

With Mixed Analytics, sharper LinkedIn insights are just a few clicks away

Say goodbye to tiring data operations. With Mixed Analytics, enjoy smoother data extraction, faster analysis, and sharper reporting for your LinkedIn Marketing Campaigns!

Consolidating data can be exhausting.

Multiple CSV exports and scripts to extract data from platforms like LinkedIn can be tiring.

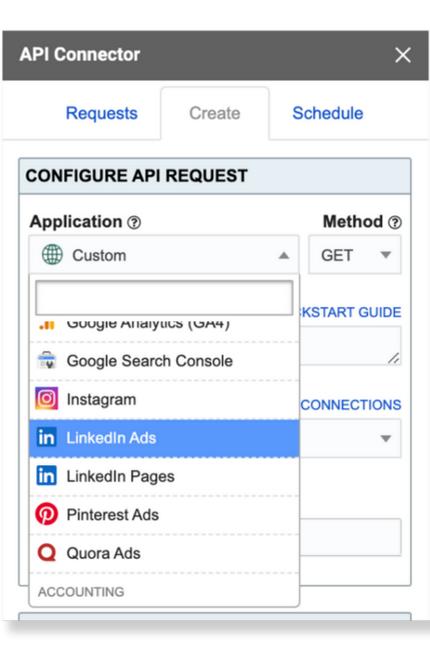

Effortlessly extract your data with Mixed Analytics.

Our APIs save you time, energy, and effort by streaming your LinkedIn campaign data into Google Sheets with just a few clicks.

Why Mixed Analytics?

- Deploy it in minutes**
Ready to use API integrations
- Automated**
Schedule requests to run in the background
- Collaborative**
Import requests and share with others
- Secure**
Runs through Google's secure infrastructure
- Flexible**
Custom connections to nearly any API, including LinkedIn.

Free 14 Day Trial
Access all paid features, like LinkedIn's connectors, during the trial.

Here's how Mixed Analytics can help

Optimise marketing spend with customised data analysis

Access full datasets through LinkedIn's Marketing API. Apply customised functions within Google Sheets for complex situations.

Automated reporting

Save time and avoid errors with a one-time scheduled report set-up. See Google Sheets reports, or further integrate them with visual tools like Looker Studio.

Track results across platforms

Visualise your LinkedIn Campaign data alongside other marketing efforts to gain a unified view of performance.

Explore APIs

Get creative. Use a no-code method to create new ways of exploring LinkedIn Marketing APIs for better reporting outputs.

Trusted by these great organizations - and many more

"I use API Connector to create automated monitoring tools for SEO. It opens a universe of possibilities with a very limited and efficient toolchain. API Connector is reliable, glitch-free, and production-ready."

-Evgeniy Orlov, SEO Team Lead

"API Connector is an amazing product that enables a non-coder to leverage the power of APIs and integrate seamlessly with Google Sheets. It opens up a great deal of opportunities without the need to invest in expensive BI or ETL tools."

-Eric Ang, Director

"API Connector allows us to compile data from all of our marketing channels into a single location effortlessly. The documentation is very clear and Ana provides extremely good customer support."

-Brandon Wilkes, Digital Marketing Manager

Stream your data fast, and analyse it even quicker. Use Mixed Analytics for LinkedIn now!
