Zoom Enhancement: Assign Zoom Host

Assign Zoom hosts for smoother interview scheduling

When scheduling interviews, ensure you have your Zoom integration turned on. You can now select a meeting host and enable concurrent interviews to take place, providing a seamless experience for hiring teams.

Note: to designate someone as a meeting host, they must first be either on the interview panel or the meeting scheduler.

Learn more by referencing the activation guide.

Employee-Initiated Referrals

Expand your talent pool with employee-initiated referrals

Host your company's open jobs on a single page and allow employees to submit referrals via your career site. The recruiting team will be able to access referrals within the Talent Pool section of Talent Hub.

Interested in trying this feature out? Make sure to first set up a career site.

Learn more on how to enable referrals and submit a referral.

Disposition Reporting

Discover your top blockers to candidate conversion.

Understand the most common reasons candidates leave your pipeline and identify opportunities to improve your overall recruitment process.

Monitor disposition trends by setting up a regular cadence to export and analyze the report. Understanding these trends can decrease time and cost per hire long-term.

Visit our Help Article to learn more.
