

Company Pages: Admin > Overview Tab

The Admin view of the Overview screen looks very similar to the Member view of the Overview screen. This makes it easier for an Admin to see what they are updating and how their changes will appear to a member.

Use the **Preview** and **Publish** buttons to view your edits.

IMPORTANT: If you leave a page without publishing, you will lose your edits!

Admins will need to add a **cover photo** when they set up their Career Pages.

In-line editing allows for easy, one-click updates. Click the pencil to update an image, or simply click in a text field and type your new text.
