# Spend more time on people, not process.

Discover the one integration suite that can save your team time so you can focus on what matters most — hiring the right people.

## Save time

Quickly access all the information you need without switching between platforms.

## Hire qualified candidates

Attract the most qualified candidates and move them through the hiring funnel faster.

## Make informed decisions

Strengthen your hiring strategy with relevant candidate insights and data-driven reports.

**Pricing:** LinkedIn ATS Integrations are provided by LinkedIn at no additional cost if you hold a full Recruiter seat. Some ATS providers may charge a fee for certain integrations.

# Integrations for all of your hiring needs

LinkedIn ATS Integrations help you stay efficient at every stage of the hiring process.

## Sourcing package

Work seamlessly across Recruiter and your ATS to find qualified candidates faster.

### Recruiter System Connect

Connect your ATS to LinkedIn Recruiter to access information when and where you need it, without having to switch between platforms.

### Unified Search

Search and message candidates across both your ATS and the LinkedIn network directly from your ATS.

### Recommended Matches

Discover candidate recommendations based on job descriptions you post in your ATS.

## Reporting package

Understand your sourcing and hiring activities across your entire funnel.

### ATS-Enabled Reporting

Gain insight across your end-to-end hiring funnel to optimize where you spend your time and to understand the value of all your sources, including LinkedIn.

## Apply package

Streamline the job posting and application processes so you can focus on the most qualified candidates.

### Apply Connect

Attract more applicants with a seamless candidate experience and real-time job postings, then use insights to evaluate applicants in your ATS.

### Apply with LinkedIn

Let candidates apply to jobs on your career site using their LinkedIn profile information.

Whatever stage your candidates are at, LinkedIn ATS Integrations can move them through the funnel faster with these packaged solutions.

## Sourcing package

### Recruiter System Connect – [Get started](#) ↓

- ✓ Identify which candidates are already in your ATS when searching in Recruiter

- ✓ Use industry benchmarks to compare against industry peers

## Apply package

### Apply Connect – *Coming soon!*

- ✗ Post jobs from your ATS to LinkedIn in real time
- ✗ Allow candidates to apply to jobs from any device without leaving LinkedIn
- ✗ Get applications from LinkedIn delivered directly to your ATS
- ✗ Incorporate screening questions from your ATS into your LinkedIn applications
- ✗ View real-time LinkedIn profiles and applicant insights in your ATS
- ✗ Receive LinkedIn skills data about applicants
- ✗ Send application status updates to candidates with automated notifications

### Apply with LinkedIn

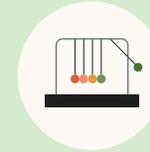

- ✓ Let candidates apply to jobs on your career site using their LinkedIn profile information

Sourcing package

# Recruiter System Connect (RSC)

Connect your ATS with LinkedIn Recruiter to access candidate information, boost collaboration, and view more applicant data in both Recruiter and Lever without having to switch between platforms

- Get the same candidate data in both Recruiter and Lever, saving you time and keeping you up to date wherever you're working
- View a candidate's LinkedIn profile with Lever and easily see which candidates are already in Lever from Recruiter
- See all Recruiter notes and InMail messages in Lever for a complete view of your candidate interactions
- Automatically create or update a profile within Lever when a candidate responds to an InMail message
- Activate RSC to pave a path for easier activation of other powerful LinkedIn ATS Integrations

Save time now that you're connected

Connect at no additional cost

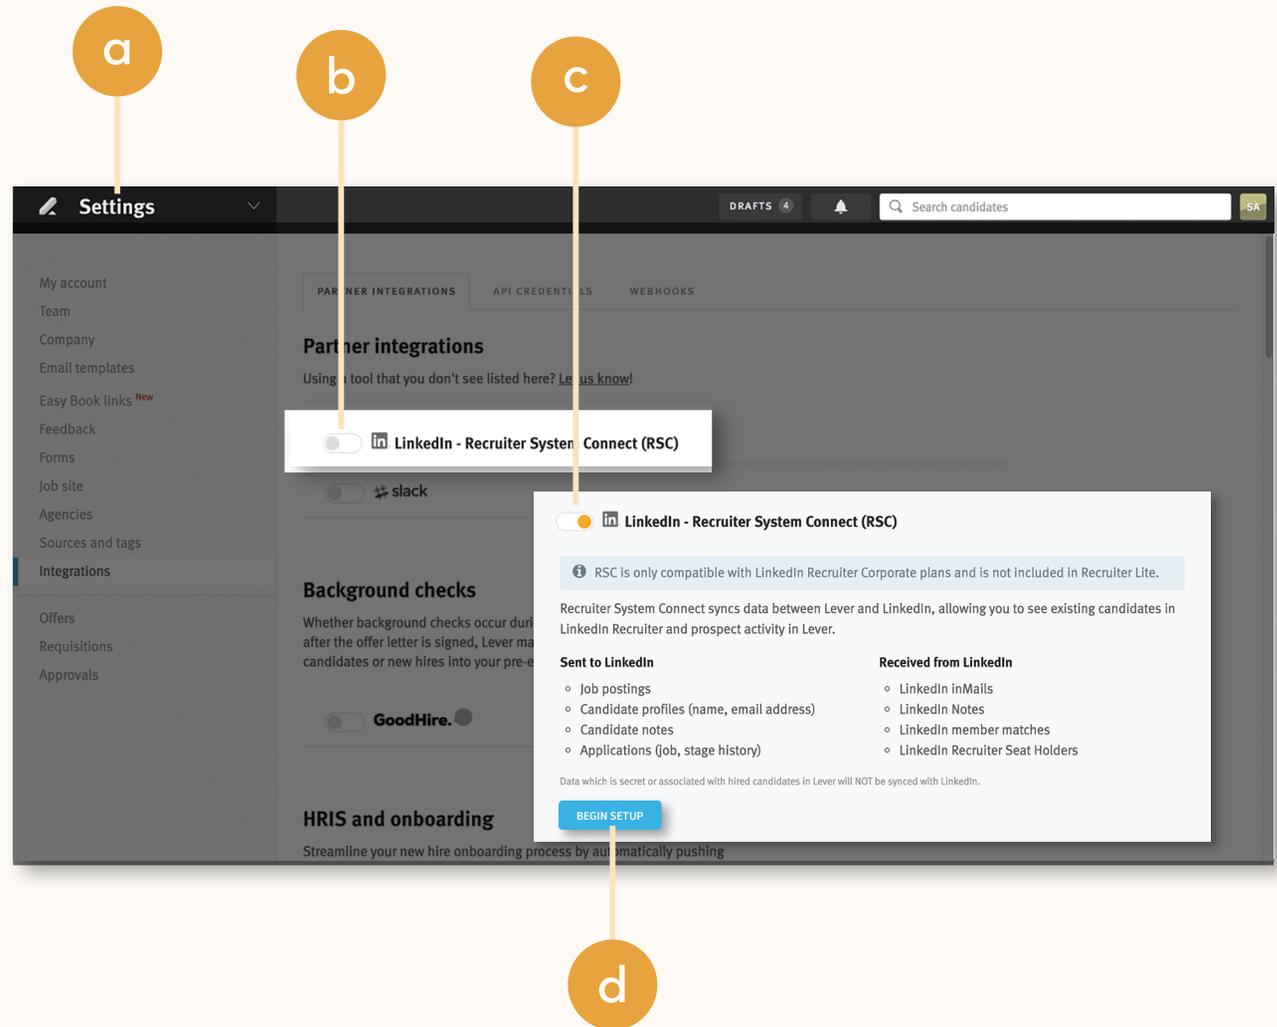

RSC is secure and GDPR compliant

Easy setup for administrators

## Step 1 of 4 Activate RSC in Lever.

- a Navigate to **“Settings”** and select **“Integrations.”**
- b Click the toggle to enable Recruiter System Connect under the **“Partner integrations”** section.
- c The toggle button will turn orange, and the row will expand.
- d Click **“BEGIN SETUP”** to get started.

## Step 2 of 4 Set up integration in Lever.\*

- a Admins can request to activate integrations all at once — across all packages — inside the onboarding widget.\*\*

**Please note:** Default access level is contract level for sourcing packages versus company level for reporting and applicant management packages.

- b (Optional) Connection not moving fast enough? Nudge partners with a notification.

- c Hit **“Save changes”** to confirm integration activation. Your integrations will be turned on at this point.

\*Check with your ATS to ensure all features are enabled for you.

\*\*If an integration package or feature is grayed out, it's either because your ATS is not offering it at this time or you don't have the permission to adjust this package. Check with your ATS to ensure all features are enabled for you or to request an integration.

The image displays two screenshots of the LinkedIn ATS Integrations interface. The top screenshot shows the 'Sourcing Package' section with a 'Save changes' button highlighted by a callout 'c'. The bottom screenshot shows the 'Sourcing Package' section with a 'Notify ATS' button highlighted by a callout 'b'. A callout 'a' points to the 'Recruiter System Connect' feature in the top screenshot.

## Step 3 of 4 Link Lever seats.

- a Open your LinkedIn Recruiter Admin account in a new tab.
- b Click **“CHECK INTEGRATION STATUS”**. The status will change to **“ENABLED”**.
- c Click **“NEXT”**.
- d Match the LinkedIn user on the left to their Lever seats using the dropdowns.
- e Once done, click **“DONE LINKING SEATS”**.

You can always come back and add new mappings, or change existing mappings.

The top screenshot shows the 'ENABLE INTEGRATION' step of the LinkedIn Recruiter System Connect (RSC) setup. It includes a progress bar with steps: 1. REQUEST ACCESS, 2. ENABLE INTEGRATION (active), 3. LINK SEATS, and 4. SYNC DATA. Below the progress bar, there are status indicators for 'ENABLE IN LINKEDIN' and 'ACCESS ENABLED'. A 'Request an Integration' section for 'Recruiter System Connect (RSC)' is visible, along with a 'NEXT' button highlighted by callout 'c'.

The bottom screenshot shows the 'LINK SEATS' step. It features a table with columns for 'LINKEDIN SEAT' and 'LEVER USER'. The table lists several LinkedIn users with corresponding dropdown menus for mapping them to Lever users. Callout 'd' points to these dropdown menus.

LINKEDIN SEAT	LEVER USER
Jean Tocco JeanTocco@demo.com	CHOOSE
Lupita Fillmore LupitaFillmore@demo.com	CHOOSE
Daniel Porter dan.porter@demo.com	CHOOSE
Dawn Burrow d.burrow@demo.com	CHOOSE
Peter Barone	CHOOSE
Brandon Morales brandon.m@demo.com	CHOOSE
Tamera Johnson tam.johnson@demo.com	CHOOSE
Elva Rockett	CHOOSE

## Step 4 of 4 Sync Lever data.

α Once you're ready to start, click "BEGIN SYNC".

This typically takes less than 30 minutes, but it can take longer for accounts with a large number of candidate records.

You won't be able to use the integration until the sync is complete, but you're free to navigate away from the page.

You'll be notified when the sync is complete.

If there are errors in the sync, you will be able to click "RETRY". If the problem persists after a few attempts, please [submit a support request to Lever](#) and they'll investigate further.

**LinkedIn - Recruiter System Connect (RSC)**

1 REQUEST ACCESS > 2 ENABLE INTEGRATION > 3 LINK SEATS > 4 SYNC DATA

Sync your historical data between Lever and LinkedIn in order to start using RSC.

**BEGIN SYNC**

Status will be shown here as your data syncs. This may take up to 2 hours.

Sourcing package

# Unified Search

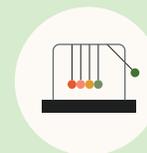

Save time by searching and sourcing from Lever and LinkedIn simultaneously. Access Lever candidate records not found on LinkedIn and explore LinkedIn outside your ATS, covering all your bases. Save candidates to a job and send InMail messages without leaving Lever.

**Note:** You must activate [Recruiter System Connect \(RSC\)](#) to integrate Unified Search.

**✘ This integration currently isn't available with Lever.**

**Want this integration?** Reach out to your Lever rep.

Or, you can [let us know](#) you're interested in this integration.

Save time with less searching

Find candidates across networks

Engage directly from Lever

Sourcing package

# Recommended Matches

Let LinkedIn do the work for you. Discover candidate recommendations based on job descriptions you post in your ATS. Save your favorite candidates, send them InMail messages, and easily archive candidates from your ATS. Matches continually improve with each use.

**Note:** You must activate [Recruiter System Connect \(RSC\)](#) to integrate Recommended Matches.

**✘ This integration currently isn't available with Lever.**

**Want this integration?** Reach out to your Lever rep. Or, you can [let us know](#) you're interested in this integration.

Get automatic recommendations

Discover qualified candidates faster

Engage directly from Lever

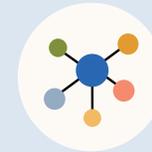

Reporting package

# ATS-Enabled Reporting

Gain insight across your end-to-end hiring funnel to optimize where you spend your time and understand the value of all your sources, including LinkedIn. This integration is available for any customer who has activated RSC.

Gain more actionable insights

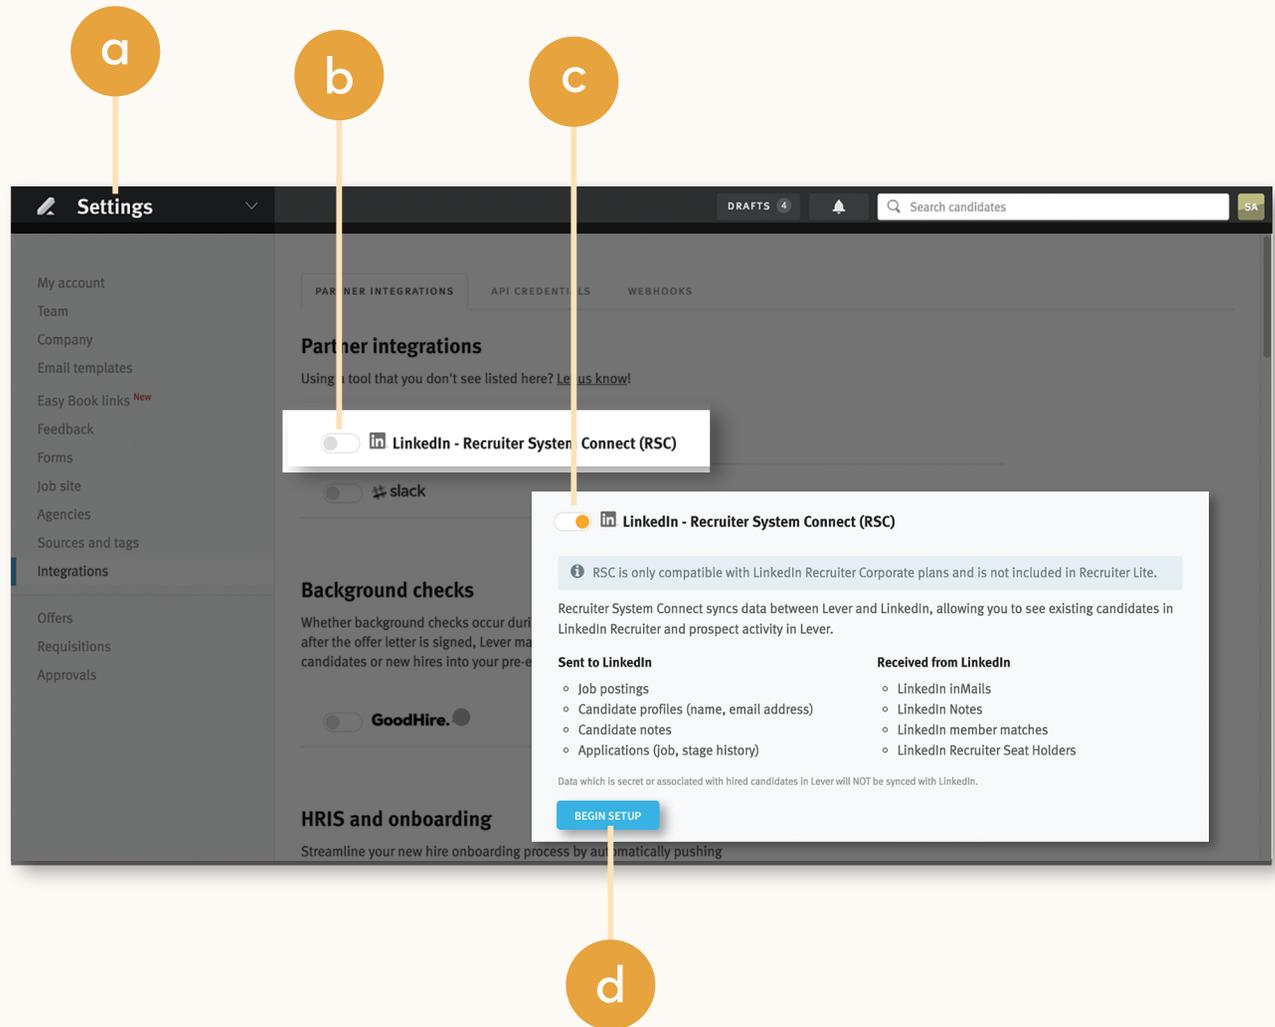

Discover valuable sources

Make more informed decisions

## Step 1 of 2 Set up ATS-Enabled Reporting in Lever.

- a Navigate to **“Settings”** and select **“Integrations”**.
- b Click the toggle to enable Recruiter System Connect under the **“Partner integrations”** section.
- c The toggle button will turn orange, and the row will expand.
- d Click **“BEGIN SETUP”** to get started.

## Step 2 of 2 Set up ATS-Enabled Reporting in Lever.

- a You'll see the onboarding widget. Then check the **"Reporting Package"** to activate ATS-Enabled Reporting.
- b Hit **"Save changes"** to confirm integration activation. Your integration will be turned on at this point.

The screenshot shows the 'LinkedIn ATS Integrations' interface for a 'Company\_recruiter\_account'. At the top right, there is a 'Switch Contract' link. Below this is a 'Save changes' button, which is highlighted with an orange circle labeled 'b'. The main content area is titled 'Integration packages' and contains three sections:

- Sourcing Package:** Includes a magnifying glass icon, a checkmark, and the text 'Activated for your current contract'. Below it, it says 'Work seamlessly across Recruiter and your ATS to find qualified candidates faster. Learn more' and 'View integrations' with a dropdown arrow.
- Reporting Package:** Includes a calendar icon, a checkmark, and the text 'Activated for all contracts in your company.'. Below it, it says 'Understand your sourcing and hiring activities across your entire candidate funnel. Learn more' and 'View features' with a dropdown arrow. This section is highlighted with an orange circle labeled 'a'.
- Apply Package:** Includes a briefcase icon and an unchecked checkbox. Below it, it says 'Attract more applicants with a seamless candidate experience, real-time job postings, and insights to evaluate applicants in your ATS. Learn more' and 'View integrations' with a dropdown arrow.

Apply package

# Apply Connect

Optimize your candidate experience and encourage more job seekers to easily apply. Post your roles in real-time to LinkedIn from Lever and leverage dynamic LinkedIn profile and application data in Lever including relevant skills based on the job. Enable applicant notifications to send application status updates automatically to candidates across key stages in the application cycle.

*Coming soon!*

Get dynamic LinkedIn Profile information

Find qualified applicants faster

Reduce candidate drop-off

## Optional step Adjust your access settings in Recruiter.

- a Open your LinkedIn Recruiter Admin account in a new tab.
- b Scroll down to your Lever section.
- c Connect “**Contract Level Access**”, “**Company Level Access**”, or both by clicking “**On**” for the desired access.
- d Activate 1 click export to quickly transfer simple candidate information to your ATS
- e Activate the InMail stub profile API to create or update profiles in your ATS when a candidate consents to share their contact information with your company via InMail

The screenshot displays the LinkedIn Recruiter Admin interface for the 'ATS Integration' section of a Lever application. The interface is divided into a left sidebar and a main content area. The sidebar contains navigation options: 'Company Settings' (Usage overview, Job posting, Preferences), 'Recruiting Settings' (Tags, Custom fields, Message templates, Custom pipeline), and 'Advanced' (ATS integration). The main content area shows the 'ATS Integration' settings for the 'Lever' application (Application ID: 01234567). Under the 'RSC advanced settings' section, there are four toggle switches: 'Contract Level Access' (On), 'Company Level Access' (On), '1 click export' (On), and 'Inmail stub profile API' (On). Callout boxes 'a' and 'b' point to the top navigation bar and the Lever application header respectively. Callout boxes 'c', 'd', and 'e' point to the 'Contract Level Access', 'Company Level Access', and '1 click export' toggle switches respectively.
