LinkedIn Marketing Award Categories 2018

The LinkedIn Marketing Awards have eight categories, which are open to any business operating in EMEA that uses LinkedIn to market to other businesses.

You can enter as many campaigns as you like, and you can enter any campaign into as many categories as you think are relevant. Some awards have categories for businesses of different sizes – others have one category that is open to all.

All award categories require you to upload creative examples from your campaign. The examples you choose can involve any use of LinkedIn formats or features, from thought-leadership posts to examples of Sponsored Content, video assets, Sponsored InMail, Text Ads, even status updates and employee profiles. You'll be asked to upload creative examples when you fill in your entry details on our Awards website (see page 13 for more details).
