Spend more time on people, not process.

Discover the one integration suite that can save your team time so you can focus on what matters most — hiring the right people.

Save time

Quickly access all the information you need without switching between platforms.

Hire qualified candidates

Attract the most qualified candidates and move them through the hiring funnel faster.

Make informed decisions

Strengthen your hiring strategy with relevant candidate insights and data-driven reports.

Pricing: LinkedIn ATS Integrations are provided by LinkedIn at no additional cost if you hold a full Recruiter seat. Some ATS providers may charge a fee for certain integrations.

Integrations for all of your hiring needs

LinkedIn ATS Integrations help you stay efficient at every stage of the hiring process.

Sourcing package

Work seamlessly across Recruiter and your ATS to find qualified candidates faster.

Recruiter System Connect

Connect your ATS to LinkedIn Recruiter to access information when and where you need it, without having to switch between platforms.

Unified Search

Search and message candidates across both your ATS and the LinkedIn network directly from your ATS.

Recommended Matches

Discover candidate recommendations based on job descriptions you post in your ATS.

Reporting package

Understand your sourcing and hiring activities across your entire funnel.

ATS-Enabled Reporting

Gain insight across your end-to-end hiring funnel to optimize where you spend your time and to understand the value of all your sources, including LinkedIn.

Apply package

Streamline the job posting and application processes so you can focus on the most qualified candidates.

Apply Connect

Attract more applicants with a seamless candidate experience and real-time job postings, then use insights to evaluate applicants in your ATS.

Apply with LinkedIn

Let candidates apply to jobs on your career site using their LinkedIn profile information.

Whatever stage your candidates are at, LinkedIn ATS Integrations can move them through the funnel faster with these packaged solutions.

Sourcing package

Sourcing package

Recruiter System Connect (RSC)

Connect your ATS with LinkedIn Recruiter to access candidate information, boost collaboration, and view more applicant data in both Recruiter and Breezy without having to switch between platforms.

- Get the same candidate data in both Recruiter and Breezy, saving you time and keeping you up to date wherever you're working
- View a candidate's LinkedIn profile with Breezy and easily see which candidates are already in Breezy from Recruiter
- See all Recruiter notes and InMail messages in Breezy for a complete view of your candidate interactions
- Automatically create or update a profile within Breezy when a candidate responds to an InMail message
- Activate RSC to pave a path for easier activation of other powerful LinkedIn ATS Integrations

Save time now that you're connected

Connect at no additional cost

RSC is secure and GDPR compliant

Easy setup for administrators

Step 1 of 3 Activate RSC in Breezy.

- a From your Breezy dashboard, click on the gear icon and go to “**Recruiting Preferences**” > “**Integrations.**”
- b Select “**LinkedIn RSC.**” If prompted, sign into LinkedIn.

The screenshot displays the Breezy dashboard interface. On the left is a dark sidebar with navigation options like Home, Inbox, Tasks, and Reports. The main area is titled 'My Dashboard' for user Keysha Hribar. A 'My Positions' section lists 'Beatboxer' in Jacksonville, FL. A settings menu is open, showing 'Recruiting Preferences' > 'Integrations' highlighted. An orange line labeled 'a' connects this menu item to the 'Integrations' section of the dashboard. This section includes 'Settings' buttons for various tools. Below, the 'Automation' section features a 'Zapier' card. The 'Job Boards' section shows 'SEEK', 'CV Library', 'Indeed', and 'LinkedIn RSC'. The 'LinkedIn RSC' card is highlighted with an orange line labeled 'b', indicating the next step in the activation process.

Step 2 of 3 Set up integration in Breezy.*

a Admins can request to activate integrations all at once — across all packages — inside the onboarding widget.**

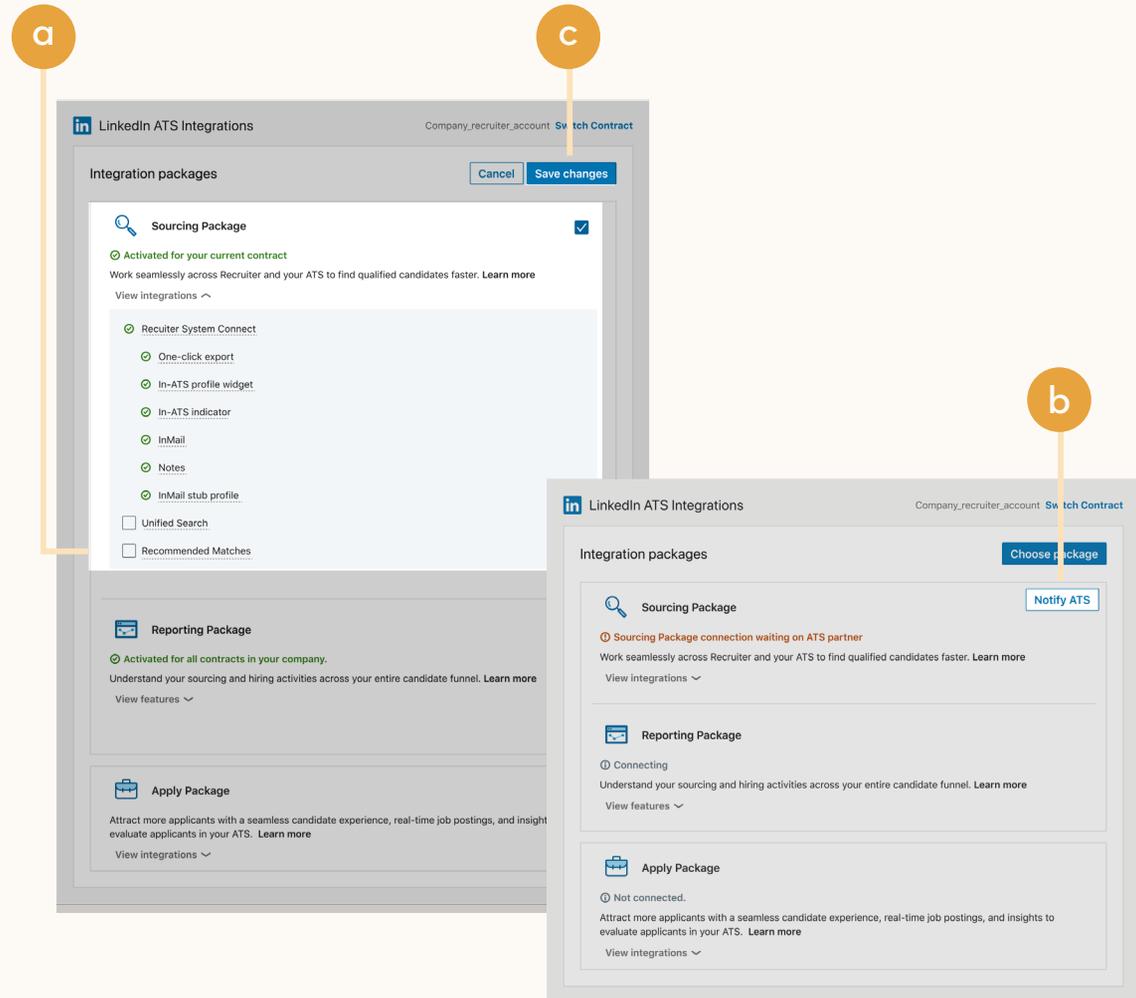

Please note: Default access level is contract level for sourcing packages versus company level for reporting and applicant management packages.

b (Optional) Connection not moving fast enough? Nudge partners with a notification.

c Click **“Save changes”** to confirm integration activation. Your integrations will be turned on at this point.

*Check with your ATS to ensure all features are enabled for you.

**If an integration package or feature is grayed out, it's either because your ATS is not offering it at this time or you don't have the permission to adjust this package. Check with your ATS to ensure all features are enabled for you or to request an integration.

Step 3 of 3

Confirm RSC activation in Breezy.

- a To confirm your activation, go to LinkedIn Recruiter and select **“Product settings”** > **“ATS integration.”**
- b Find Breezy and click **“Edit”** to confirm your integrations are switched on.

The screenshot displays the LinkedIn Recruiter account settings page for Keysha Rolon. The page is divided into several sections:

- User Profile:** Keysha Rolon, Product Manager @ Breezy HR, BreezyHR middleware test contract-2 (ID: 355605513).
- Company Settings:** Usage overview, Job posting, Preferences.
- Recruiting Settings:** Tags, Custom fields, Message templates, Custom pipeline.
- Advanced:** **ATS integration** (highlighted with a vertical bar).
- My Account Settings:** Email & calendar.
- Product settings:** Manage users in Account Center, Change contract, Go to LinkedIn.com, Sign out.
- ATS Integration:** A table listing two Breezy HR Dev integrations, both with Application IDs and Edit/Activated buttons.

Orange callout boxes and lines indicate the navigation path: 'a' points to the 'ATS integration' link in the 'Advanced' section, and 'b' points to the 'Edit' button in the 'ATS Integration' table.

ATS Integration		
	Breezy HR Dev Application ID: 201620528	Edit Activated
	Breezy HR Dev Application ID: 202458907	Edit Activated

Sourcing package

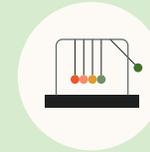

Unified Search

Save time by searching and sourcing from Breezy and LinkedIn simultaneously. Access Breezy candidate records not found on LinkedIn and explore LinkedIn outside your ATS, covering all your bases. Save candidates to a job and send InMail messages without leaving Breezy.

Note: You must activate [Recruiter System Connect \(RSC\)](#) to integrate Unified Search.

✘ This integration currently isn't available with Breezy.

Want this integration? Reach out to your Breezy rep. Or, you can [let us know](#) you're interested in this integration.

Save time with less searching

Find candidates across networks

Engage directly from Breezy

Sourcing package

Recommended Matches

Let LinkedIn do the work for you. Discover candidate recommendations based on job descriptions you post in your ATS. Save your favorite candidates, send them InMail messages, and easily archive candidates from your ATS. Matches continually improve with each use.

Note: You must activate [Recruiter System Connect \(RSC\)](#) to integrate Recommended Matches.

✘ This integration currently isn't available with Breezy.

Want this integration? Reach out to your Breezy rep. Or, you can [let us know](#) you're interested in this integration.

Get automatic recommendations

Discover qualified candidates faster

Engage directly from Breezy

Reporting package

ATS-Enabled Reporting

Gain insight across your end-to-end hiring funnel to optimize where you spend your time and understand the value of all your sources, including LinkedIn. This integration is available for any customer who has activated RSC.

Gain more actionable insights

Discover valuable sources

Make more informed decisions

Step 1 of 3 Set up ATS-Enabled Reporting in Breezy.

- a From your Breezy dashboard, click on the gear icon and go to **“Recruiting Preferences” > “Integrations.”**
- b Select **“LinkedIn RSC.”** If prompted, sign into LinkedIn.

The screenshot shows the Breezy dashboard interface. On the left is a dark sidebar with navigation options like Home, Inbox, Tasks, and Reports. The main area is titled 'My Dashboard' for user 'Keysha Hribar'. A 'My Positions' section lists 'Beatboxer' with a 'Promote' button. A settings menu is open, showing 'Recruiting Preferences' > 'Integrations' highlighted. Below this, a list of integration categories is shown, with 'Integrations' selected. On the right, the 'Integrations' page is displayed, featuring sections for 'Integrations', 'Automation' (with Zapier), and 'Job Boards'. In the 'Job Boards' section, 'LinkedIn RSC' is listed with an 'Enable' button, which is highlighted by an orange line and labeled 'b'. An orange circle with 'a' is positioned near the 'Integrations' menu item in the settings panel.

Step 2 of 3 Set up ATS-Enabled Reporting in Breezy.

- a Go to the Onboarding widget. Then check **“Reporting Package”** to activate ATS-Enabled Reporting.
- b Click **“Save changes”** to confirm integration activation. Your integration will be turned on at this point.

The screenshot displays the 'LinkedIn ATS Integrations' interface. At the top right, it shows 'Company_recruiter_account' and a 'Switch Contract' button. The main content area is titled 'Integration packages' and contains three sections:

- Sourcing Package:** Includes a magnifying glass icon, a checkmark in a blue box, and the text 'Activated for your current contract'. Below this, it says 'Work seamlessly across Recruiter and your ATS to find qualified candidates faster. Learn more' and 'View integrations ~'.
- Reporting Package:** Includes a document icon, a checkmark in a blue box, and the text 'Activated for all contracts in your company.'. Below this, it says 'Understand your sourcing and hiring activities across your entire candidate funnel. Learn more' and 'View features ~'.
- Apply Package:** Includes a briefcase icon, an unchecked checkbox, and the text 'Attract more applicants with a seamless candidate experience, real-time job postings, and insights to evaluate applicants in your ATS. Learn more' and 'View integrations ~'.

At the top right of the integration packages section, there are 'Cancel' and 'Save changes' buttons. An orange circle with the letter 'b' is positioned above the 'Save changes' button, and another orange circle with the letter 'a' is positioned to the right of the 'Reporting Package' section, with lines pointing to the respective elements in the interface.

Step 3 of 3 Set up ATS-Enabled Reporting activation in Breezy.

- a To confirm your activation, go to LinkedIn Recruiter and select **“Product settings” > “ATS integration.”**
- b Find Breezy and click **“Edit”** to confirm your integrations are switched on.

The screenshot displays the LinkedIn Recruiter settings interface for user Keysha Rolon. The left sidebar contains a menu with the following items: Product settings, Manage users in Account Center, Change contract, Go to LinkedIn.com, and Sign out. The main content area is divided into several sections: Company Settings (Usage overview, Job posting, Preferences), Recruiting Settings (Tags, Custom fields, Message templates, Custom pipeline), Advanced (ATS integration), and My Account Settings (Email & calendar). An orange line with a circle labeled 'a' originates from the 'ATS integration' link in the Advanced section and points to the 'Product settings' menu item in the sidebar. To the right, the 'ATS Integration' section shows two active integrations for 'Breezy HR Dev' with application IDs 201620528 and 202458907, each with an 'Edit' and 'Activated' status. An orange line with a circle labeled 'b' points to the 'Edit' button for the second integration.

Apply package

Apply Connect

Optimize your candidate experience and encourage more job seekers to easily apply. Post your roles in real-time to LinkedIn from Breezy and leverage dynamic LinkedIn profile and application data in Breezy including relevant skills based on the job. Enable applicant notifications to send application status updates automatically to candidates across key stages in the application cycle.

✘ This integration currently isn't available with Breezy.

Want this integration? Reach out to your Breezy rep.

Or, you can [let us know](#) you're interested in this integration.

Get dynamic LinkedIn Profile information

Find qualified applicants faster

Reduce candidate drop-off

Optional step

Adjust your access settings in Recruiter.

- a Open your LinkedIn Recruiter Admin account in a new tab.
- b Scroll down to your Breezy section.
- c Connect “**Contract Level Access**,” “**Company Level Access**,” or both by clicking “**On**” for the desired access.
- d Activate 1-click export to quickly transfer simple candidate information to your ATS.
- e Activate the InMail Stub Profile API to create or update profiles in your ATS when a candidate consents to share their contact information with your company via InMail.

The screenshot shows the LinkedIn Recruiter Admin interface. The top navigation bar includes 'Recruiter', 'Projects', 'Jobs', and 'Reports'. A search bar is present with the text 'Start a new search here'. The user profile for 'Ethan Burton, Senior Technical Recruiter at Freshing' is visible in the top right corner.

The main content area is titled 'ATS Integration' and shows settings for the 'Breezy' application (Application ID: 01234567). The settings are organized into sections:

- Company Settings:** Usage overview, Job posting, Preferences.
- Recruiting Settings:** Tags, Custom fields, Message templates, Custom pipeline.
- Advanced:** ATS integration (selected).

The 'ATS Integration' section includes:

- Contract Level Access:** Enable all seats in this contract to have access to company level features, plus Notes, InMails, and History. (Callout 'c' points to the 'On' radio button).
- Company Level Access:** Enable all seats across all contracts to export LinkedIn profiles to your ATS and view ATS candidate info in Recruiter. (Callout 'c' points to the 'On' radio button).
- RSC advanced settings:**
 - 1 click export:** Enable the member export feature across all contracts of your company, within Recruiter. (Callout 'd' points to the 'On' radio button).
 - Inmail stub profile API:** Enable all seats at your company/contract to export LinkedIn member profile information to the ATS, and create new candidate records when members consent to share profile and contract information. (Callout 'e' points to the 'On' radio button).

Callout 'a' points to the top navigation bar, and callout 'b' points to the Breezy application header.
