A straightforward approach to business lending is what all Small Business Owners dream of. SnapCap’s strategy delivers exactly what their customers need and more.
THE CHALLENGE

Small businesses are the engine of growth in the United States and it is crucial that they have access to capital.

Financial support can be key to enabling small business owners (SBOs) to thrive, but how do providers engage effectively when:

- Businesses are at various stages of the growth cycle?
- A wealth of competing content exists in the marketplace?
- Messages have to be simple and straightforward?
- There are issues with brand perception and awareness?
- There is a lack of confidence in the sector?
- Content has to resonate and stand out from the crowd?

In 2015, SnapCap partnered with LinkedIn Marketing Solutions: Financial Services to raise awareness and educate SBOs on its uncomplicated approach to business lending.
SnapCap is an online lending platform that specializes in offering loans to small business owners who are under-served by banks or who may not have access to capital. It is built on the simple idea that lending doesn’t have to be complicated.

Founded in 2012 in response to the financial crisis, SnapCap has funded over $235m in loans since 2013. It is rapidly transforming traditional lending by providing businesses with access to working capital quickly and without the paperwork.

The partnership with LinkedIn Marketing Solutions: Financial Services set out to help SnapCap achieve its marketing objective of promoting its loan products and services to a wide audience of business owners and decision makers.

THE CUSTOMER JOURNEY:
BUSINESS TO BUSINESS

THE TARGET AUDIENCE

“Entrepreneurship has always been a driving force behind the United States economy.”

NuWire Investor, February 2016

Small businesses are core to economic competitiveness in the United States. The number of small businesses has increased by 49% since 1982 with over 28 million small businesses accounting for 54% of all United States sales.

Providing 55% of all jobs, the cumulative impact of the small business sector is enormous.

But small businesses were hit harder than larger businesses during the 2008 financial crisis and have been slower to recover.

Since 2015, SnapCap has collaborated with LinkedIn to gain valuable access to small business owners spanning a wide range of industries.

LinkedIn’s rich suite of marketing products has enabled SnapCap to engage and educate potential customers on its approach to alternative business lending, build long-term relationships and position itself as a preferred service provider within the SBO community.
To amplify engagement with its target audience, SnapCap utilized LinkedIn’s Text Ads and Sponsored Content to enhance its product visibility and awareness. Through LinkedIn, SnapCap will continue to refine and enhance this content to build engagement beyond single transactions and establish long-lasting SBO relationships.

“LinkedIn’s ever-evolving strategic platform was the perfect vehicle for us to target business orientated contacts.”

Sean McGinty, Vice President of Marketing & Online Strategy, SnapCap
SnapCap was able to identify and reach small business owners across a number of key industries, through targeted content that raised awareness of its unique approach to business lending.

The ongoing partnership will leverage LinkedIn’s targeting capabilities to ensure SnapCap stays at the forefront of the evolving funding needs of small businesses.

“The targeting capabilities that exist on LinkedIn enabled us to engage specific industries with tailored content.”

Sean McGinty, Vice President of Marketing & Online Strategy, SnapCap
