Spend more time on people, not process.

Discover the one integration suite that can save your team time so you can focus on what matters most — hiring the right people.

Save time

Quickly access all the information you need without switching between platforms.

Hire qualified candidates

Attract the most qualified candidates and move them through the hiring funnel faster.

Make informed decisions

Strengthen your hiring strategy with relevant candidate insights and data-driven reports.

Pricing: LinkedIn ATS Integrations are provided by LinkedIn at no additional cost if you hold a full Recruiter seat. Some ATS providers may charge a fee for certain integrations.

Integrations for all of your hiring needs

LinkedIn ATS Integrations help you stay efficient at every stage of the hiring process.

Sourcing package

Work seamlessly across Recruiter and your ATS to find qualified candidates faster.

Recruiter System Connect

Connect your ATS to LinkedIn Recruiter to access information when and where you need it, without having to switch between platforms.

Unified Search

Search and message candidates across both your ATS and the LinkedIn network directly from your ATS.

Recommended Matches

Discover candidate recommendations based on job descriptions you post in your ATS.

Reporting package

Understand your sourcing and hiring activities across your entire funnel.

ATS-Enabled Reporting

Gain insight across your end-to-end hiring funnel to optimize where you spend your time and to understand the value of all your sources, including LinkedIn.

Apply package

Streamline the job posting and application processes so you can focus on the most qualified candidates.

Apply Connect

Attract more applicants with a seamless candidate experience and real-time job postings, then use insights to evaluate applicants in your ATS.

Apply with LinkedIn

Let candidates apply to jobs on your career site using their LinkedIn profile information.

Whatever stage your candidates are at, LinkedIn ATS Integrations can move them through the funnel faster with these packaged solutions.

Sourcing package

Apply with LinkedIn

- ✓ Let candidates apply to jobs on your career site using their LinkedIn profile information

Sourcing package

Recruiter System Connect (RSC)

Connect your ATS with LinkedIn Recruiter to access candidate information, boost collaboration, and view more applicant data in both Recruiter and Dynamics ATS without having to switch between platforms.

- Get the same candidate data in both Recruiter and Dynamics ATS, saving you time and keeping you up to date wherever you're working
- View a candidate's LinkedIn profile with Dynamics ATS and easily see which candidates are already in Dynamics ATS from Recruiter
- See all Recruiter notes and InMail messages in Dynamics ATS for a complete view of your candidate interactions
- Automatically create or update a profile within Dynamics ATS when a candidate responds to an InMail message
- Activate RSC to pave a path for easier activation of other powerful LinkedIn ATS Integrations

Save time now that you're connected

Connect at no additional cost

RSC is secure and GDPR compliant

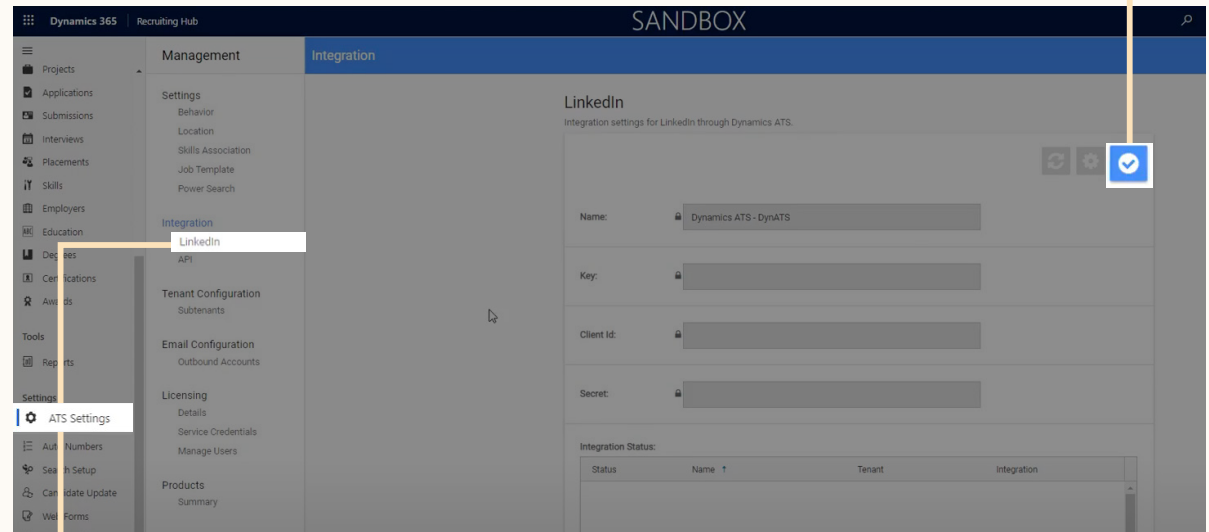

Easy setup for administrators

Step 1 of 3 Activate LinkedIn integration in Dynamic ATS.

- a Make sure you are signed in to LinkedIn Recruiter. Then, in Dynamics ATS, go to **“ATS Settings” > “Integrations” > “LinkedIn.”**
- b Click **“Activate”**.

LinkedIn ATS Integrations → Sourcing → **Recruiter System Connect**

a

b

Step 2 of 3 Set up Recruiter System Connect in Dynamics ATS.*

- a** Admins can request to activate integrations all at once — across all packages — inside the onboarding widget.**

Please note: Default access level is contract level for sourcing packages versus company level for reporting and applicant management packages.

- b** (Optional) Connection not moving fast enough? Nudge partners with a notification.

- c** Hit **“Save changes”** to confirm integration activation. Your integrations will be turned on at this point.

*Check with your ATS to ensure all features are enabled for you.

**If an integration package or feature is grayed out, it's either because your ATS is not offering it at this time or you don't have the permission to adjust this package. Check with your ATS to ensure all features are enabled for you or to request an integration.

The image displays two screenshots of the LinkedIn ATS Integrations interface, illustrating the steps to activate the Recruiter System Connect integration.

Screenshot (a): Shows the 'Sourcing Package' section. The 'Recruiter System Connect' integration is checked, indicating it is activated for the current contract. Other integrations listed include One-click export, In-ATS profile widget, In-ATS indicator, InMail, Notes, InMail stub profile, Unified Search, and Recommended Matches. The 'Reporting Package' and 'Apply Package' sections are also visible below.

Screenshot (b): Shows the 'Sourcing Package' section with a 'Notify ATS' button highlighted. The 'Sourcing Package' connection is waiting on the ATS partner. The 'Reporting Package' and 'Apply Package' sections are also visible below.

Step 3 of 3 Sync Dynamics ATS with RSC.

- a Refresh your Dynamics ATS dashboard.
- b Go to **“Integrations”** > **“LinkedIn”** to confirm that RSC integrations have been enabled.
- c Click the sync icon and then click **“Sync”**.

The screenshot shows the Dynamics ATS Recruiting Hub interface. The left sidebar contains navigation options like Projects, Applications, Submissions, Interviews, Placements, Skills, Employers, Education, Degrees, Certifications, Awards, Tools, Reports, and Settings. The main content area is titled 'Integration' and shows settings for 'LinkedIn'. The settings include Name, Key, Client id, and Secret, all with lock icons indicating they are read-only. Below these is an 'Integration Status' table.

Status	Name ↑	Tenant	Integration
ENABLED	CSA_API	RECRUITER	CSA_API
ENABLED	IN_ATS_INDICATOR	RECRUITER	IN_ATS_INDICATOR
ENABLED	ONE_CLICK_EXPORT	RECRUITER	ONE_CLICK_EXPORT
ENABLED	PROFILE_PLUGIN	RECRUITER	PROFILE_PLUGIN

At the bottom of the settings panel, there is a 'LinkedIn RSC Sync' dialog box. It contains the following text:

LinkedIn RSC Sync

This process will synchronize all the Jobs, Candidates and Applications with LinkedIn RSC. You can re-run the process if there are synchronization errors and you fix the data in the ATS. Only records that were not synced or had sync error will be synced again. Once the process begins, you can close this window if you want or stay for progress report. If you want to comeback later for status report, just click on the sync button

Syncing Jobs: -
 Syncing Candidates: -
 Syncing Job Applications: -

Click Sync to start a new Synchronization process

Buttons: Sync, Cancel

Sourcing package

Unified Search

Save time by searching and sourcing from Dynamics ATS and LinkedIn simultaneously. Access Dynamics ATS candidate records not found on LinkedIn and explore LinkedIn outside your ATS, covering all your bases. Save candidates to a job and send InMail messages without leaving Dynamics ATS.

Note: You must activate [Recruiter System Connect \(RSC\)](#) to integrate Unified Search.

Save time with less searching

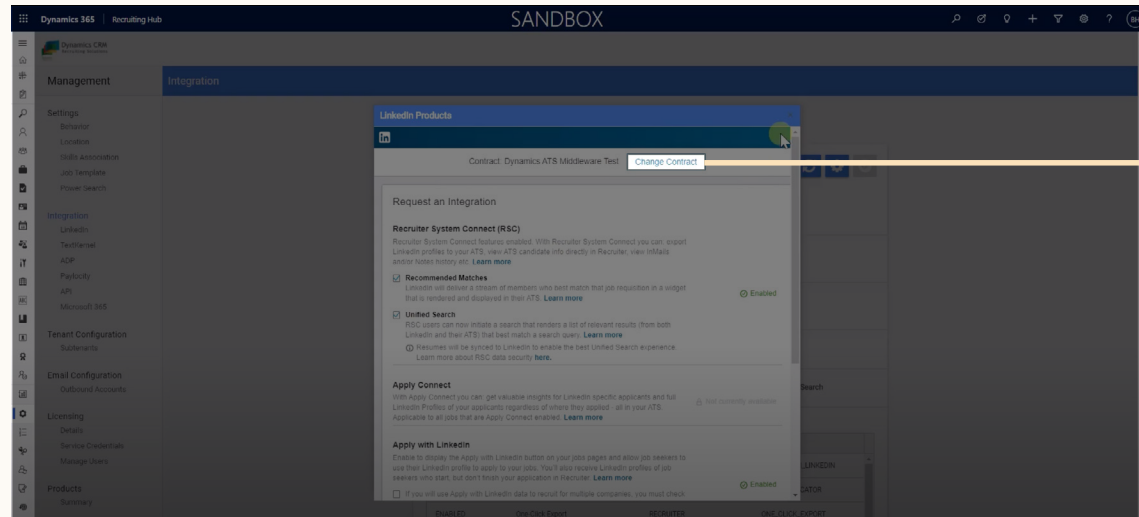

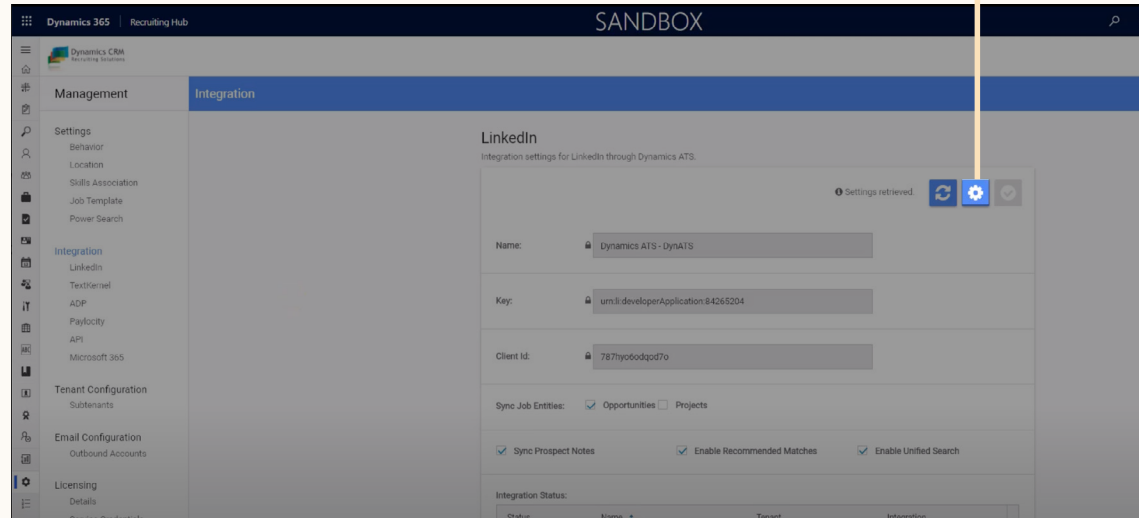

Find candidates across networks

Engage directly from Dynamics ATS

Step 1 of 2 Set up Unified Search in Dynamics ATS.

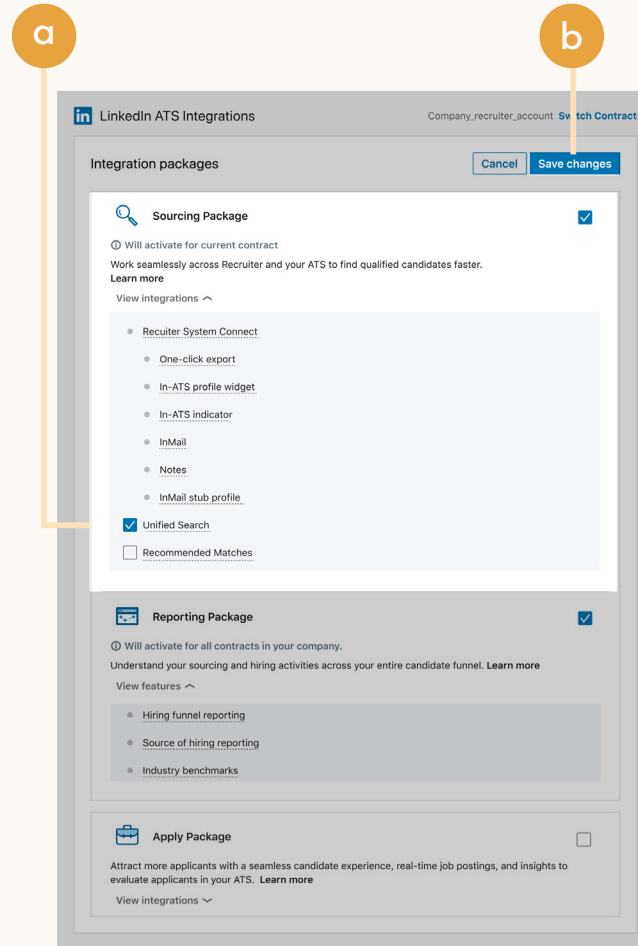

- a In Dynamics ATS > **“ATS Settings”** page > **“LinkedIn”** integration page, click the Settings icon to request integration.
- b Select the contract you wish to use (if you have more than one) with the integration. Click **“Continue”**.

Step 2 of 2 Set up Unified Search in Dynamics ATS.

- a You'll see the onboarding widget. Then check the **“Unified Search”** box to activate ATS Unified Search.
- b Hit **“Save changes”** to confirm integration activation. Your integration will be turned on at this point.

LinkedIn ATS Integrations → Sourcing → **Unified Search**

Sourcing package

Recommended Matches

Let LinkedIn do the work for you. Discover candidate recommendations based on job descriptions you post in your ATS. Save your favorite candidates, send them InMail messages, and easily archive candidates from your ATS. Matches continually improve with each use.

Note: You must activate [Recruiter System Connect \(RSC\)](#) to integrate Recommended Matches.

Get automatic recommendations

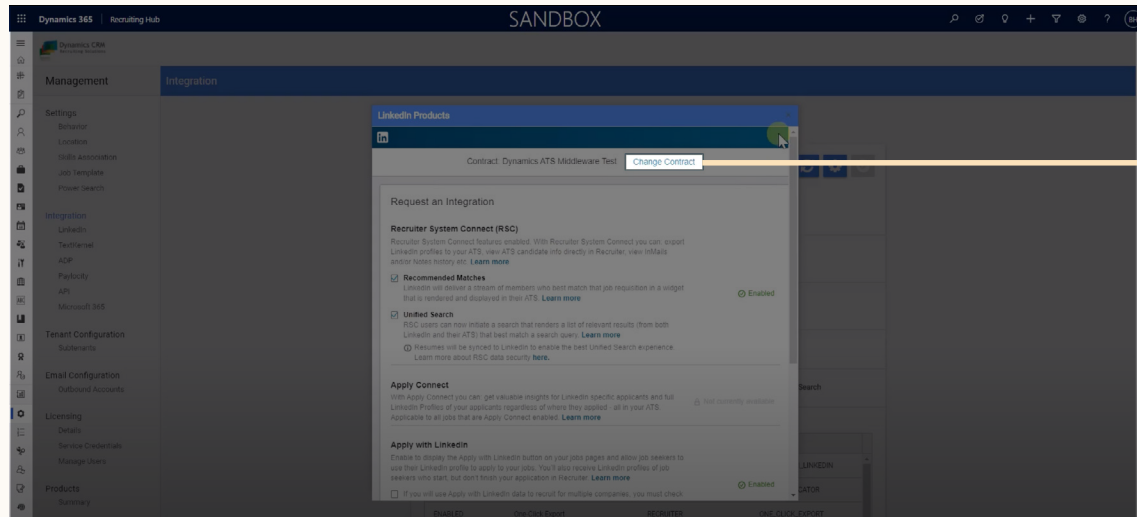

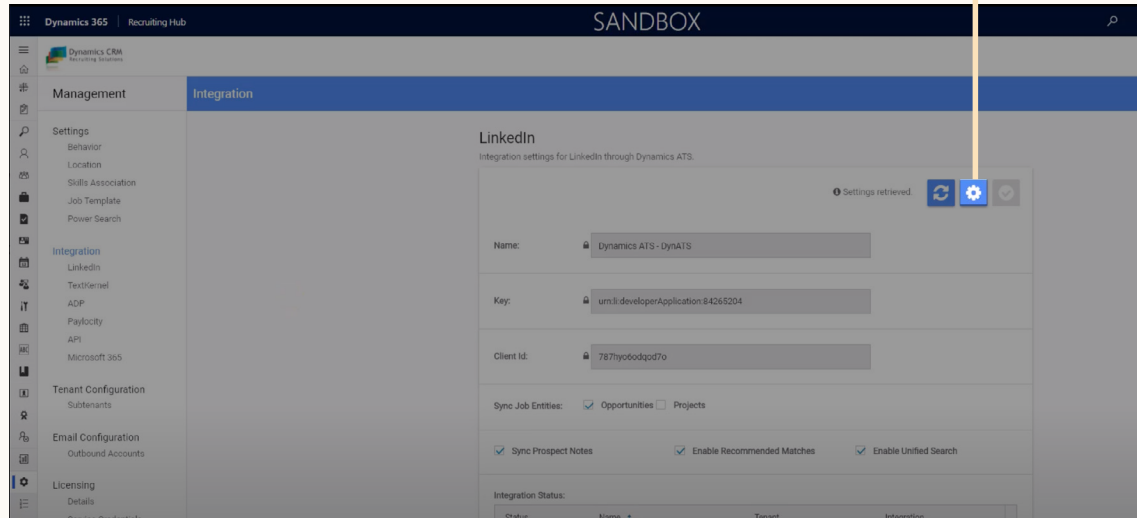

Discover qualified candidates faster

Engage directly from Dynamics ATS

Step 1 of 2 Set up Recommended Matches in Dynamics ATS.

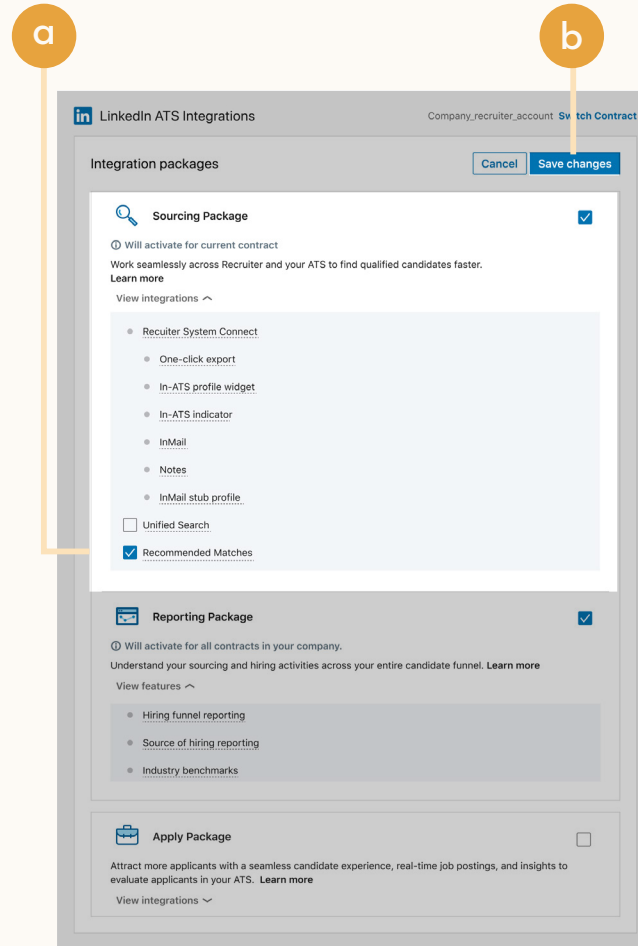

- a In Dynamics ATS > “ATS Settings” page > “LinkedIn” integration page, click the Settings icon to request integration.
- b Select the contract you wish to use (if you have more than one) with the integration. Click “Continue”.

Step 2 of 2 Set up Recommended Matches in Dynamics ATS.

- a You'll see the onboarding widget. Then check the **"Recommended Matches"** to activate ATS Recommended Matches.
- b Hit **"Save changes"** to confirm integration activation. Your integration will be turned on at this point.

LinkedIn ATS Integrations → Sourcing → Recommended Matches

Reporting package

ATS-Enabled Reporting

Gain insight across your end-to-end hiring funnel to optimize where you spend your time and understand the value of all your sources, including LinkedIn. This integration is available for any customer who has activated RSC.

Gain more actionable insights

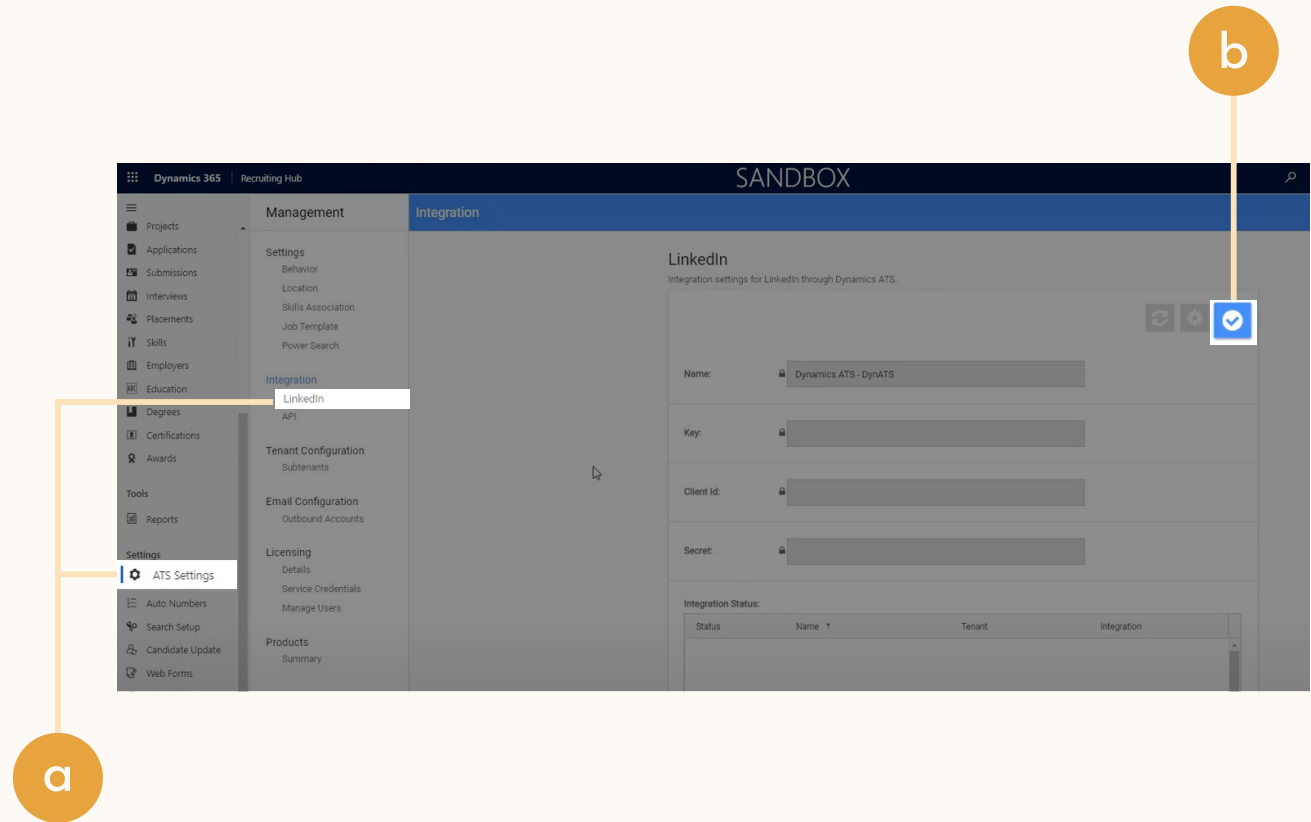

Discover valuable sources

Make more informed decisions

Step 1 of 2 Set up ATS-Enabled Reporting in Dynamics ATS.

- a Make sure you are signed in to LinkedIn Recruiter. Then, in Dynamics ATS, go to **“ATS Settings” > “Integrations” > “LinkedIn”**.
- b Click **“Activate”**.

Step 2 of 2 Set up ATS-Enabled Reporting in Dynamics ATS.

- a You'll see the onboarding widget. Then check the **"Reporting Package"** to activate ATS-Enabled Reporting.
- b Click **"Save changes"** to confirm integration activation. Your integration will be turned on at this point.

The screenshot displays the 'LinkedIn ATS Integrations' interface for a 'Company_recruiter_account'. At the top right, there is a 'Switch Contract' link. Below this, the 'Integration packages' section contains three items:

- Sourcing Package**: Includes a magnifying glass icon, a checkmark in a box, and the status 'Activated for your current contract'. Description: 'Work seamlessly across Recruiter and your ATS to find qualified candidates faster. Learn more'. A 'View integrations' dropdown is present.
- Reporting Package**: Includes a calendar icon, a checkmark in a box, and the status 'Activated for all contracts in your company.'. Description: 'Understand your sourcing and hiring activities across your entire candidate funnel. Learn more'. A 'View features' dropdown is present.
- Apply Package**: Includes a briefcase icon, an unchecked checkbox, and the status 'Not activated'. Description: 'Attract more applicants with a seamless candidate experience, real-time job postings, and insights to evaluate applicants in your ATS. Learn more'. A 'View integrations' dropdown is present.

At the top right of the integration list, there are two buttons: 'Cancel' and 'Save changes'. An orange callout 'b' points to the 'Save changes' button. Another orange callout 'a' points to the 'Reporting Package' section.

Apply package

Apply Connect

Optimize your candidate experience and encourage more job seekers to easily apply. Post your roles in real-time to LinkedIn from Dynamics ATS and leverage dynamic LinkedIn profile and application data in Dynamics ATS including relevant skills based on the job. Enable applicant notifications to send application status updates automatically to candidates across key stages in the application cycle.

Coming soon!

Get dynamic LinkedIn Profile information

Find qualified applicants faster

Reduce candidate drop-off

Optional step Adjust your access settings in Recruiter.

- a Open your LinkedIn Recruiter Admin account in a new tab.
- b Scroll down to your Dynamics ATS section.
- c Connect “**Contract Level Access**”, “**Company Level Access**”, or both by clicking “**On**” for the desired access.
- d Activate 1-click export to quickly transfer simple candidate information to your ATS.
- e Activate the InMail Stub Profile API to create or update profiles in your ATS when a candidate consents to share their contact information with your company via InMail.

The screenshot shows the LinkedIn Recruiter Admin interface. The top navigation bar includes 'Recruiter', 'Projects', 'Jobs', and 'Reports'. A search bar is on the right. The left sidebar contains 'Company Settings' (Usage overview, Job posting, Preferences), 'Recruiting Settings' (Tags, Custom fields, Message templates, Custom pipeline), and 'Advanced' (ATS integration). The main content area is titled 'ATS Integration' and shows settings for 'Dynamics ATS' (Application ID: 01234567). Under 'Contract Level Access', there is a toggle for 'Contract Level Access' (On/Off) and a toggle for 'Company Level Access' (On/Off). Under 'RSC advanced settings', there is a toggle for '1 click export' (On/Off) and a toggle for 'Inmail stub profile API' (On/Off). Callout 'a' points to the top navigation bar, 'b' points to the Dynamics ATS section header, 'c' points to the 'Contract Level Access' toggle, 'd' points to the '1 click export' toggle, and 'e' points to the 'Inmail stub profile API' toggle. The user profile 'Ethan Burton' is visible in the top right corner.
