

The LinkedIn ecosystem

Help at every step of your recruiting journey.

Members used to only come to LinkedIn to build their professional profile and keep up with colleagues. Today, they look to LinkedIn for more, like industry content, jobs, and professional growth.

This increased engagement is yielding data and insights that can help you with every stage of the recruiting process – from workforce planning and attracting quality talent to posting jobs and sourcing the right candidates.

LinkedIn Talent Solutions

PLAN

Answer workforce planning questions such as “who should I look for?” and “where can I find them?” with analytics.
