The image shows a two-part screenshot illustrating the steps to set up LinkedIn integration in ClearCompany. The top part is a screenshot of the 'Grazioso Hooper's Dashboard' with the 'Tools' menu open. The 'Setup' option is highlighted, and the 'LinkedIn Integration' option is visible at the bottom of the 'Setup' column. A callout 'a' points to the 'Setup' option, and a callout 'b' points to 'LinkedIn Integration'. The bottom part of the image shows a separate window titled 'LINKEDIN INTEGRATION' with a message: 'LinkedIn Integrations are available for your account based on your LinkedIn licenses and agreements. To turn these on or see their status, you must be signed in.' Below this message are buttons for 'Statuses' and 'Sync Logs'. A callout 'c' points to a blue button that says 'I'M LOGGED IN, LOAD LINKEDIN SETTINGS'.

Step 2 of 3 Set up Recruiter System Connect in ClearCompany.*

- a** Admins can request to activate integrations all at once — across all packages — inside the onboarding widget.**

Please note: Default access level is contract level for sourcing packages versus company level for reporting and applicant management packages.

- b** (Optional) Connection not moving fast enough? Nudge partners with a notification.

- c** Hit **“Save Changes”** to confirm integration activation. Your integrations will be turned on at this point.

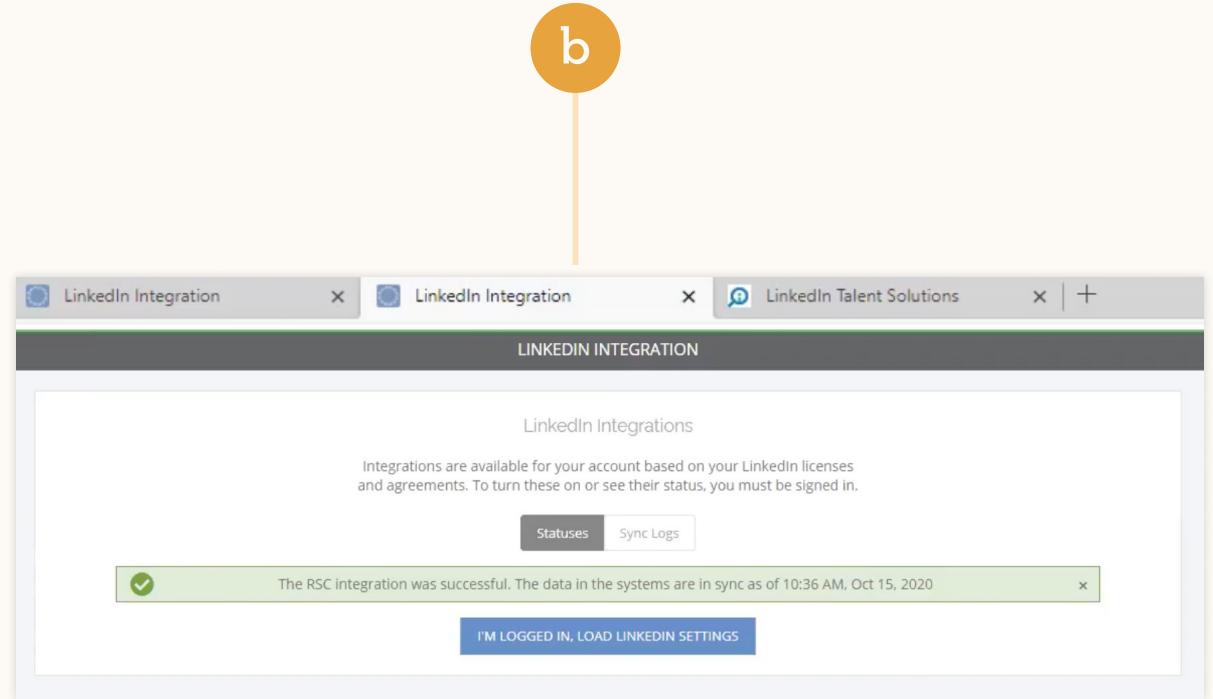

*Check with your ATS to ensure all features are enabled for you.

**If an integration package or feature is grayed out, it's either because your ATS is not offering it at this time or you don't have the permission to adjust this package. Check with your ATS to ensure all features are enabled for you or to request an integration.

The image displays two screenshots of the LinkedIn ATS Integrations interface. The top screenshot shows the 'Sourcing Package' section, which is activated for the current contract. It lists several features: Recruiter System Connect, One-click export, In-ATS profile widget, In-ATS indicator, InMail, Notes, and InMail stub profile, all of which are checked. Below these are 'Unified Search' and 'Recommended Matches', which are unchecked. A 'Save changes' button is highlighted with a callout 'c'. The bottom screenshot shows the 'Sourcing Package' section with a status of 'Sourcing Package connection waiting on ATS partner' and a 'Notify ATS' button highlighted with a callout 'b'. A 'Choose Package' button is also visible in the top right of the bottom screenshot. A callout 'a' points to the 'Recruiter System Connect' feature in the top screenshot.

Step 3 of 3 Finish the integration process.

- a Wait for all ATS and LinkedIn data to sync. This could take a few minutes to a few hours.
- b Navigate to your LinkedIn Integrations page for integration status updates.
- c When a green banner appears on this page, the initial sync is complete and you can go to the Sync Logs tab to view any incremental sync updates.
