Introducing Recruiter System Connect

LinkedIn Recruiter System Connect (RSC) integrates LinkedIn Recruiter with your Lever account to make your hiring process even simpler. By turning on RSC, you're authorizing the sharing of some candidate, job, and application data across Recruiter and your ATS. It enables you to get up-to-date candidate information, boost collaboration, and access more applicant data in Recruiter. See how to easily connect your two accounts on the next few pages.

Please note: *Recruiter System Connect is only compatible with LinkedIn Recruiter Corporate or LinkedIn Professional Services.*

To learn more about privacy, security and GDPR compliance download
Security and Privacy Overview: LinkedIn Talent Integrations.

Lever

Navigate to Settings > Integrations. Under **"Partner Integrations"**, enable Recruiter System Connect.

The toggle button will turn orange, and the row will expand.

Lever

Click **"BEGIN SETUP"** to get started.

2

If you're not already logged into your LinkedIn account in your browser, enter your LinkedIn credentials and select your Recruiter contract.

Lever

Request an Integration

Recruiter System Connect (RSC)

Request to activate company and contract level access to Recruiter System Connect (e.g., export LinkedIn profiles to your ATS, view ATS candidates info directly in Recruiter, view InMails and/or Notes history). **Learn more**

Request

⊘ **Partner ready**

Apply Starters Explorer

Enable to display a list of job seekers who started to apply to your jobs by clicking on Apply with LinkedIn, but didnt't finish your application. **Learn more**

NEXT

Then request access by clicking the **"Request"** button. Once access has been confirmed, they'll show as **"Partner Ready"**.

Click **"NEXT"**.

Lever

LinkedIn - Recruiter System Connect (RSC)

1 REQUEST ACCESS > 2 ENABLE INTEGRATION > 3 LINK SEATS > 4 SYNC DATA

Enable the integration from your LinkedIn Recruiter Administrator Settings page and confirm the status below when you are ready.

ENABLE IN LINKEDIN ↗   CHECK INTEGRATION STATUS

Request an Integration
Recruiter System Connect (RSC)
Request to activate company and contract level access to Recruiter System Connect (e.g., export LinkedIn profiles to your ATS, view ATS candidates info directly in Recruiter, view InMails and/or Notes history). **Learn more**

DISABLED

NEXT

Next, you'll enable the integration. First, click **"ENABLE IN LINKEDIN"**. This will open a new tab and direct you to the settings section of LinkedIn Recruiter.

Lever   RSC activated ⌃

Recruiter System Connect (RSC) Learn More
Company Level access (for every seat in your company)
Enable access to company-level RSC features (e.g., export LinkedIn profiles to your ATS, view ATS candidate info directly in Recruiter).

Contract Level access (for every seat on this contract)
Enable access to contract-level RSC features (e.g., view InMails and Notes history). Automatically enables collection of InMail response stub for this contract for all listed Application Tracking Systems. To disable automatic collection please contact LinkedIn Support.

From there, select the appropriate contract, select the **"ATS"** tab, and enable both the company- and contract-level access toggles.

Lever

1 REQUEST ACCESS > 2 ENABLE INTEGRATION > 3 LINK SEATS > 4 SYNC DATA

Enable the integration from your LinkedIn Recruiter Administrator Settings page and confirm the status below when you are ready.

ENABLE IN LINKEDIN ↗   ✔ ACCESS ENABLED

Request an Integration
Recruiter System Connect (RSC)
Request to activate company and contract level access to Recruiter System Connect (e.g., export LinkedIn profiles to your ATS, view ATS candidates info directly in Recruiter, view InMails and/or Notes history). **Learn more**

⊘ ENABLED

NEXT

Once you've enabled both, you can close your tab and navigate back to Lever. Now, click **"Check Integration Status"**. The statuses will change to enabled.
Click **"NEXT"**.

in + LEVER

Lever

Match the LinkedIn user on the left to their Lever seats using the dropdowns.

You can always come back and add new mappings, or change existing mappings. Once done, click **"Done linking seats"**.

Now you're all set to begin the historical data sync. This typically takes less than 30 minutes, but it can take up to two hours for accounts with a large number of candidate records. You won't be able to use the integration until the sync is complete, but you're free to navigate away from the page. You'll be notified when the sync is complete.

Lever

LinkedIn - Recruiter System Connect (RSC)

1 REQUEST ACCESS   >   2 ENABLE INTEGRATION   >   3 LINK SEATS   >   4 SYNC DATA

Sync your historical data between Lever and LinkedIn in order to start using RSC.

BEGIN SYNC

Status will be shown here as your data syncs. This may take up to 2 hours.

Once you're ready to start, click **"BEGIN SYNC"**

If there are errors in the sync, you will be able to click **"Retry"** - if the problem persists after a few attempts, please **submit a support request to Lever** and they'll investigate further.

With LinkedIn Recruiter and Lever working:

Get the same candidate data in both Lever and Recruiter, saving you time and keeping you up to date wherever you're working.

View a candidate's LinkedIn profile with Lever and easily see which candidates are already in your Lever account.

See all Recruiter notes and InMail messages in Lever for a complete view of your candidate interactions.

When a candidate responds to an InMail, a profile is created within Lever.
