

Introducing Recruiter

Recruiter is LinkedIn's all-encompassing platform for talent professionals. It's the ultimate resource for finding, connecting with, and managing the best talent. It uses intelligence on the platform to surface quality candidates, and member signals so you can prioritize candidates most open to hearing from you.

Unlock the world's largest professional network with insights and tools to hire the right candidate faster

Find the right people, fast

Create a stronger search with smart suggestions that recommends skills, locations, titles, and more for your role.

Engage with candidates

Reach out to qualified candidates using personalized InMail messaging, either individually or in batch.

Be an efficient, strategic partner

Save time with saved searches, shared candidate notes, and analytics to track performance of InMail and LinkedIn products.

Integrate with your ATS

Recruiter System Connect links Recruiter and your ATS to see current candidate rounds, get more applicant data, and boost collaboration.

“The data [from LinkedIn] helps us refine our whole recruitment strategy... It's something a traditional job board cannot offer.”
