

Company Pages: Admin > Notifications Tab

The **Notifications** tab is used to notify Admins about activity or interactions with their company pages.

Left rail filters: Allow you to view specific stories or notification types that you're interested in (or look at all of them).

The screenshot shows the LinkedIn Company Pages Admin interface. At the top, there's a navigation bar with 'Updates', 'Company Page', 'Career Pages', 'Analytics', and 'Notifications'. The 'Notifications' tab is active, showing a list of notifications. On the left, there's a 'Left rail filters' section with options like 'All', 'Likes', 'Comments', 'Shares', 'Mentions', and 'Follows'. On the right, there's a 'Most engaging updates' sidebar. The main content area displays several notifications, including one from Jill Terra and 47 others, one from John Jenkins, one from Lauren Digby, and one from Asbel Henderson. A 'Reply' button is visible on the notification from Asbel Henderson.

Most engaging updates: Highlights the most important notifications in the last 7 days.

Clicking on a notification opens a new page, allowing an Admin to interact with the comments.
