Explore Career Paths

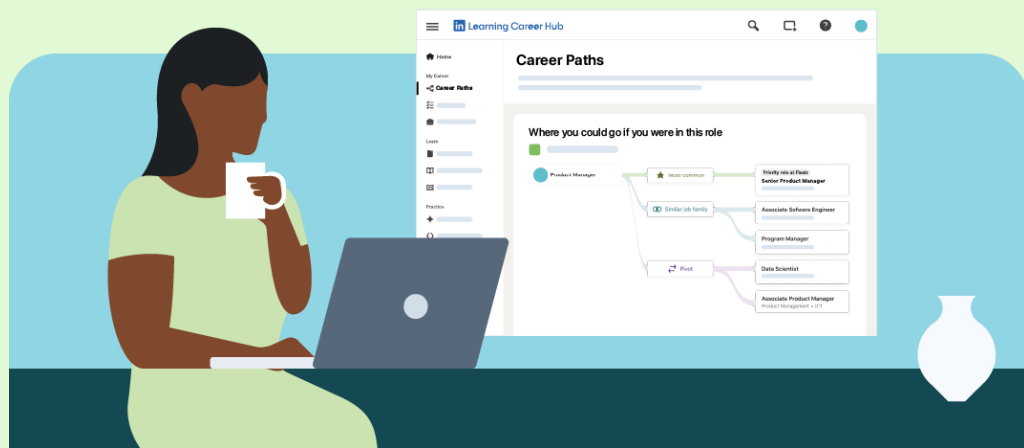

Set Goals. Learn Smarter. Advance in Your Career.

Turn ambition into action with career goals and AI-powered career plans.

Set a career goal and get a personalized plan built around what matters most to you. *Learners that set a career goal come back to learn 5x times more often.*

- **Explore and adjust your plan**—tailor it to your role, skills, and ambitions.
- **Take action with confidence**—follow recommendations designed to help you close skill gaps and achieve your next opportunity.
- **Access curated resources**—discover learning paths and tools crafted to accelerate your growth and success.

Explore Career Paths

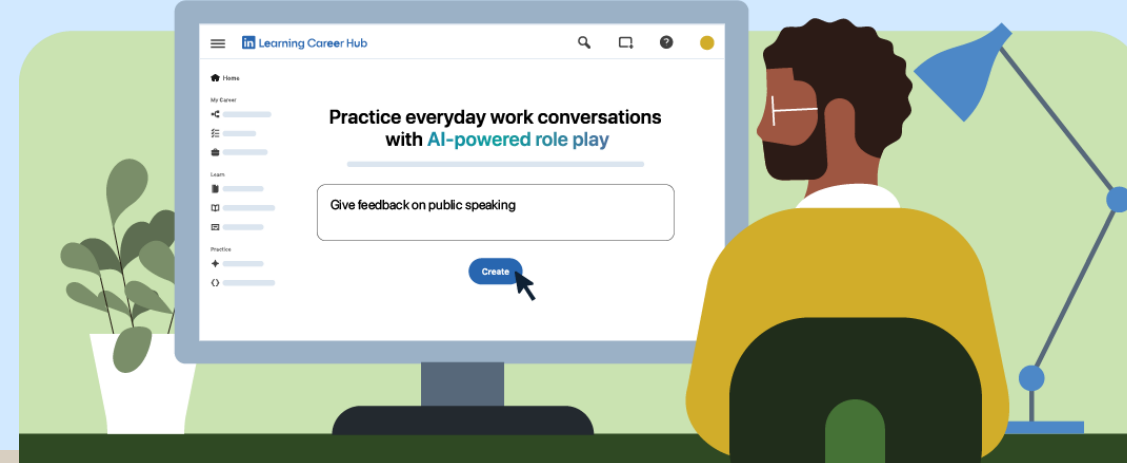

Grow the right skills faster with immersive personalized learning experiences.

AI-powered coaching and immersive role play help you build critical human skills with confidence and apply them in real situations.

- **Practice in realistic scenarios**—engage in role plays in a safe environment, so you can try new skills without pressure.
- **Get actionable feedback**—identify skill gaps and receive personalized guidance to improve.
- **Access tailored content**—explore recommendations designed to match your role, goals, and learning needs, crafted by LinkedIn's expert instructional designers.

Try Role Play

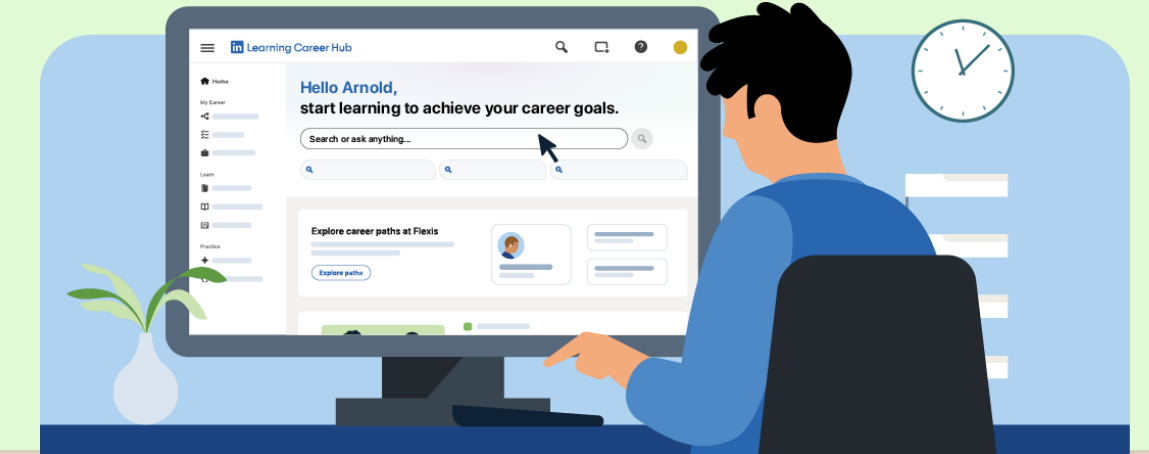

Gain visibility into internal opportunities to grow within your company.

Discover internal opportunities with an integrated job board right inside Career Hub.

- **Explore and filter roles**—see all open positions without leaving the platform, with personalized suggestions based on your skills and career goals.
- **Express interest**—signal your mobility preferences directly on the job board to get noticed.
- **Get spotlighted**—recruiters can highlight employees for roles that fit their skills. Stay informed—receive automated alerts for opportunities you care about, so you never miss the right role.

Learn about Internal Jobs

“I loved the AI-powered role play feature — the feedback was on point and made me want to revisit scenarios for a second try. This is a valuable tool we can provide to managers to practice performance conversations throughout the year.”

- Abby Pinto, Director of Talent Development at Thomson Reuters
