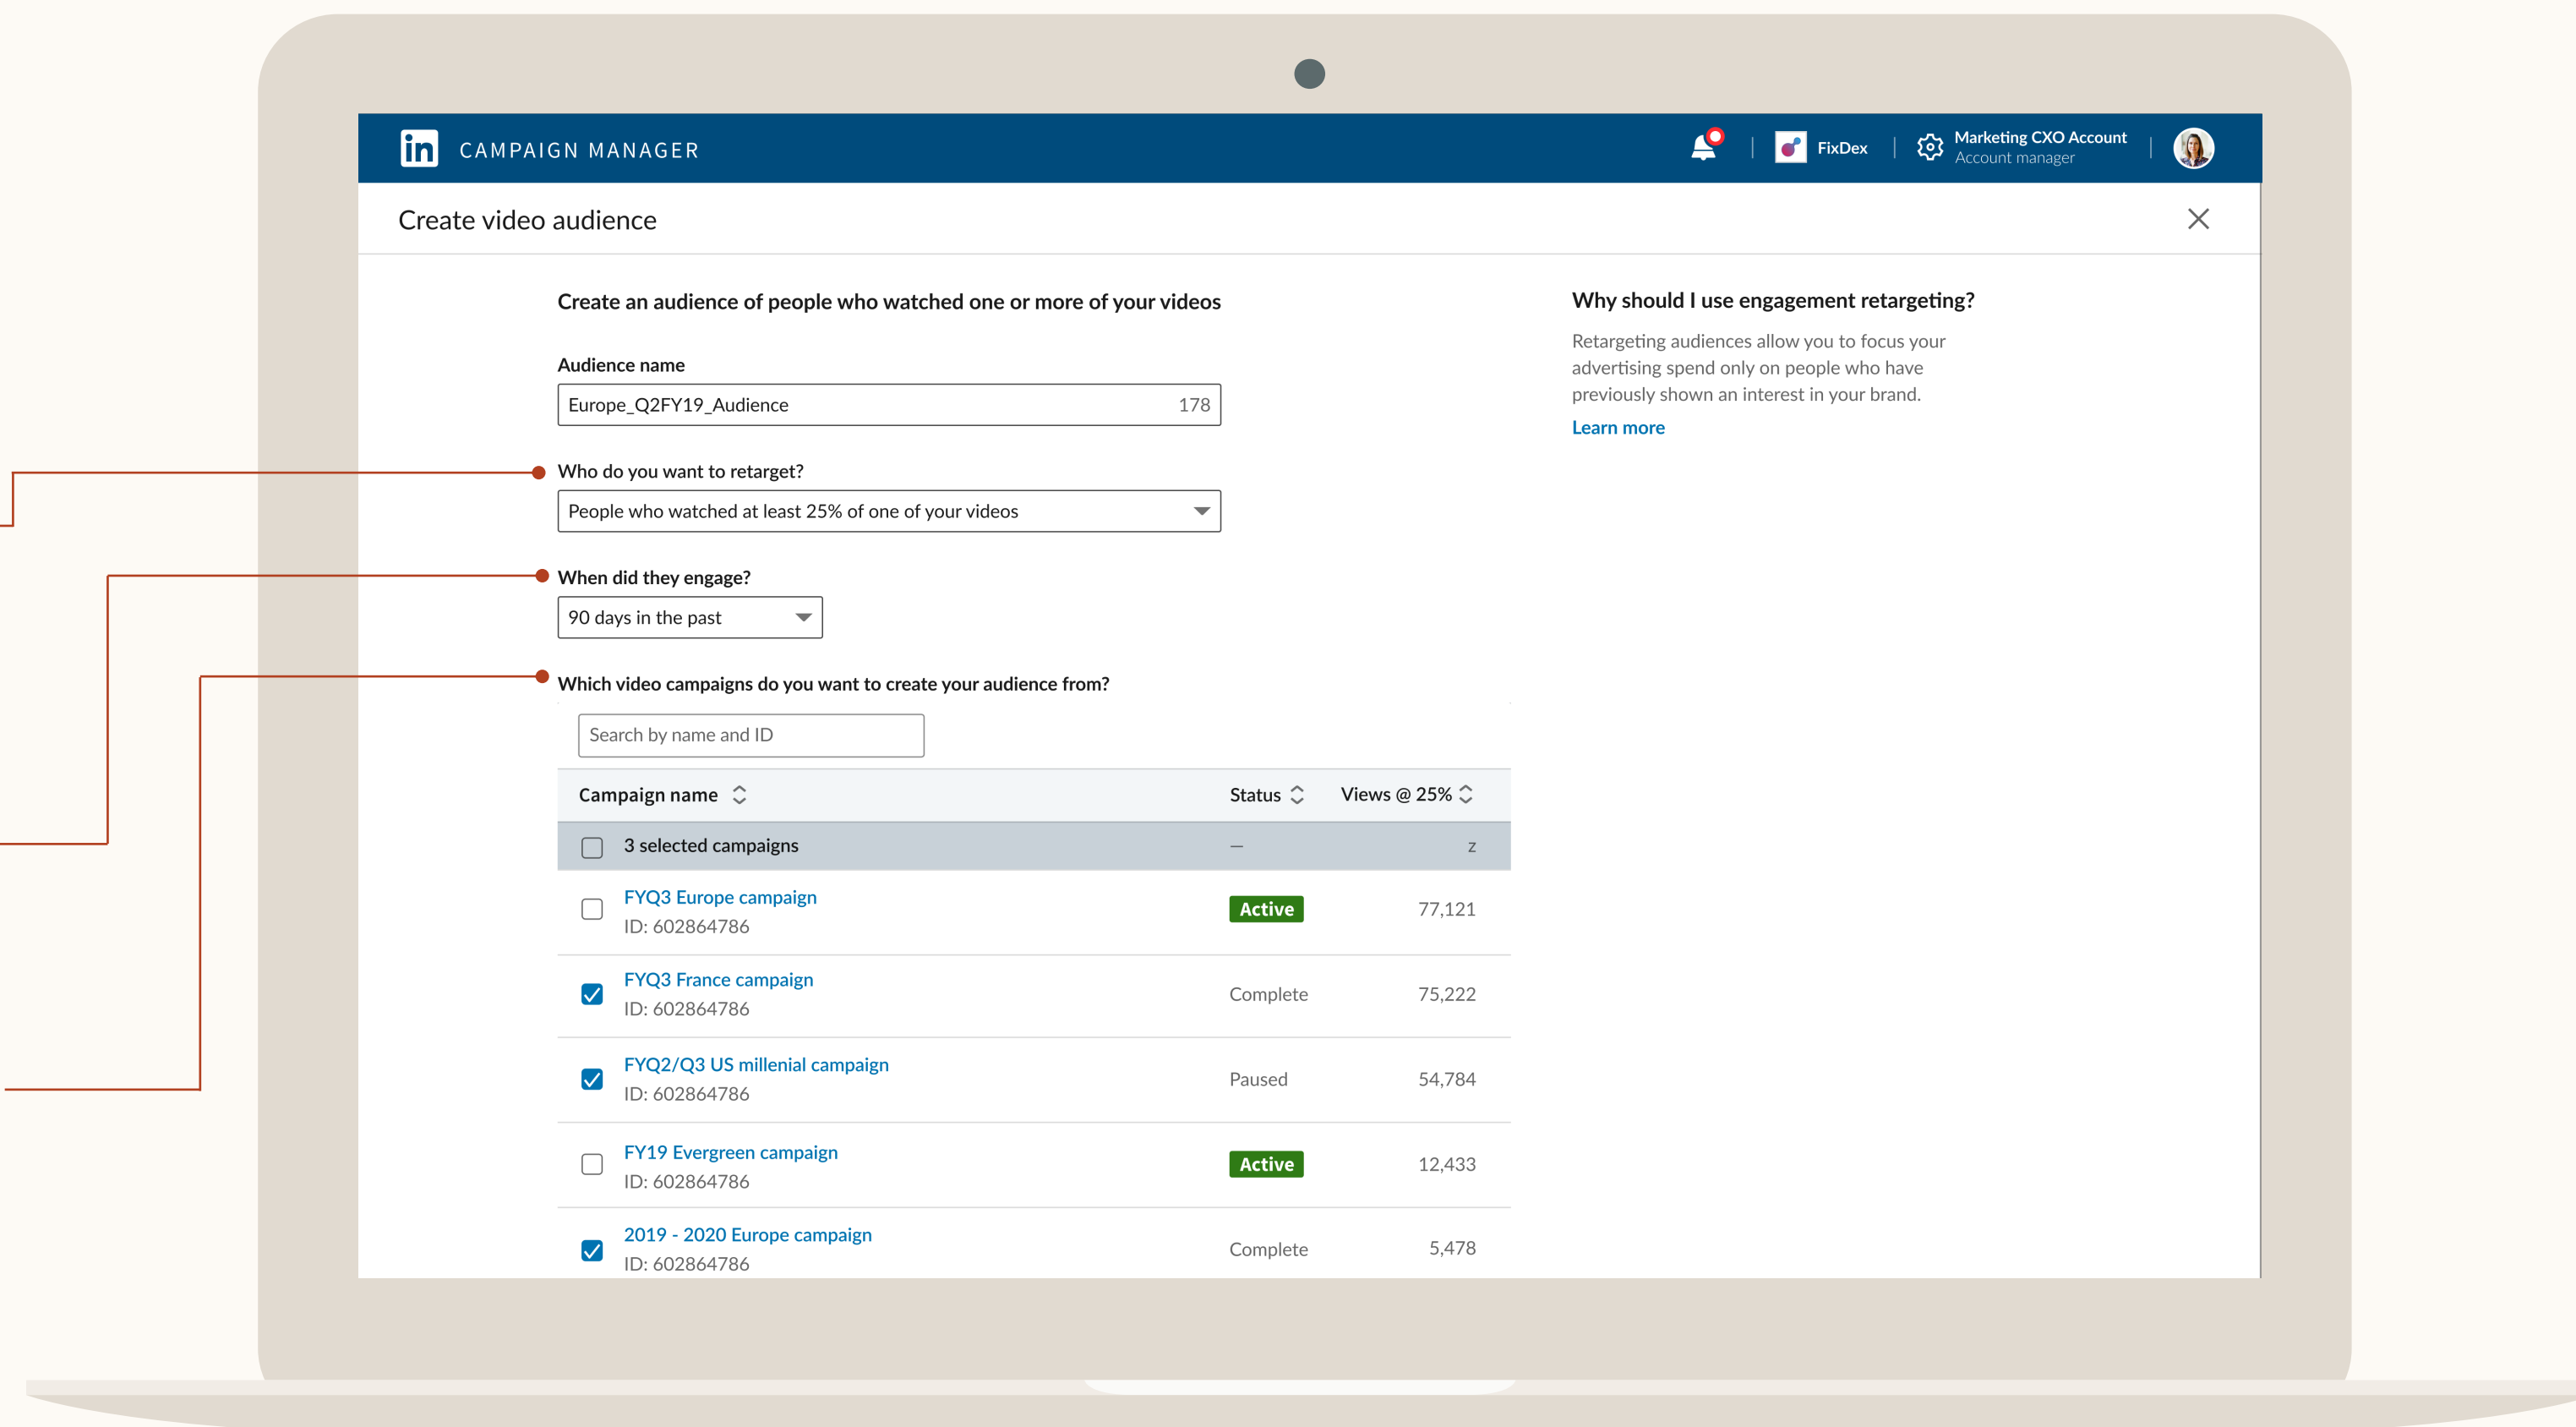

Retarget those who viewed 25%, 50%, 75% or 97% of a video ad or opened or submitted a Lead Gen Form.

## When?

Look back windows of 30d, 60d, 90d, 180d, 365d.

## Which?

Specify which campaign(s) you'd like to retarget.

**LinkedIn Campaign Manager**

FixDex | Marketing CXO Account

### Create video audience

Create an audience of people who watched one or more of your videos

**Audience name**  
 178

**Who do you want to retarget?**

**When did they engage?**

**Which video campaigns do you want to create your audience from?**

Campaign name	Status	Views @ 25%
<input type="checkbox"/> 3 selected campaigns	-	z
<input type="checkbox"/> FYQ3 Europe campaign ID: 602864786	Active	77,121
<input checked="" type="checkbox"/> FYQ3 France campaign ID: 602864786	Complete	75,222
<input checked="" type="checkbox"/> FYQ2/Q3 US millennial campaign ID: 602864786	Paused	54,784
<input type="checkbox"/> FY19 Evergreen campaign ID: 602864786	Active	12,433
<input checked="" type="checkbox"/> 2019 - 2020 Europe campaign ID: 602864786	Complete	5,478

**Why should I use engagement retargeting?**

Retargeting audiences allow you to focus your advertising spend only on people who have previously shown an interest in your brand.

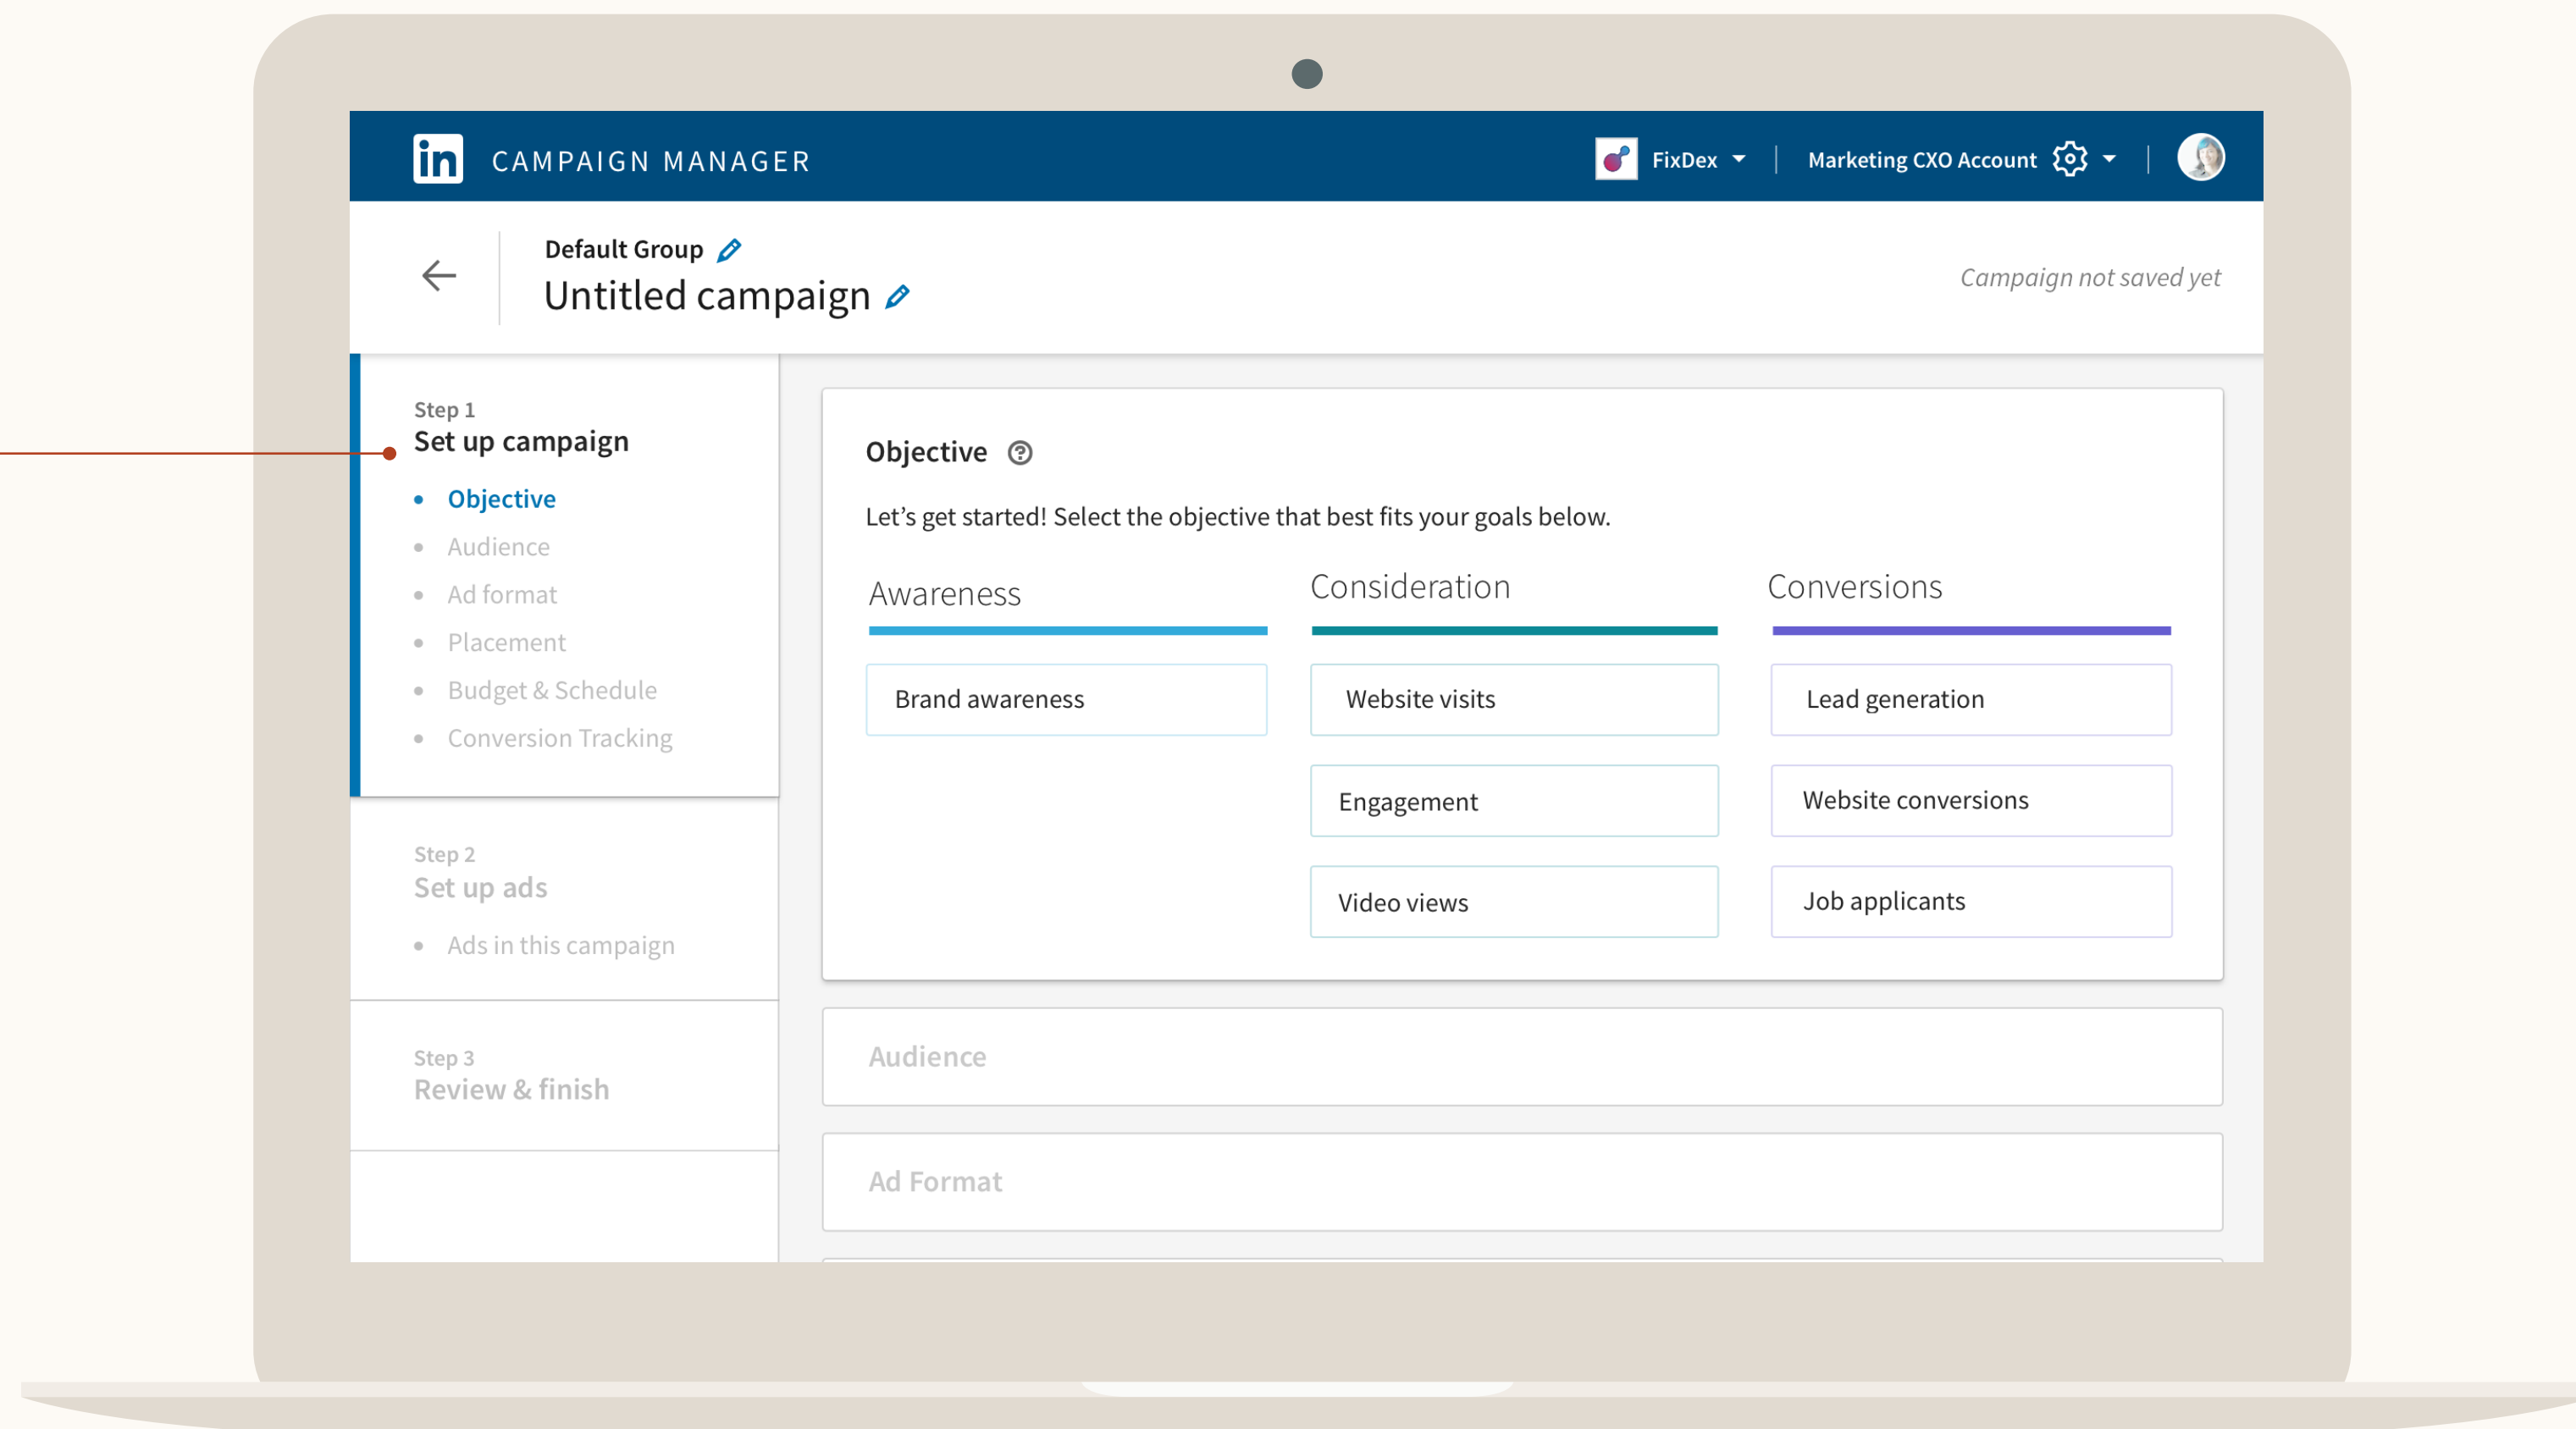

[Learn more](#)

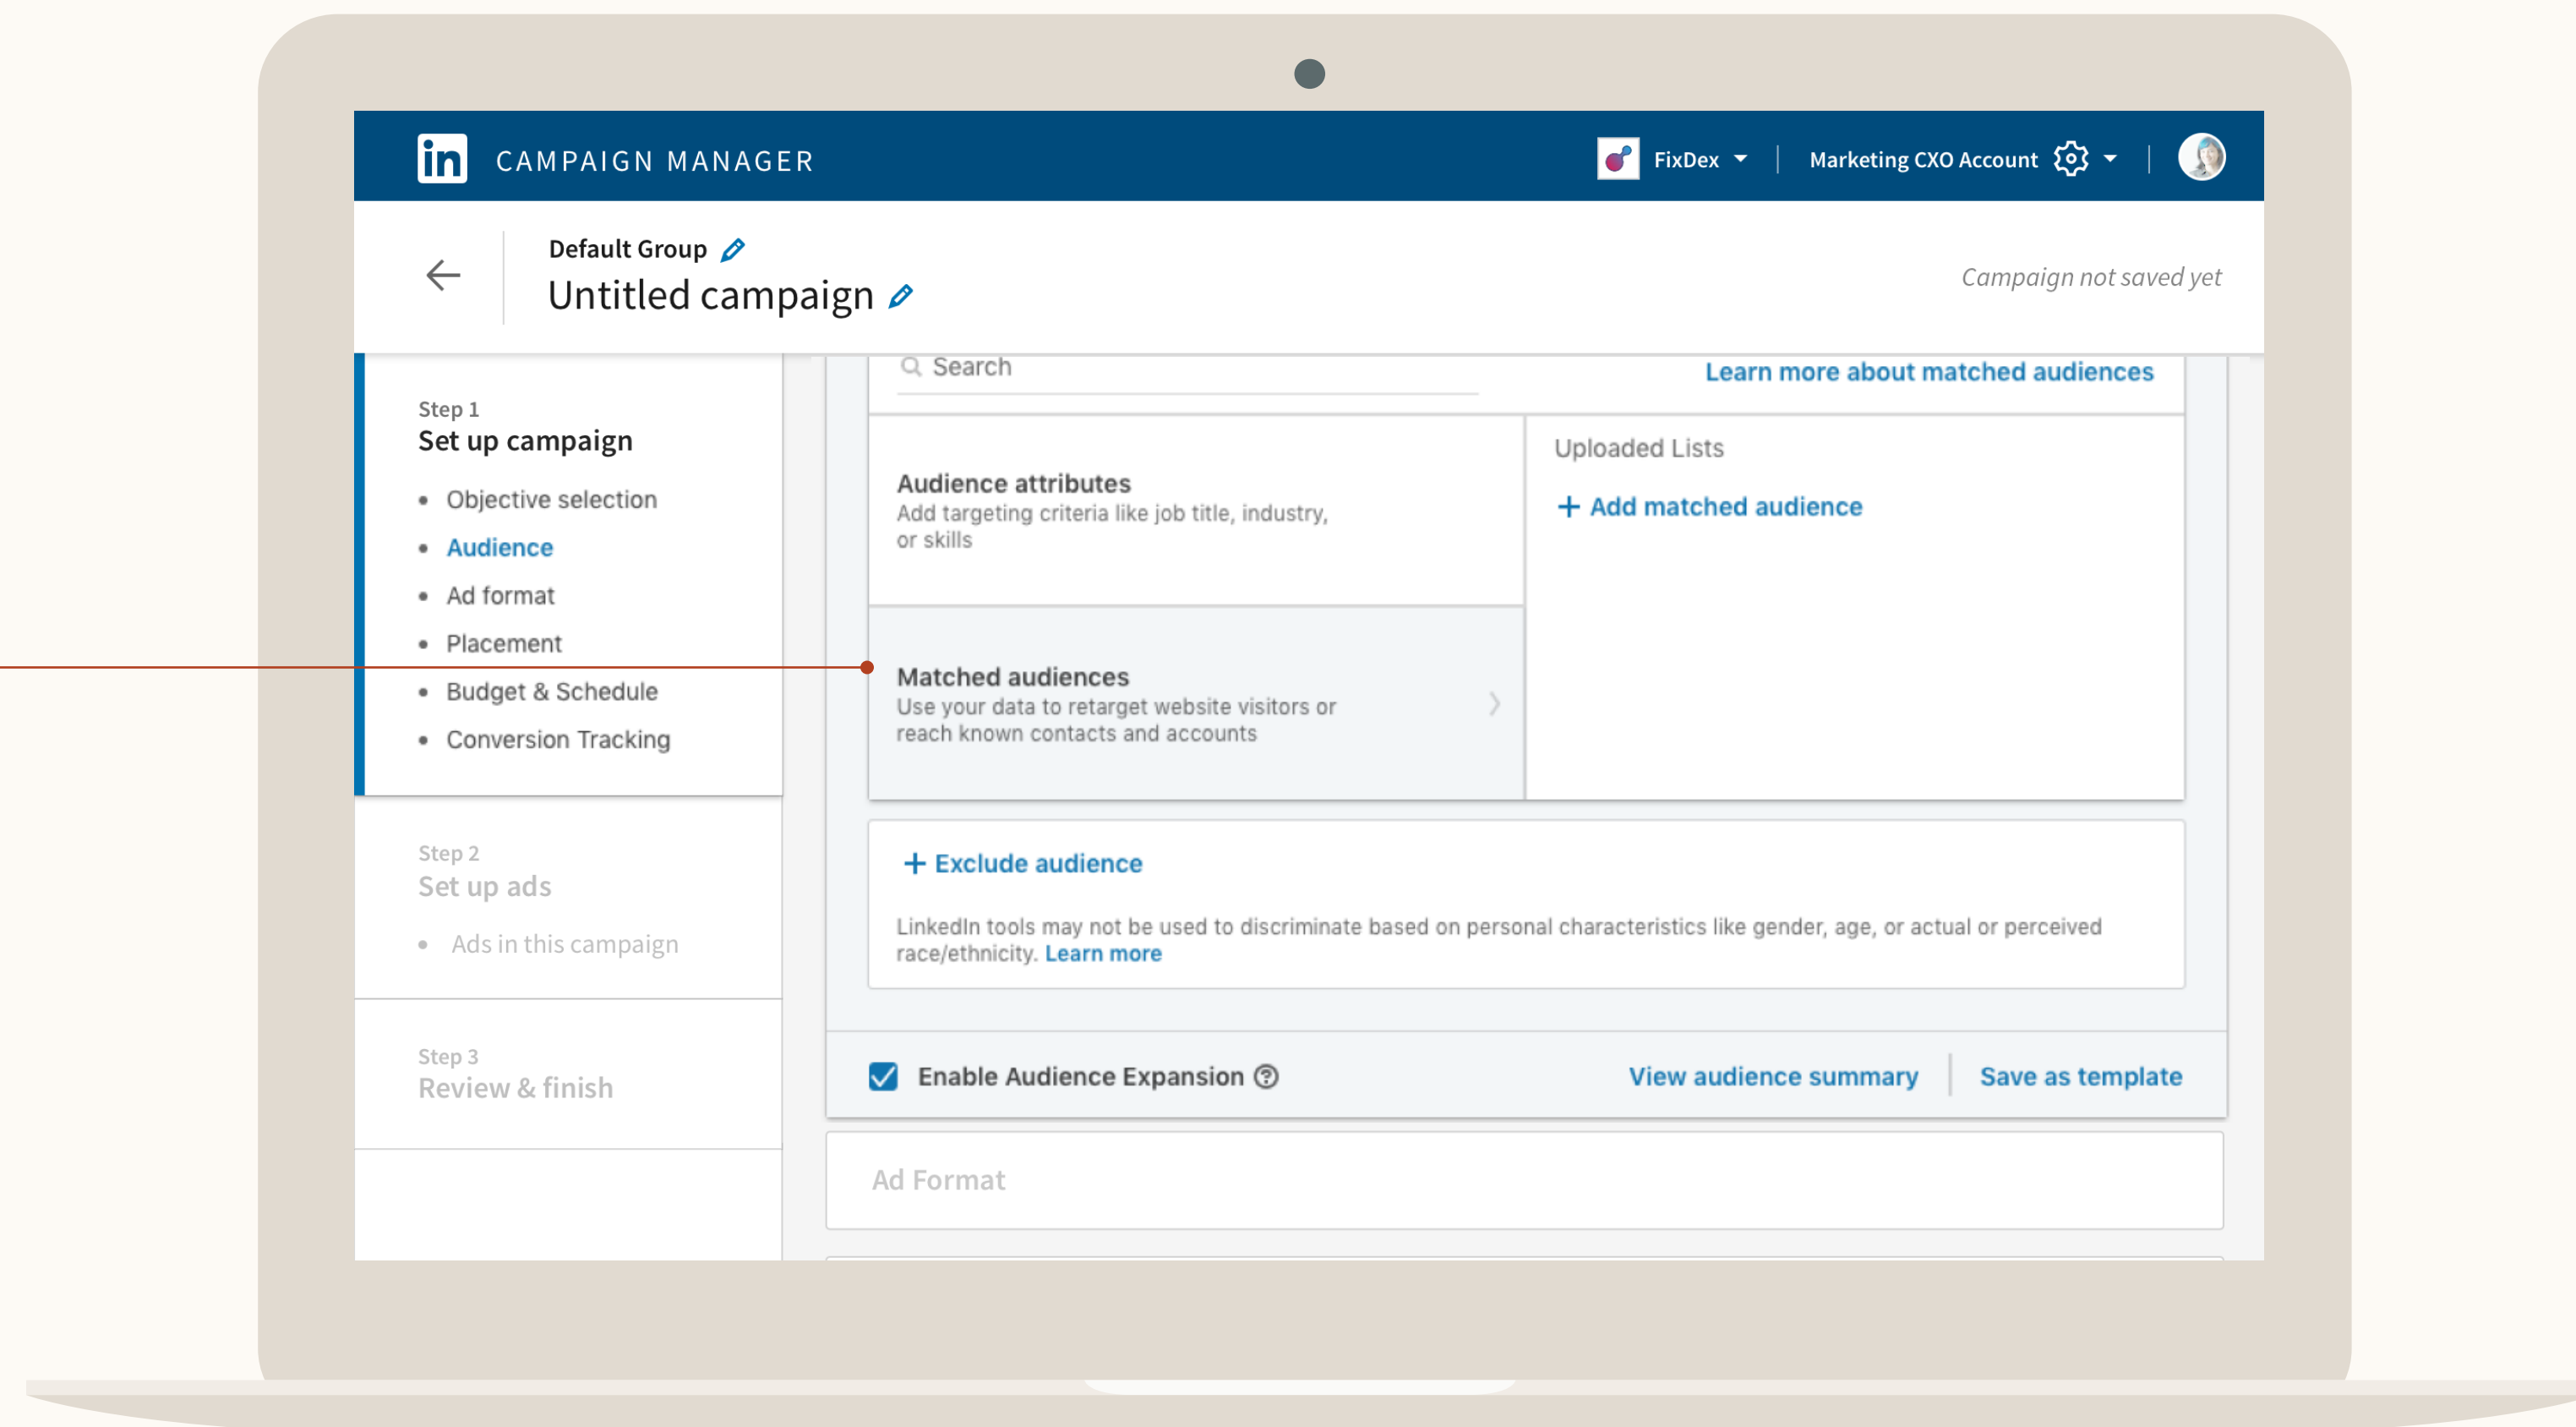

# Once you've created your audience, set up your campaign

Start with your objective.

Add your audience to a campaign from the 'Matched audiences' tab

# Helpful tips to keep in mind

Provide enough time for your audience to build which may take up to **48 hours**.

At least **300 members must be targeted** before the campaign can begin serving impressions.

Once at least 300 members are targeted, the campaign **will automatically** begin delivering if you activated your campaign by clicking 'Launch'.

When setting up your campaign, **exclude those who submitted a Lead Gen Form** from awareness or consideration campaigns.

Resources

# Contact Targeting by Uploading a Contact List

# Start by downloading our contact list template

[Click here](#) to download the account targeting list template.

email	firstname	lastname	jobtitle	employeecompany	country	appleidfa	googleaid	googleuid
john@linkedin.com	John	Smith	Sales Manager	LinkedIn	US	AECE52E7-03EE-455A-B3C4-E12345678999	beks52E7-05ee-321b-d5e6-a12345678999	1234567890

When uploading your lists for Contact Targeting, ensure they adhere to LinkedIn's formatting guidelines. Download our template and populate it with your own list of contacts.

## Recommendations

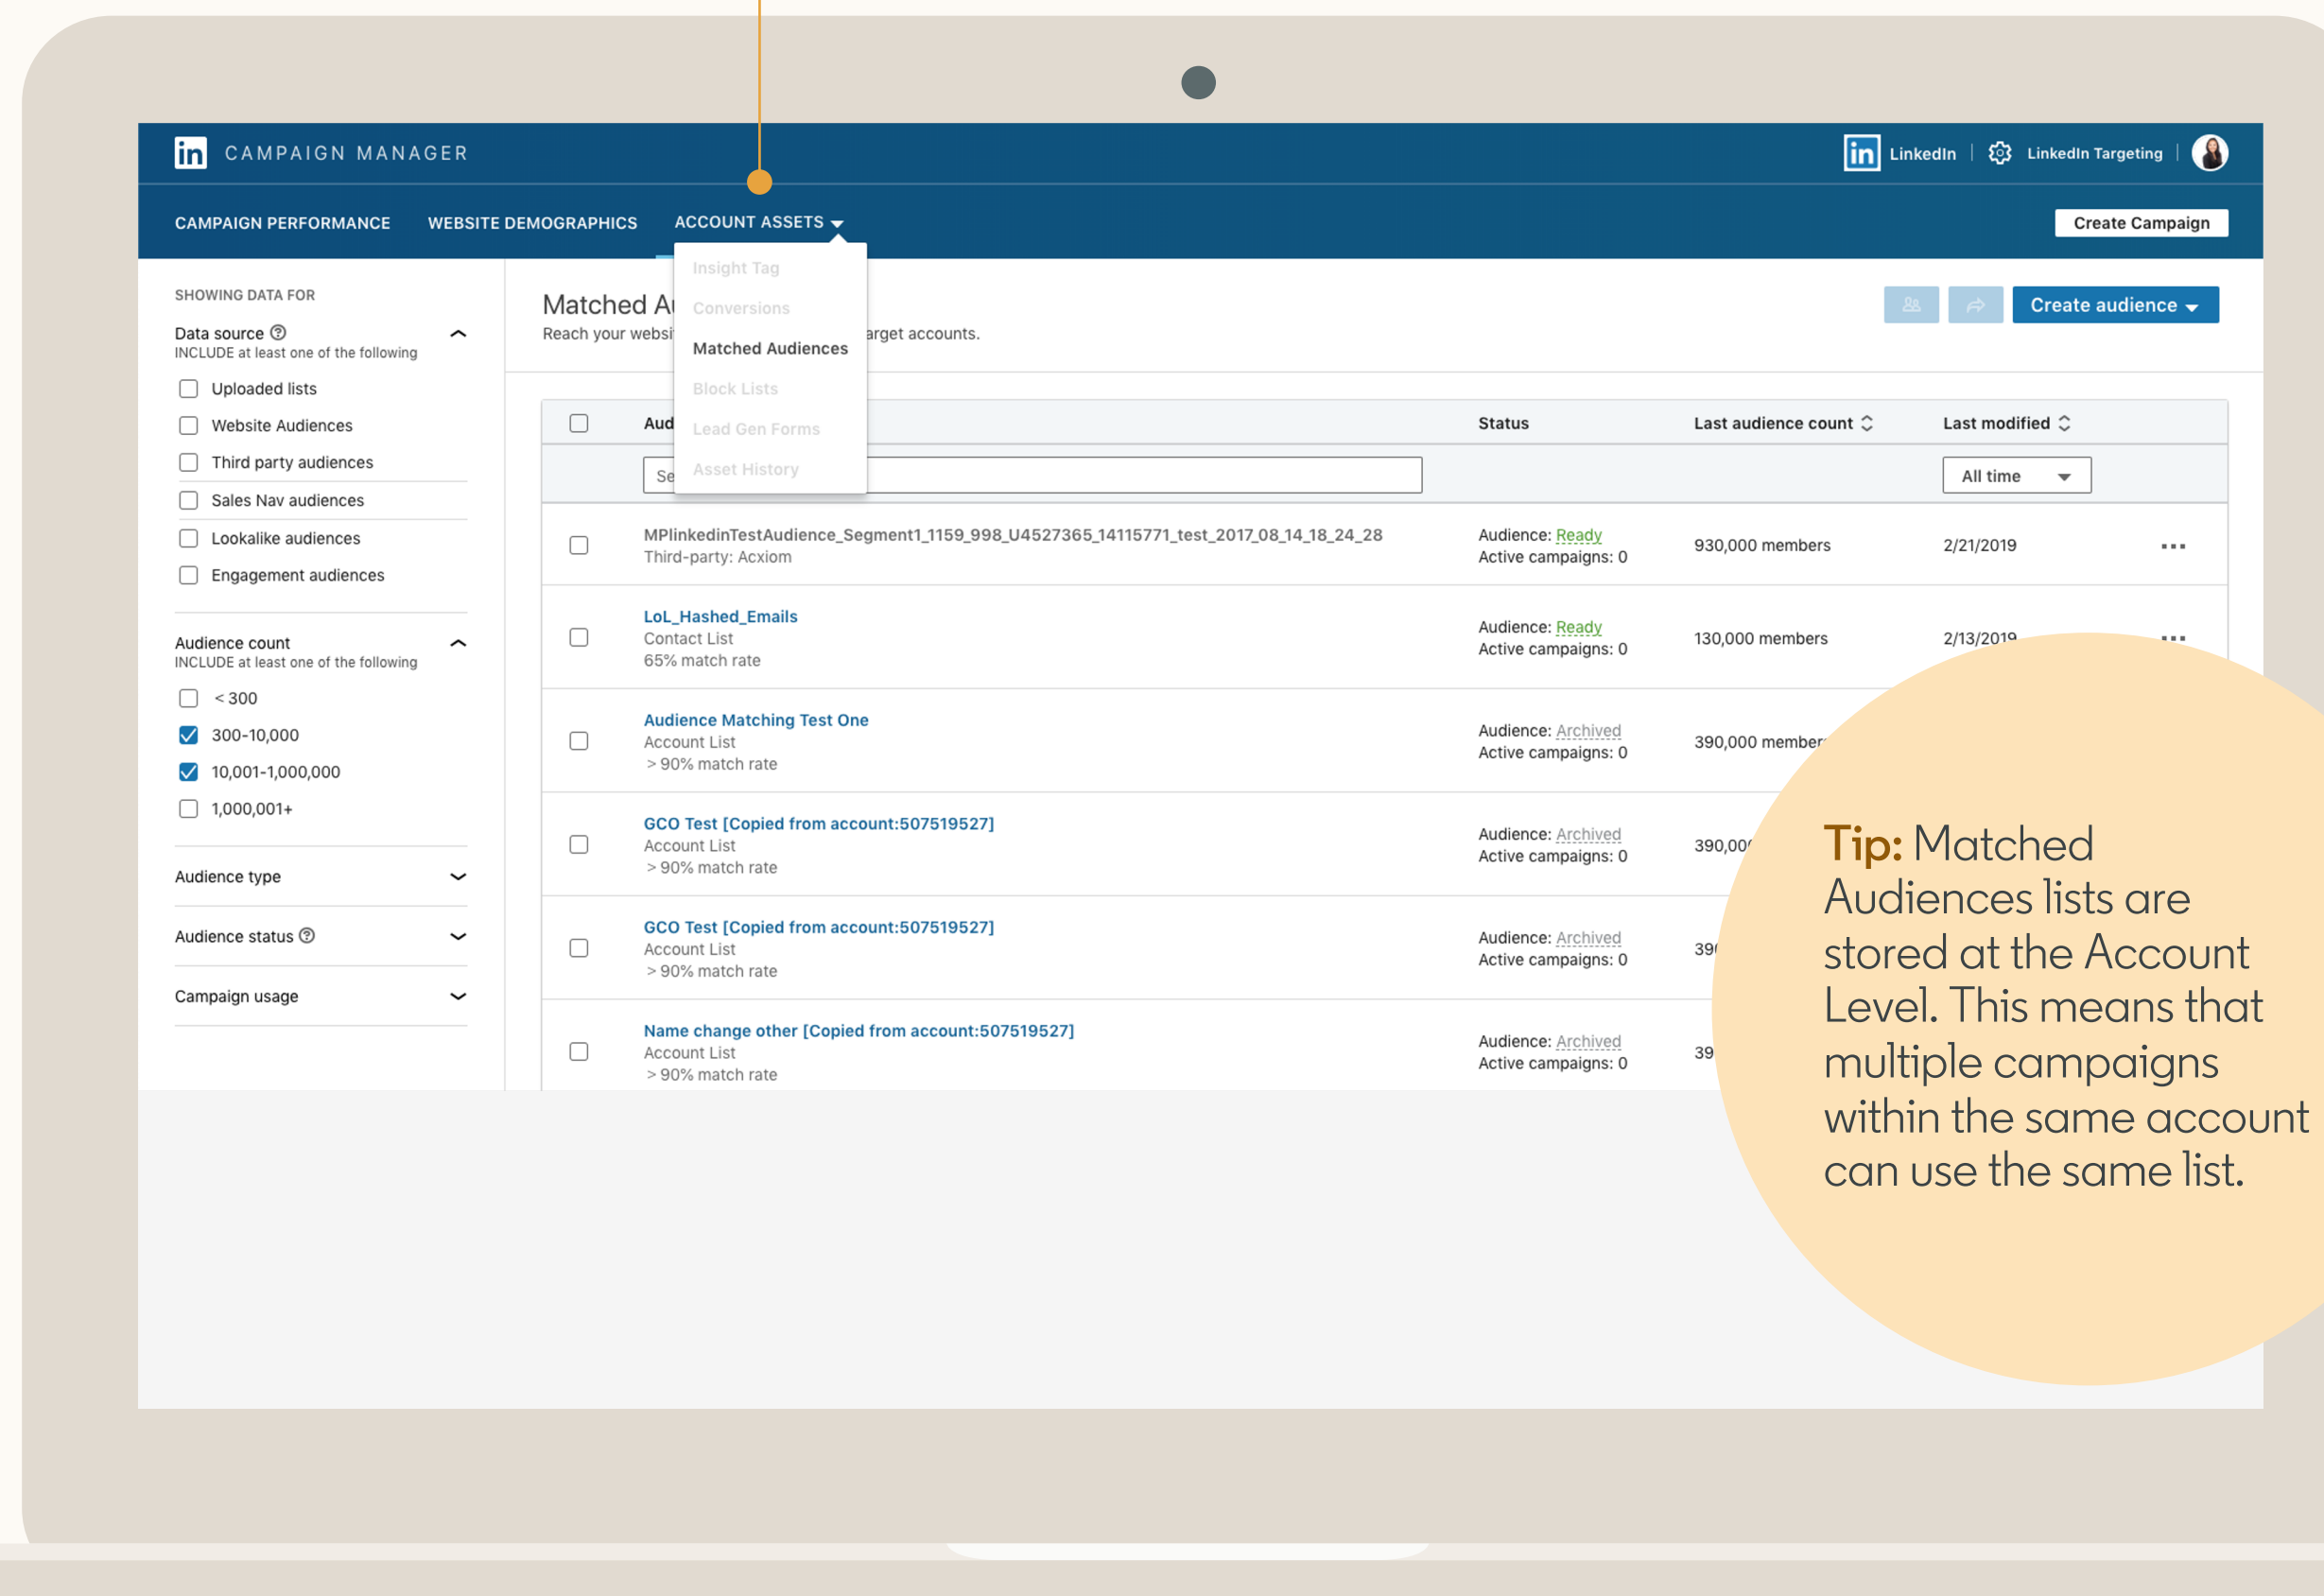

The recommended list size is 10,000 contacts or more (maximum 300,000).

Provide as much information as possible for more accurate matches.

In Campaign Manager, access 'Matched Audiences' from the 'Account Assets' menu

**Tip:** Matched Audiences lists are stored at the Account Level. This means that multiple campaigns within the same account can use the same list.

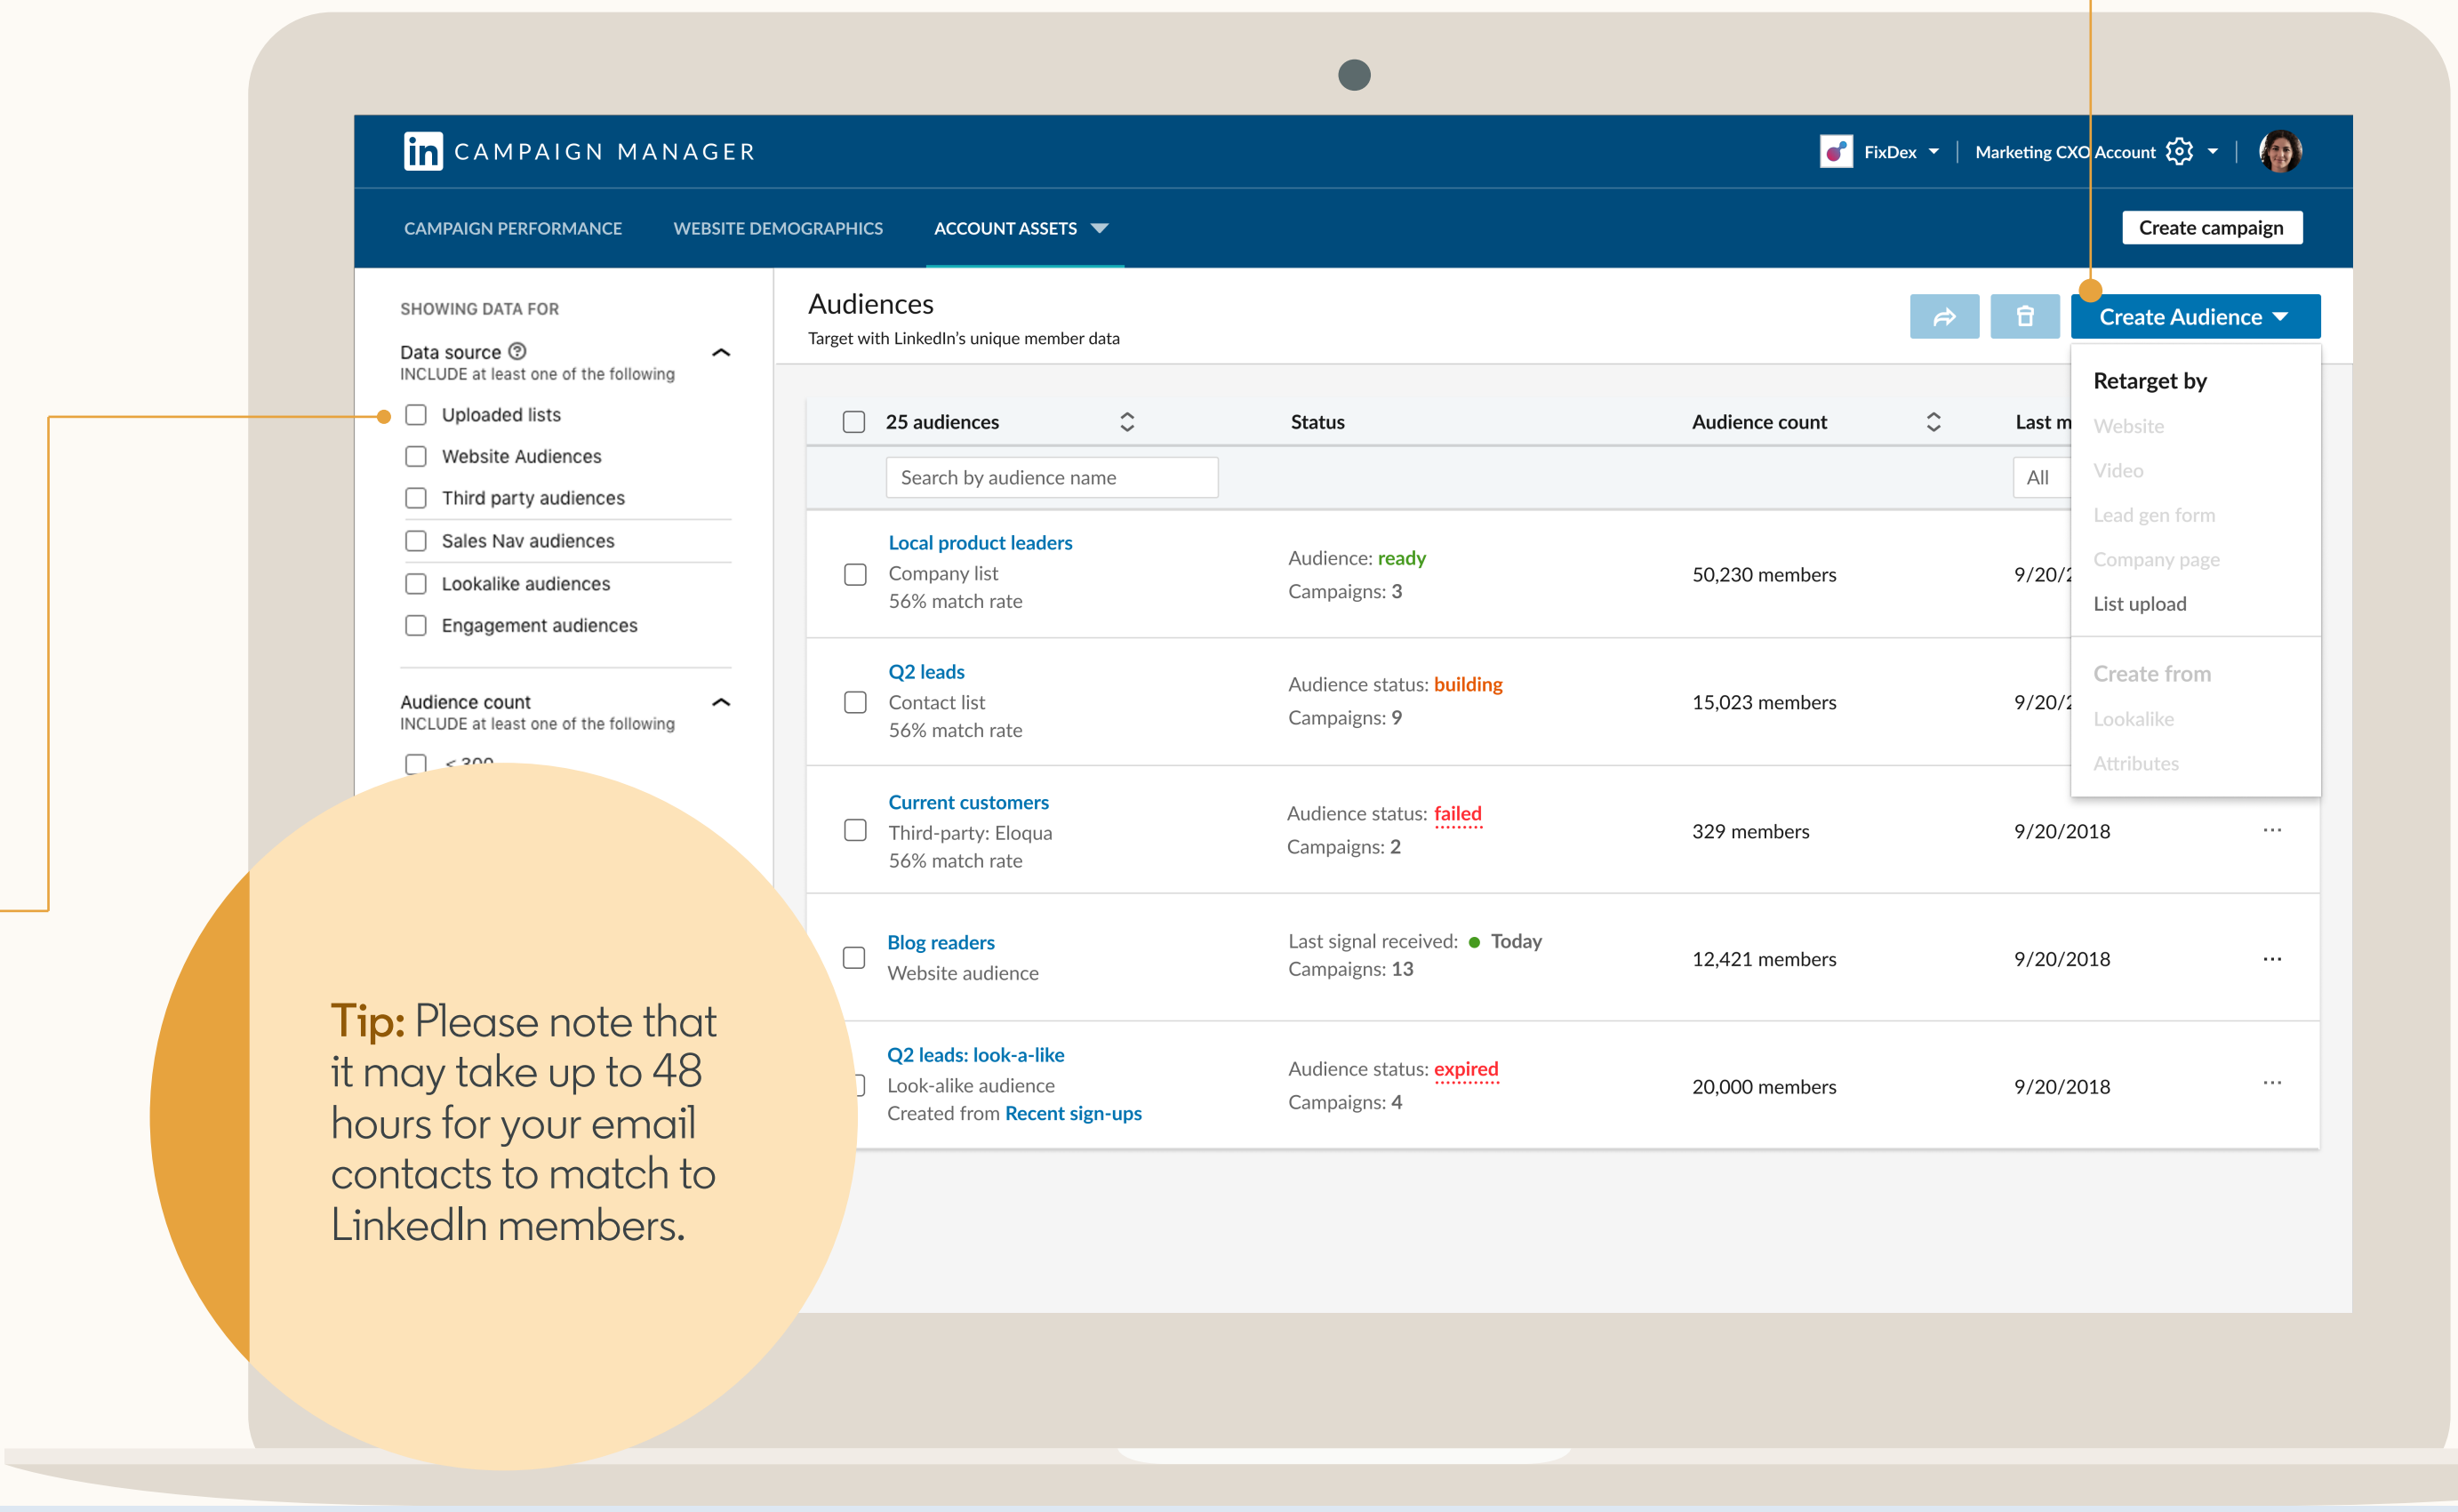

Next, click on 'Create audience' and choose 'List upload'

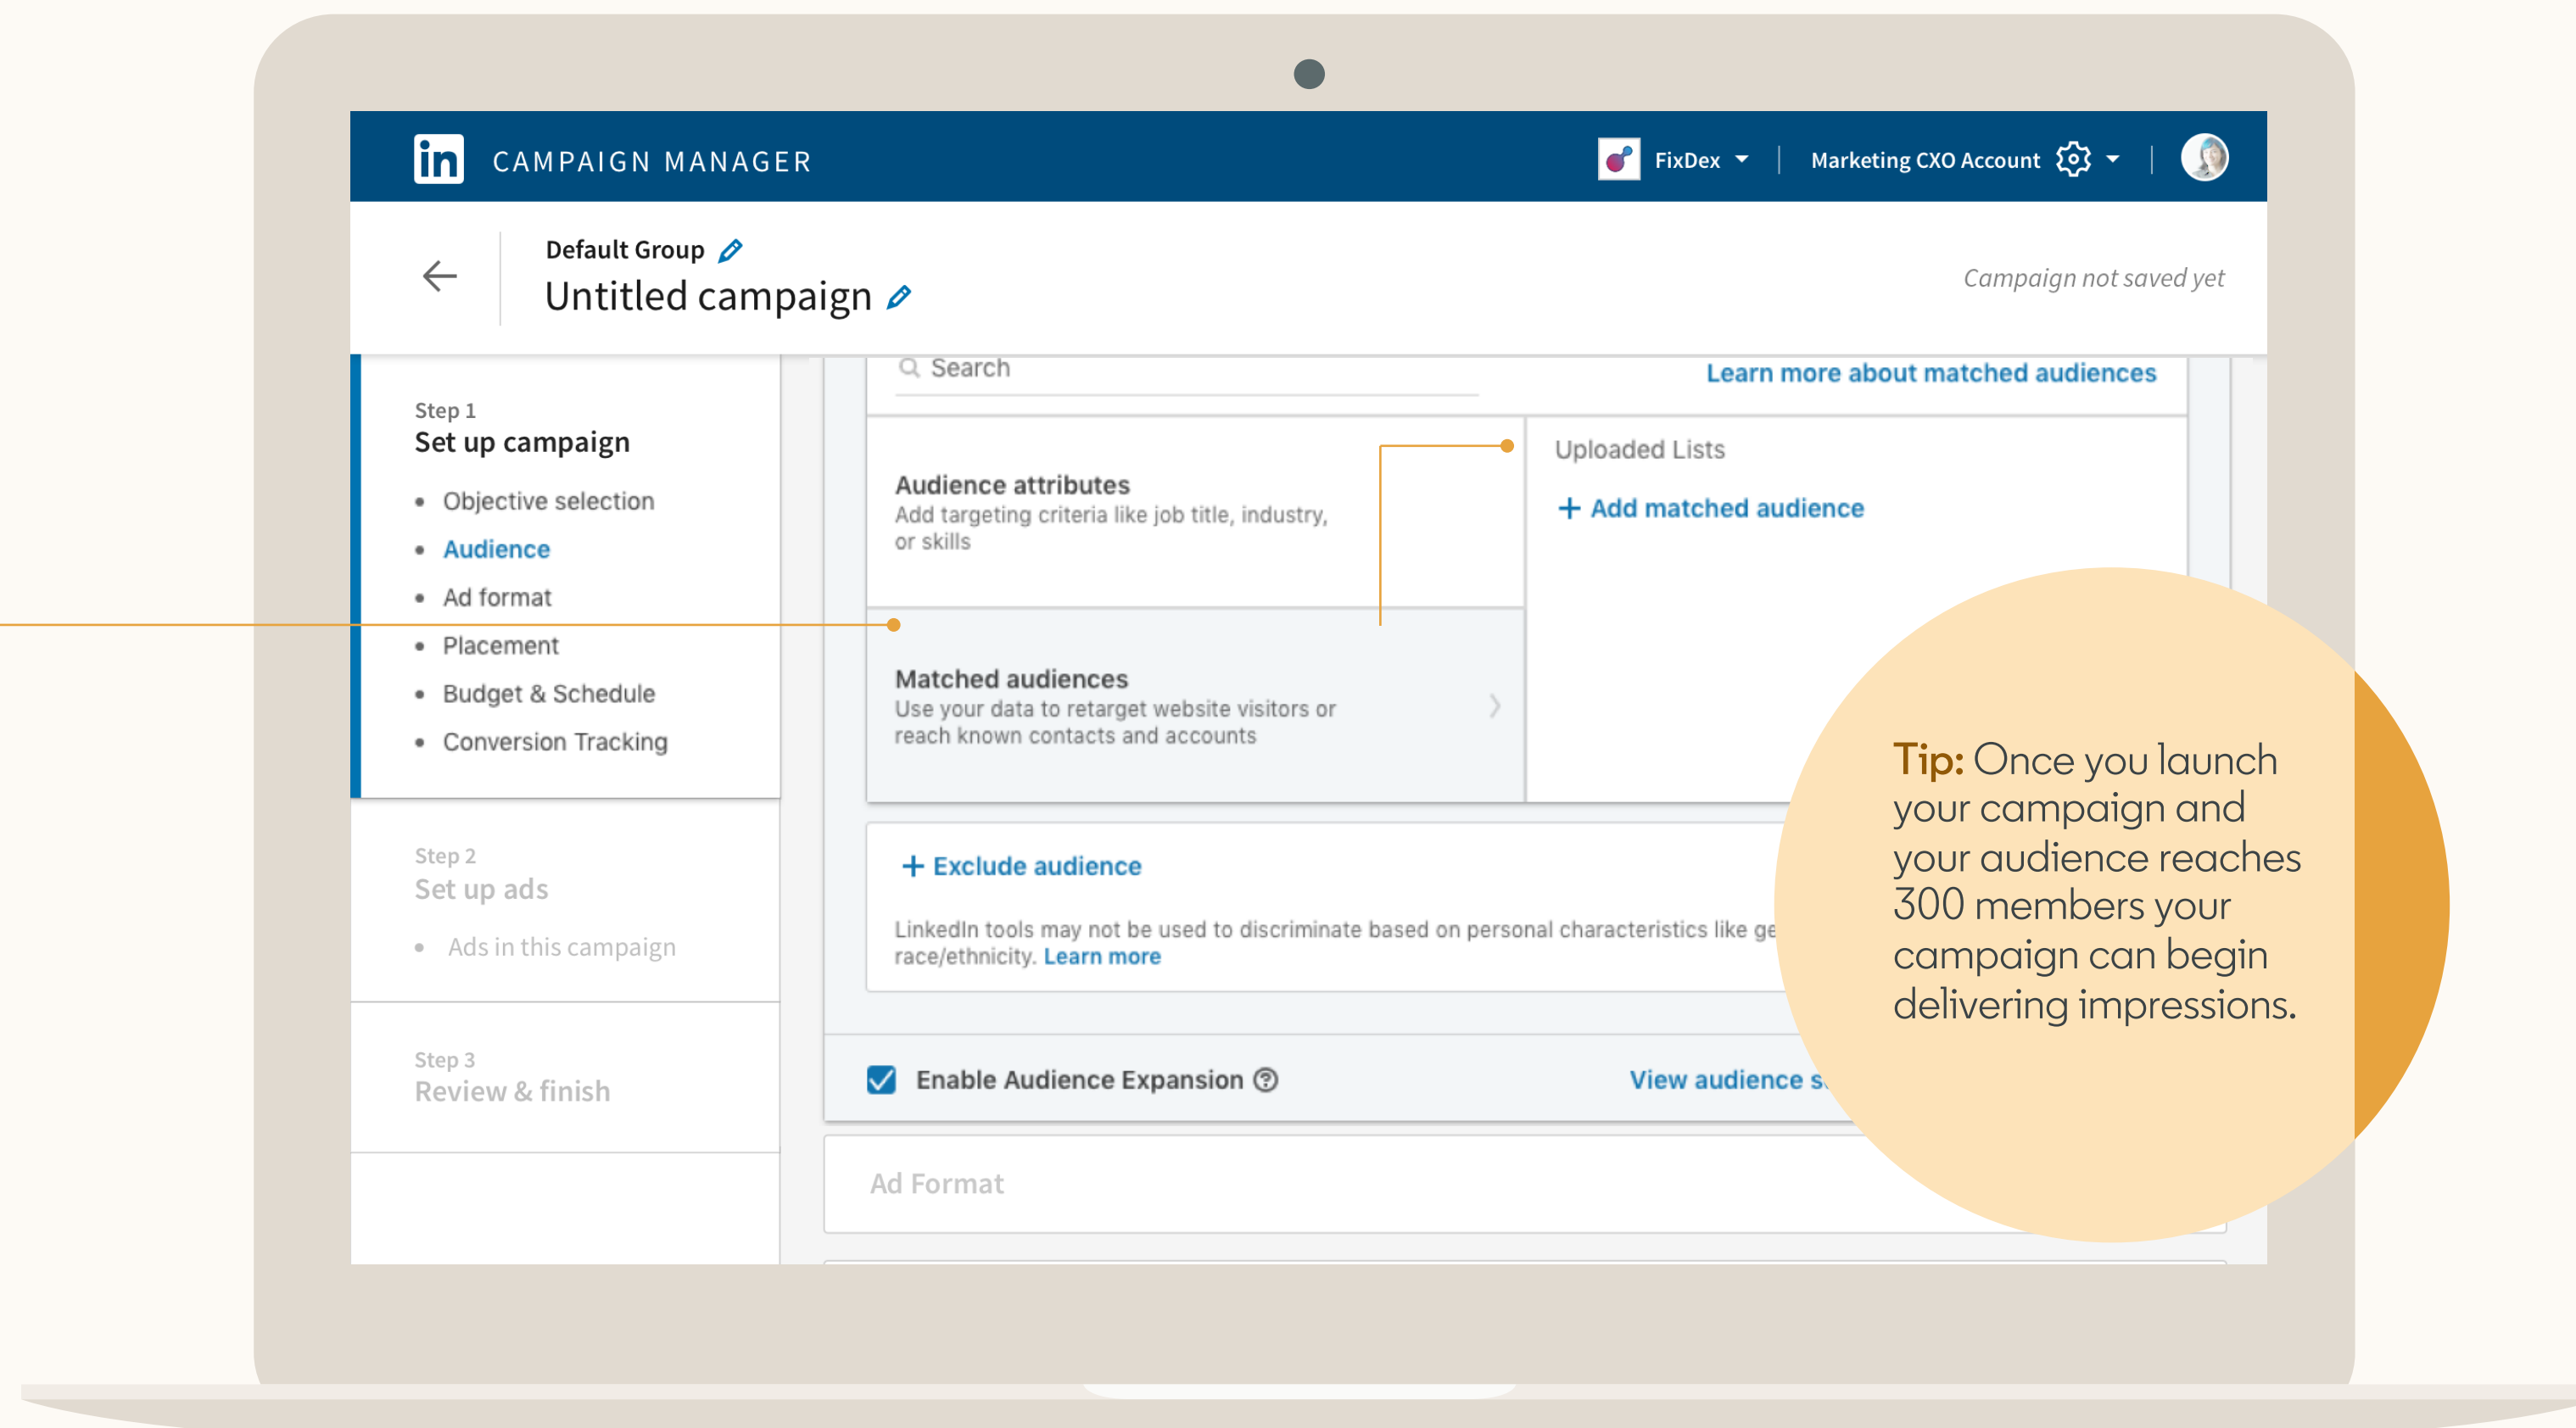

If you've uploaded prior lists you can find them on this page by filtering for uploaded lists.

**Tip:** Please note that it may take up to 48 hours for your email contacts to match to LinkedIn members.

Finish setting up your campaign by adding your file to an existing or new campaign

# Helpful tips to keep in mind

Use our template to ensure proper formatting. Check spelling for accuracy to help get you the highest match rate. Remove all formatting like quotes added to email addresses.

---

Larger lists are likely to have better match rates. Consider uploading a list of at least 10,000 contacts or more for optimal results.

---

When selecting your contacts **target influencers or decision makers** for optimal results.

---

Avoid **hyper-targeting** which can limit scale and delivery of campaigns. This includes layering too many targeting criteria.

# Contact Targeting by Data Integrations

# Before starting, make sure you have 'Creative Manager' access to your Campaign Manager account

The screenshot shows the LinkedIn Campaign Manager interface. At the top, there's a navigation bar with the LinkedIn logo and 'LinkedIn Targeting'. Below it, a sidebar menu includes 'Account ID: 507474263', 'Create Campaign', 'Edit account details', 'Manage access', 'Billing center', and 'Contact settings'. The main content area is titled 'User Permissions' and lists users with access to 'Johanna's Ad Account'. The users listed are:

- Jae Oh (Campaign manager)
- Jeremy Wilkins (Account manager)
- Johanna Kimura (OWNER, Account manager)
- Marketing S. (General Ed, Account manager)

A dropdown menu is open for Michelle Nicholson, showing the following roles: Account manager, Campaign manager (checked), Creative manager (highlighted), and Viewer. A 'Remove' button is visible next to the dropdown.

**Tip:** Creative Manager or higher access is required for each ads accounts you wish to integrate with a data integration provider.

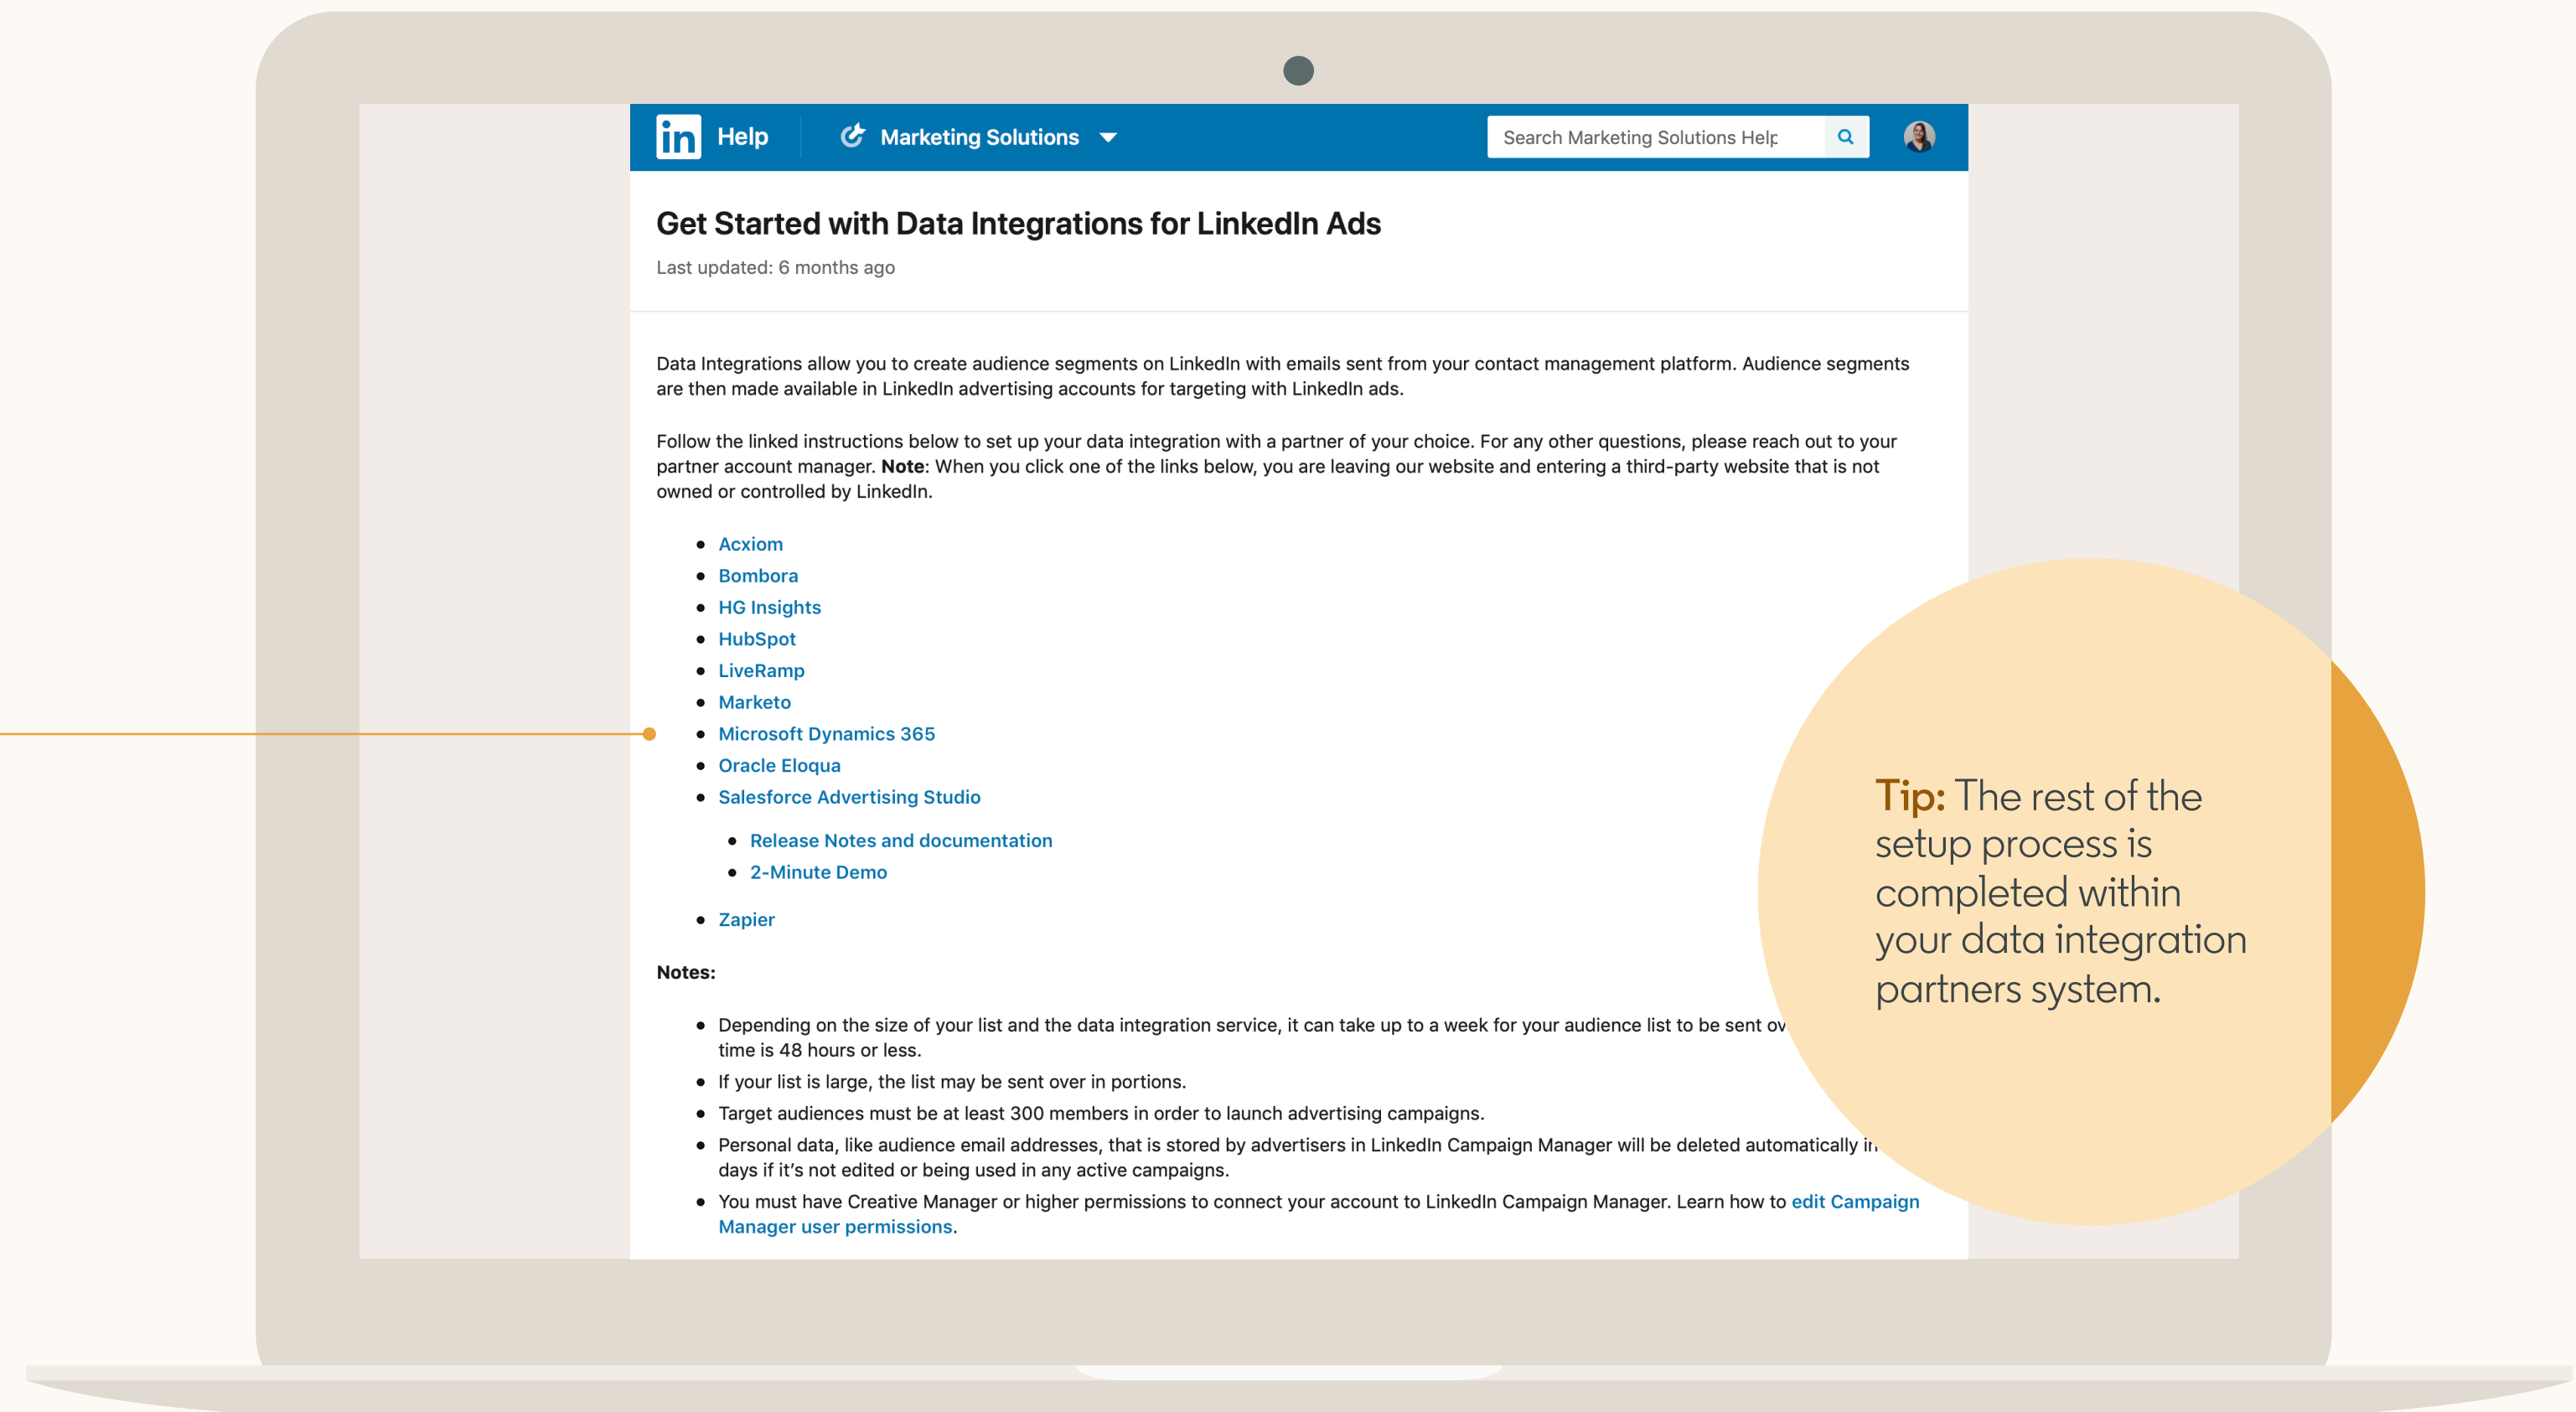

Navigate to our help center page, select your data integration partner and follow the setup steps specified

[Click here](#) to go to the Help Center

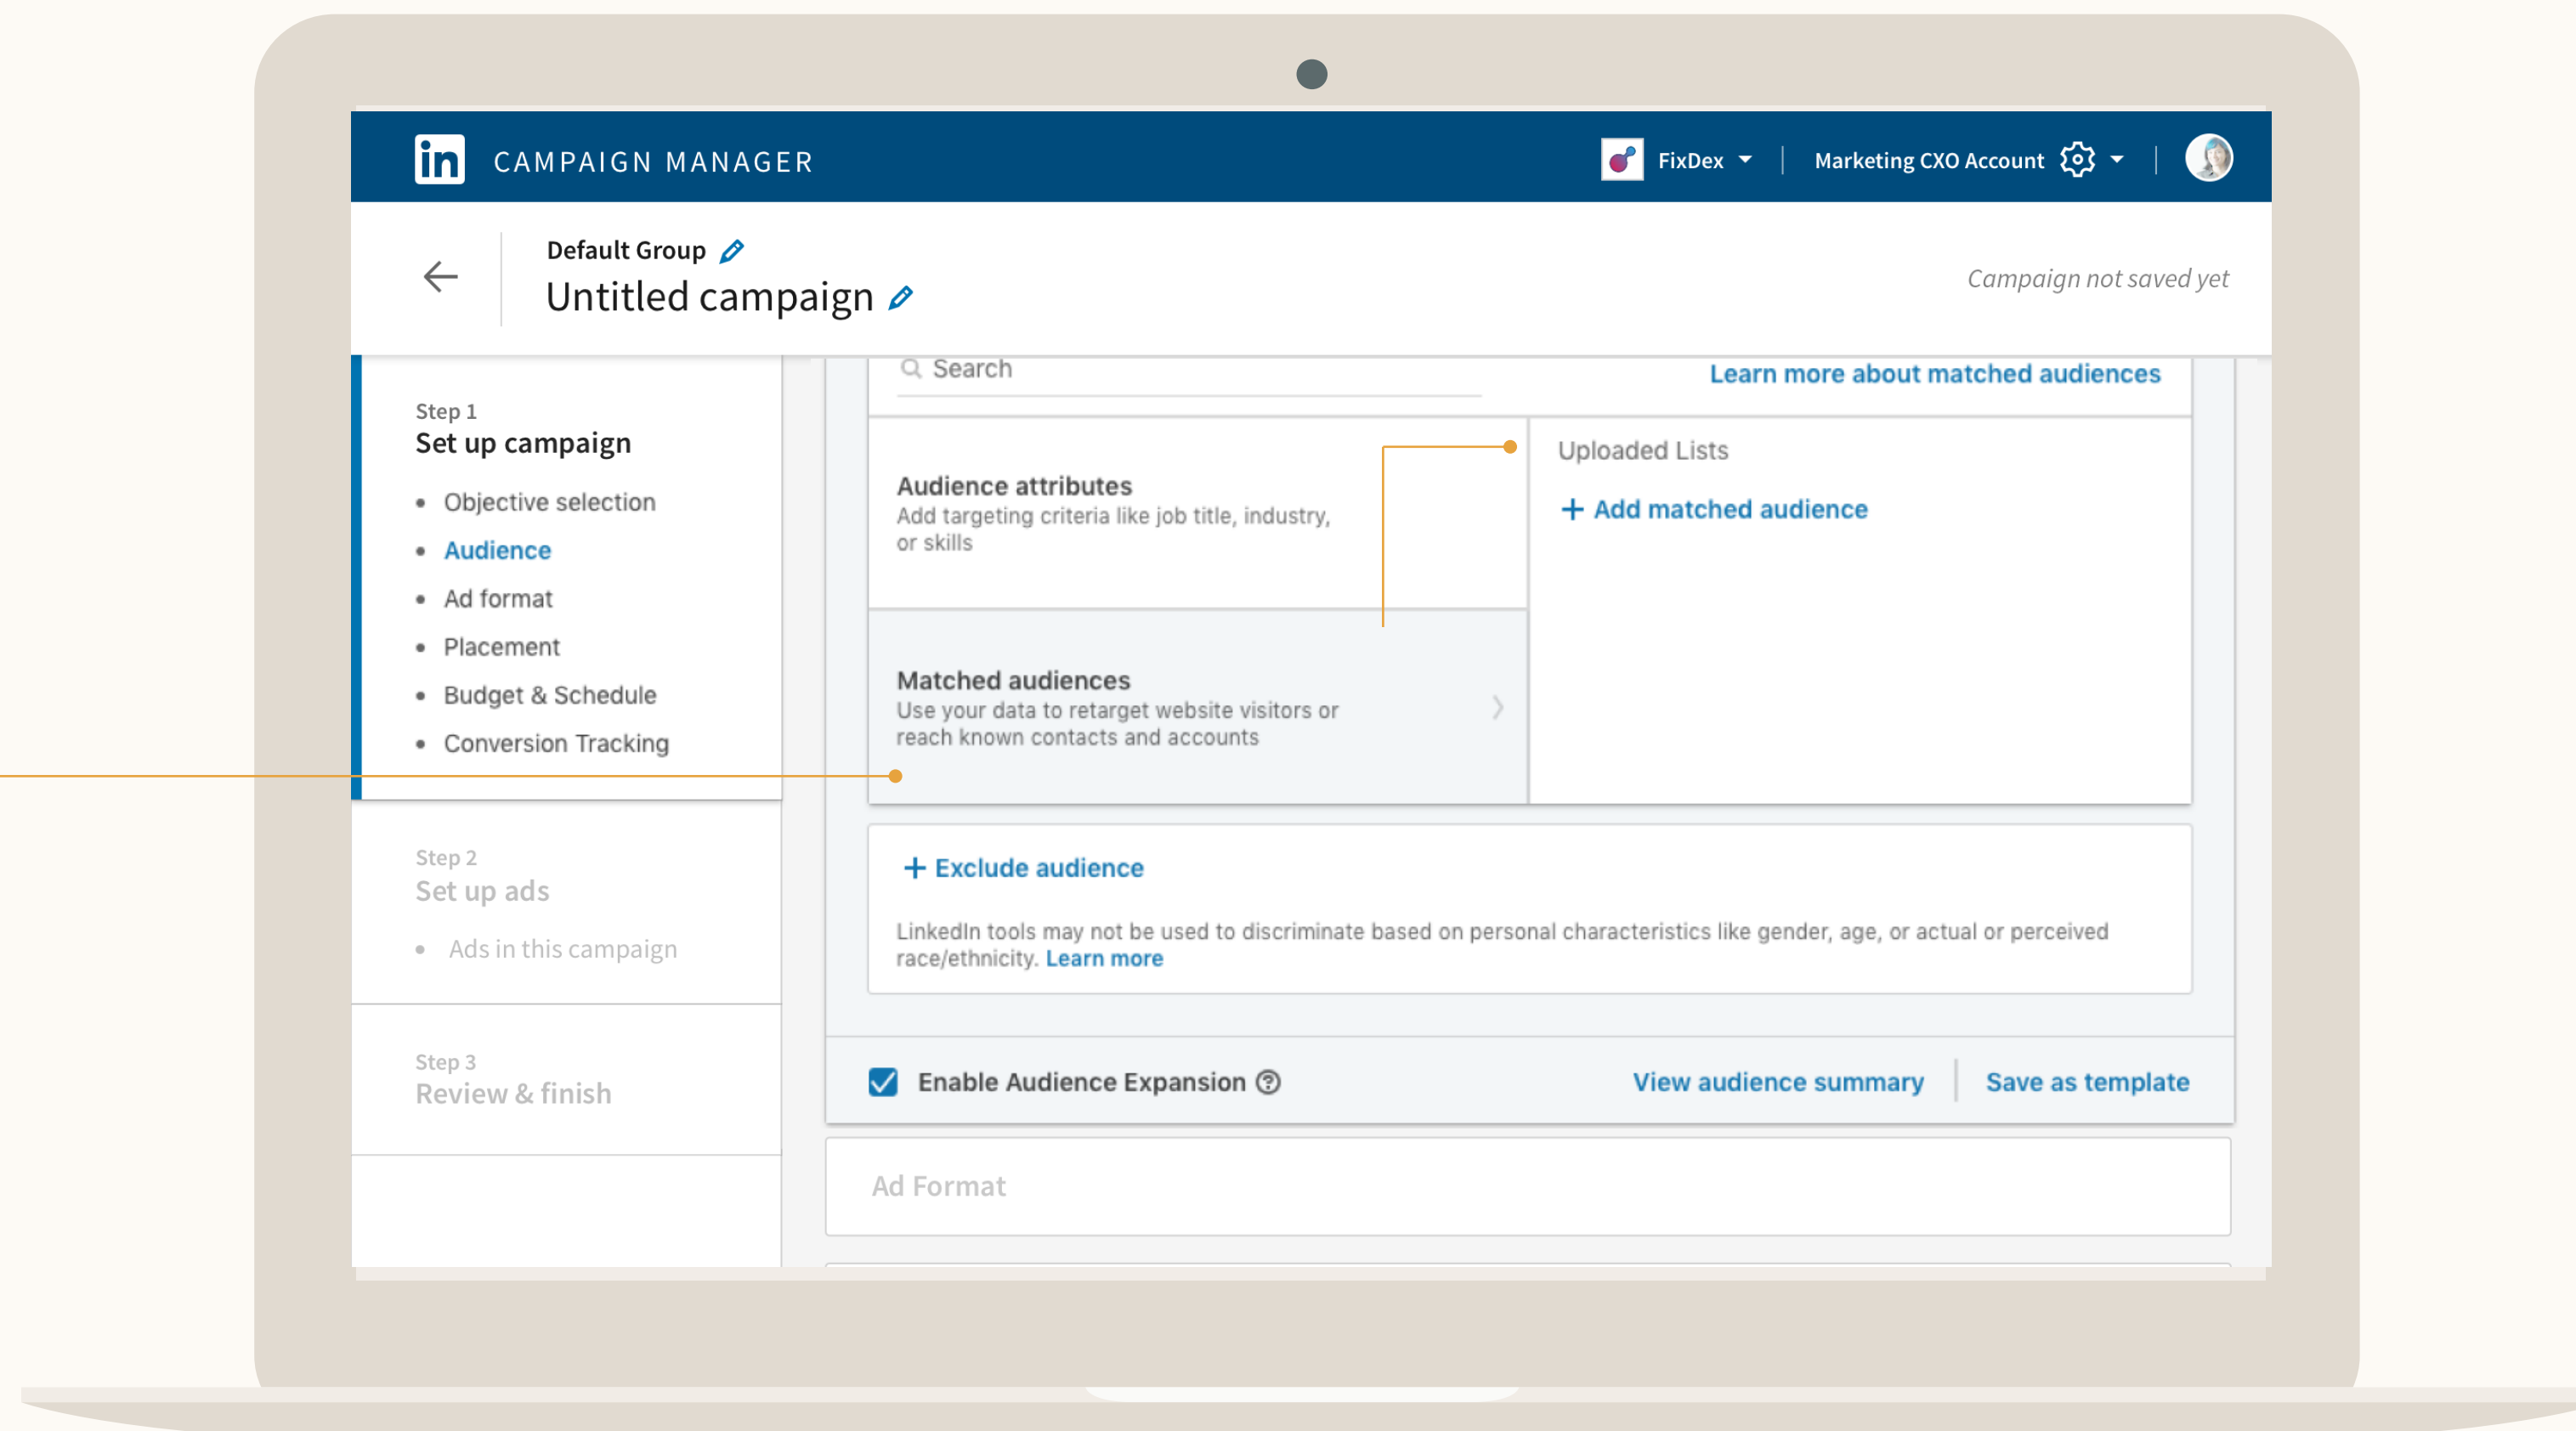

**Tip:** The rest of the setup process is completed within your data integration partners system.

Your lists will automatically populate on the 'Uploaded Lists' page of the 'Matched audiences' tab

**Note:** Once you've successfully connected your data integration provider, your lists will appear within 24 hours.
