

iYogi Case Study

iYogi generates verifiable leads from relevant target audience with LinkedIn Sponsored Content

“LinkedIn helped iYogi funnel a sample set of decision makers through Sponsored Content campaigns. From this sample set, LinkedIn was able to assist iYogi in determining areas of interest and places where key decision makers whom iYogi was targeting were clustered. By leveraging big data and relationship analytics of the LinkedIn network, we were able to segment more intelligently and focus our marketing message to various audiences and successfully optimize our content marketing strategy to generate high quality leads in the enterprise B2B space.”

Rohit Challu
- Assistant Vice President, Marketing
iYogi

Company Profile

iYogi is one of the world’s largest providers of brand independent technical support, with services available in more than 10 countries including the United States, the United Kingdom, Canada, Australia, and UAE.

Formed six years ago and catering to consumers and small businesses, they have recently launched Digital Service Cloud, a new cloud-based product offering targeted at large telecommunications companies and original equipment manufacturers. Through a combination of innovative and easy to use end customer facing mobile, social and desktop apps, iYogi's Digital Service Cloud has translated the experience distilled from more than 10 million service requests to deliver a personalized experience at every moment of a customer interaction.

Challenge

iYogi was looking to generate brand awareness of the new Digital Service Cloud offering and translate that into high quality leads. It was important to reach the decision makers and influencers of top telecom companies and original equipment manufacturers (OEMs) to make the launch successful.

Results in numbers for a month-long campaign

- 2x CTR achieved over benchmarks for the same audience targeted
- 62% of current follower base built up with 3 months
- 7-8% shareability out of total engagements

Solution

LinkedIn's Sponsored Content allow relevant content to appear alongside organic content in members' LinkedIn feeds, delivering highly visible messages to specific audiences. This product complemented iYogi's content marketing strategy by providing a flexible and convenient channel to deliver targeted messaging to the right decision makers around the world. With intelligent and intuitive segmentation, Sponsored Content delivered iYogi's content to members' news feed along with organic content.

As part of the Sponsored Content campaign, iYogi was able to:

- Reach a very specific target audience accurately
- Get authentic and verifiable leads with the decision makers of their target group
- Generate engagement with telecom companies through content when they previously didn't respond through mass marketing campaigns such as emailers and content syndication

Results:

LinkedIn Sponsored Content successfully managed to engage with iYogi's target demographic, leading to a steady rise in relevant followers on the iYogi company page. It also gave them the opportunity to build top-of-mind recall among the target audience.

The click through rate achieved was 2x the benchmark for the same audience targeted. The campaign was successful in achieving 62% of the current iYogi follower base within three months from the start of the campaign. The campaign also achieved 7-8% content shareability out of the total engagements.

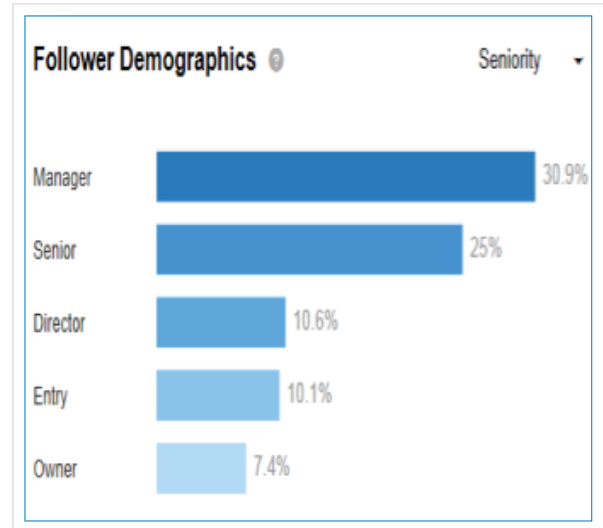

LinkedIn Sponsored Content successfully drove engagements with Business Development Managers and influencer-level audiences in select industries globally. iYogi received up to 0.7% engagement rate with this influential audience and more importantly built relationships with these audiences in a meaningful way.

While this campaign debuted online exclusively on LinkedIn, its success has allowed iYogi to conduct follow-up campaigns offline through tradeshows and events, based on the leads generated through this campaign.
