

Connect JobScore with LinkedIn Recruiter

Link your accounts in a few simple steps.

Easy setup for Admin
or Owner access levels

Connect at no
additional cost

RSC is secure and
GDPR compliant*

Save time now that
you're connected

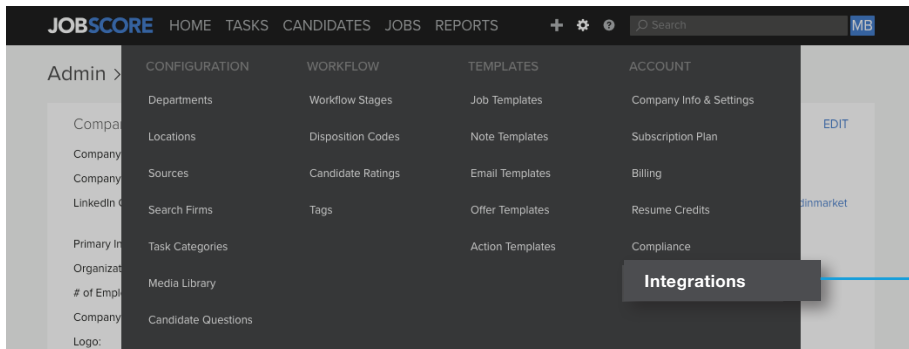

Introducing Recruiter System Connect

LinkedIn Recruiter System Connect (RSC) integrates LinkedIn Recruiter with your JobScore account to make your hiring process even simpler. By turning on RSC, you're authorizing the sharing of some candidate, job, and application data across Recruiter and JobScore. It enables you to get up-to-date candidate information, boost collaboration, and access more applicant data in Recruiter. See how to easily connect your two accounts on the next few pages.

Please note: Recruiter System Connect is only compatible with LinkedIn Recruiter Corporate or LinkedIn Professional Services.

JobScore

Sign in to your JobScore account and click the settings symbol to the left of the search bar in your navigation bar. Then click **“Integrations”** under **“ACCOUNT”**.

JobScore

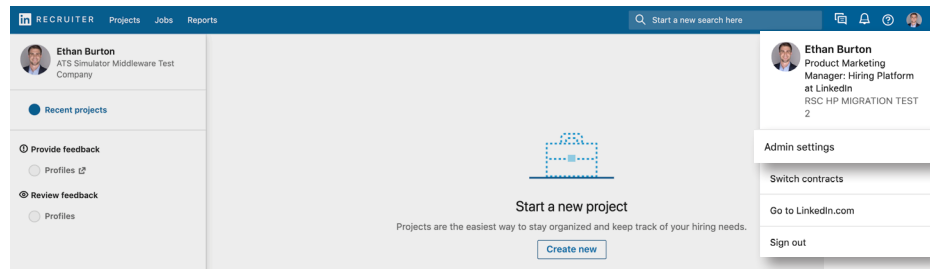

Locate LinkedIn Recruiter and click **“ACTIVATE”**.

JobScore

The widget will show all possible LinkedIn integrations. Click **“Request”** for Recruiter System Connect and proceed to **“Admin Settings”**.

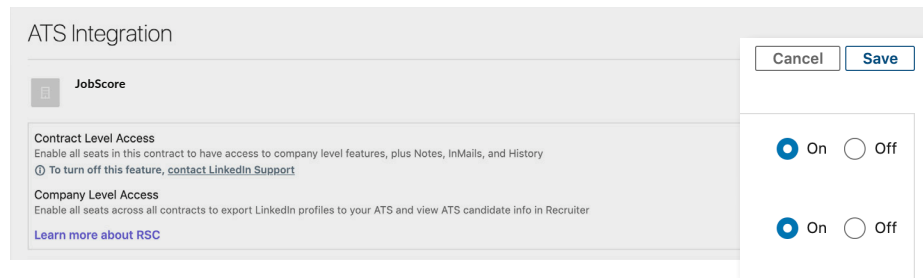

LinkedIn Recruiter

Once you click on Admin Settings, you'll be redirected to LinkedIn Recruiter.

If you're not signed in yet, enter your LinkedIn credentials and select your Recruiter contact. Once signed in, click your profile image on the right, then select **"Admin settings"** from the dropdown menu.

LinkedIn Recruiter

From your Admin Settings page, click **"ATS"** on the left. Locate JobScore and select **"Edit"** to enable **"Contract Level Access"** or **"Company Level Access"** as needed by selecting **"On"**. For details on what each feature level access means, please click **"Learn more about RSC"**. The status under the ATS tab in Recruiter Admin Settings will display Activated when either Contract Level Access, Company Level Access, or both access levels will appear as "On".

Note: If you have multiple Recruiter dashboards, each admin must sign in and enable Contract Level Access from their specific dashboard.

Now you're all set to begin the historical data sync. This typically takes less than 30 minutes, but it can take longer for accounts with a large number of candidate records. You won't be able to use the integration until the sync is complete, but you're free to navigate away from the page. You'll be notified via email when the sync is complete – and you should be all set!

JobScore

The screenshot shows the JobScore web application interface. At the top is a dark navigation bar with the JobScore logo and menu items: HOME, TASKS, CANDIDATES, JOBS, and REPORTS. To the right of the menu are icons for a plus sign, settings, and a notification bell, followed by a search bar and a user profile icon labeled 'MB'. Below the navigation bar is a light gray section titled 'Install LinkedIn Recruiter System Connect Integration'. This section features a blue header with the LinkedIn logo. Below the header is a white box with the title 'Request an Integration' and the sub-header 'Recruiter System Connect (RSC)'. The text inside the box states: 'Recruiter System Connect features enabled. With Recruiter System Connect you can: export LinkedIn profiles to your ATS, view ATS candidate info directly in Recruiter, view InMails and/or Notes history etc. [Learn more](#)'. To the right of this box is a green pill-shaped button with a checkmark icon and the text 'Enabled'.

Recruiter System Connect (RSC)

Recruiter System Connect features enabled. With Recruiter System Connect you can: export LinkedIn profiles to your ATS, view ATS candidate info directly in Recruiter, view InMails and/or Notes history etc. [Learn more](#)

✔️ Enabled

With LinkedIn Recruiter and JobScore working together:

Get the same candidate data in both JobScore and Recruiter, saving you time and keeping you up to date wherever you're working.

View a candidate's LinkedIn profile with JobScore and easily see which candidates are already in your JobScore account.

See all Recruiter notes and InMail messages in JobScore for a complete view of your candidate interactions.

When a candidate responds to an InMail message, a profile is created within JobScore.
